House Committee Approves Beer Bill

Washington, Dec. 15.—Modification bill, but the committee agreed to the manufacture and sale of beer of 3.2 per cent. alcoholic content by weight was approved today by the powerful House Ways and Means Committee with a swiftness of action that surprised both its ardent supporters and avowed opponents.

The provision to legalize wine was eliminated from the original Collier of the Volstead law to permit consider a separate measure at a meeting probably tomorrow which would give the House an opportunity to vote on the proposition.

Chairman Collier estimated that the beer bill, if enacted, would "provide \$175,000,000 a year at least in revenue, and will go far toward balancing the budget." He plans to call it up for House action Tuesday. The vote ordering the bill reported to the House was 17 to 7 with party lines split.

Oysters for All
EXTRA! The inside story of the oyster!
When this scoop was recently made by science, it revealed curious things in the hidden life of that bit of sea-mystery which had for so many centuries "shut itself up like a clam." When the scientists, however, pried open the shell of this reticent creature, the oyster, they pried into many of his family secrets. And since canning has made oysters available for those who live inland as well as shore-dwellers, the facts concerning the oyster are of universal interest.
