Antics of the Lightning

From all accounts the lightning in Thursday night's storm was bad, especially at the convict camp. Lon Sisk has furnished the Reporter with a description of some of the antics of the electricity. He says he particularly noticed the bolt that hit Reed George (we're glad to say George was unhurt.) Lon says the shaft came down in a zig-zag shape through the woods, taking its own time and doing queer stunts as if it enjoyed the anticipation of what it meant to do, but that after it had hit Reed, and finding there was nothing doing, it was not near so gay, and that instead of any more zig-zag stunts, it straightened out into a straight streak and left in such a hurry that it even forgot to thunder.

A Timely Warning—Look After Your Car Brakes

On yesterday I was talking to two friends on the street, when two cars came down going east, one a heavy loaded truck, on his side, another car close behind in the middle of the road.

I saw I couldn't get out of the way of both cars. I made a rush for the north side of the street in the path of a car, driven by Mr. Fred Hutchins. I was mixed up with the three cars, but for the presence of mind and good brakes, on the car going west, I would have been playing with death.

Most cars will run, but they can't stop without good brakes in emergency.

This is a warning to me and others to keep out of the roads talking when there is much traffic.

A walk way, one side of a highway, would save accidents.

Look after your brakes before it is too late.

AT SANDY RIDGE WED., JULY 25TH

FARMERS INTERESTED IN MILK SALES, SHOULD ATTEND — THE 4-H CLUB STATE SHORT COURSE—CHECKING TOBACCO FARMERS.

Following the meeting held recently for farmers interested in the production and sale of butter fat, a second meeting is called at Sandy Ridge on Wednesday at 8 p. m., July 25, at which Geo. A. Covington, of the Lindale Dairy, High Point, and W. L. Cleveland, State College, will meet the farmers of Stokes who are interested in getting a sale for sour cream. It is understood that Mr. Covington will tell the people under what conditions he can buy the cream and the price he can pay at this time. The public, and especially those interested in the proposition, are cordially invited to attend this meeting.

The annual 4H Club State Short Course is scheduled to be held at State College, July 25, to 30, inclusive. Club members who are regularly enrolled in the organization, having one or more definite projects under way and preferably between 14 and 19 years of age are eligible to attend this State meeting of young folks. The total cost of this short course will be a registration fee of \$4.50 which will take care of the board, car fare, fees, etc., while at Raleigh. Rooms will be furnished without charge, but each club member attending will be expected to take his own bed linen, blankets, towels, and toilet articles.

Sight seeing trips have been arranged for all those who attend. Courses of instruction in poultry, crops and livestock work for the boys and in Domestic Art and Home Economics for the girls as well as training for leadership in directing recreational work such as plays, games and dramatics.

Not less than a dozen Stokes club members should attend this short course. Each club should send one or more members. The transportation to and from Raleigh will be borne by the individual, but this should prove inexpensive. Those who will make the trip should notify the county agent.

Checking tobacco farms for compliance is getting well under way in Stokes in spite of the fact that much of the equipment for this work has not arrived. A number of farms in Sauratown, Snow Creek, Yadkin and Big Creek townships have already been checked and the tobacco acreage surveyed. The work will start in other sections just as soon as the equipment to do this work can be secured. More than 25 supervisors have been appointed for this work.

When the work is well started one supervisor will make the survey and get the information from the grower on each farm. The
