THREE PRISONERS ESCAPE FROM CAMP

MISUNDERSTANDING OVER RESPONSIBILITY LEADS TO TEMPORARY SUSPENSION OF A. G. SISK, NIGHT WATCHMAN — STATE TO MAKE INVESTIGATION THIS WEEK.

TWO RECAPTURED.

Sunday night or rather early Monday A. M., probably about 3:00 o'clock, three negro prisoners at the State convict camp, two miles east of Danbury, escaped from their confinement by prizing loose boards in the roof of their cell.

Those who made the get-away are as follows:

Robert Fisher of High Point, under 6-year sentence for burglary. He had served more than 5 years of his imprisonment.

Odell Jones of Winston-Salem, sentenced for 30 months for larceny and receiving. Had served 5 months.

James Norris, of Winston-Salem, under 90-day sentence for larceny.

At the time of the escape the prisoners were under charge of A. G. Sisk, night watchman.

Without waiting for an investigation by State prison authorities, which is expected this week, Superintendent of the Camp P. H. Hanes requested Mr. Sisk to accept a suspension from his duties for a few days, pending developments, which the latter promptly agreed to.

A representative of the Reporter visited the camp headquarters Tuesday with the view of ascertaining facts as to the escape.

The prisoners are kept confined at night in wooden quarters built like a box-car, with a double deck of tiers or bunks on either side. The size of the room is 10x30 feet. It is constructed of pine boards, and of a flimsy pattern for the confinement of desperate criminals.

There are bunks for the accommodation of 16 prisoners per room. Three of these rooms or cells, set at right angles, converge upon the front chamber in which the guard or night watchman sleeps.

On Sunday night Mr. Sisk was on duty as usual, and did not at any time sleep, as he says, but he sat and read some 25 feet away from the place of escape. He admits that he nodded occasionally.

A couple of prisoners lying on the top bunk may easily reach the ceiling or the roof of the cage with their feet. It is conceivable that two pairs of stout heels could soon kick a hole through the roof which is constituted of short pieces of pine board: six inches wide nailed at each end with one 8-penny spike, covered over with paper roofing.

A theory freely expressed is that the caged negroes were dancing and singing till late, keeping up a lively racket, while one or two inmates worked to make an opening at the corner of the roof farthest away from the guard.

Cigarettes increased nearly 55.5 per cent., chewing tobacco over 5 per cent., smoking tobacco approximately 35 per cent., and other products 17 per cent. Total shipments during the 1934 period amounted to 1,652,631,000 cigarettes; 845,700 pounds of chewing tobacco; 531,343 pounds of smoking tobacco; and 79,451 pounds of other products. The total value of manufactured tobacco products exported during the 1934 period was \$4,016,786 as against the 1933 period value of \$3,117,949, an increase of approximately 28.8 per cent.

The return to American leaf tobacco shippers during the first six months of 1934 amounted to \$41,319,564, an increase of 70 per cent. in income over the income from leaf business during the first six months of 1933, approximately 51 per cent. over the corresponding period of 1932 and approximately 22 per cent. under the value of leaf shipments during the first six months of 1929.

Bright flue-cured tobacco represented 66 per cent. in volume of all types of tobacco exported and accounted largely for the increased tobacco exports in the first six months of 1934.

HAIL-HIT FARMERS ASK AAA HELP

JOHN L. CHRISTIAN, FOR STOKES, AND JOHN H. FOLGER IN BEHALF OF SURRY, SURVEY DAMAGED CROPS AND WILL REQUEST AID OF FEDERAL GOVERNMENT — MORE THAN FOUR HUNDRED CROPS IN TWO COUNTIES INJURED — AVERAGE DAMAGE OVER FIFTY PER CENT.

John L. Christian in behalf of Stokes farmers, and John H. Folger, acting for Surry tobacco growers, are co-ordinating and consolidating their efforts to the end that the Federal government may lend aid to the hail-hit farmers of the two counties.

At Reynolds' school last Saturday Mr. Christian held a meeting at which a large number of tobacco growers were present. An effort was made to make a general survey of the situation as a result of the recent destructive hail storms in practically all of the western sections of the county.

A list of 198 Stokes farmers was compiled, showing an estimated damage of probably \$100,000. The average damage was found to exceed 50 per cent. Many crops were injured 85 to 95 per cent. The greatest destruction occurred in that region of Quaker Gap township extending from Reynolds school to Pilot Mountain.

It was learned that in Surry the number of damaged farmers was listed at 235, with an estimated loss around \$100,000.

The federal government is known to be coming to the rescue of drouth-ridden western farmers.

Messrs. Christian and Folger will at once begin negotiations with the AAA or the federal relief administration, looking to succor for those who have had their tobacco and corn crops either destroyed or damaged in a great measure.
