**GROWERS MAY YET SIGN CONTRACT**

FROM JAN. 7 AND CONTINUING THROUGH THE 21ST, THE OPPORTUNITY IS OPEN TO GET ON THE BAND WAGON — EQUALIZING PAYMENTS EXPECTED MARCH 1 — STOKES VOTES OVER 99 PER CENT. FOR KERR-SMITH.

Stokes county tobacco growers who for one or another reason failed to sign the acreage-reduction tobacco contract last year will be given another opportunity to sign. Beginning January 7th and continuing through January 21st tobacco growers wishing to sign contracts may do so by calling upon any member of the control committee or at the office of the county agent. The period for making new contracts will not remain open indefinitely, and those desiring to make contracts are urged to attend to this work during the period of time set for it. Prospective contract-signers will do well to get accurate figures for acreage and production on the farms to be signed before calling to see either the committee-men or county agent, and are urged not to take up any more of the time of committeemen than is required.

Contracts can be made on any farm or farms on which tobacco was produced and sold during the years of 1931, 1932, and 1933 but no provision has been made for making reduction contract on farms which did not have a tobacco base acreage and production.

**TURN IN ALLOTMENT CARDS TO GET EQUALIZING PAYMENT**

Tobacco growers who have finished marketing the 1934 crop are urged to bring their allotment cards in to the office of the county agent and there to sign the application for the equalizing payment. Growers are again reminded of the fact that it is required that all tenants producing tobacco on their farms during 1934 are also to sign the application for the equalizing payment. Unless all the tenants sign these applications, the payments will not be made. In cases where tenants have moved away, it is possible to mail the application to the tenant for his signature. Equalizing payments are expected about the 1st of March.

**TRANSFERS WILL BE MADE LATER**

Farms already under contracts or those not under contracts acquired by contract-signers can be transferred to the new owners the latter part of this month. This is a matter which can be handed in short order. The signatures of the old producers and interested parties as well as the signatures of the new producers and interested parties will be required. This work will be taken care of in time for each man to know where he stands, certainly as to what his allotment in both acreage and pounds will

**Change In Federal Road Aid Announced**

Washington, Dec. 28. — Resumption next year of the pre-depression policy of the federal government in aiding the states in the construction of highways was announced today by Secretary of Agriculture Wallace.

With publication of the apportionment of \$125,000,000 among the states for use beginning July 1, next, of which North Carolina will receive \$2,058,657. Prior to the effort of the administration to increase employment by extensive highway construction programs, who which large sums of federal money were made available, the government had contributed to the state highway programs on a 50-50 basis. Return to that system was authorized by Congress last June when it gave approval to an appropriation of \$125,000,000 for the coming fiscal year.

Reduction of the allotment to any state which diverts its gasoline or other motoring taxes is made possible under the Hayden-Cartwright act providing for federal highway aid, and was called to the attention of state officials today by Secretary Wallace. The law provides that federal aid for a state's highways shall be reduced unless the state used for highways at least the amounts provided by law on June 18, 1934, for that purpose from the state's gasoline and motor vehicle taxes and other special taxes on motor vehicle owners.

Reports in the daily press show that the vote carried in the state by approximately 99 per cent.

S. J. KIRBY, County Agent.

We built a highway system to be proud of . . . but we'll be ashamed of it if the "highway holiday" isn't ended.

Every mile of good roads cuts cost of car operation. That's why we pay gas taxes. Let's build the roads we have paid for.

Appeal to your legislators for justice to car owners—end the "highway holiday."
