As far as this newspaper is advised, those irregularities practiced by Democrats through the machinery of the absentee ballot law have been practically balanced off by similar irregularities on the part of Republicans. It is pretty well conceded that if fraud was practiced in Stokes in the late election, it was a 50-50 game played by both parties.

For a Democratic legislature to repeal this law with the election machinery in their own hands means a virtual acknowledgment that they have been dishonest in the elections, and that they confess to the public their fraud.

Most of this clamor for "fair elections" comes from candidates who were honestly defeated but who are looking for a place to put the blame, saving their faces.

North Carolina elections are conducted honestly and fairly in general, and exceptions may not be isolated to the prejudice of any particular party.

WORLD COURT

The United States of America has grown too big to stay out of European entanglements.

This may jar those who are wedded to old fashioned beliefs that we may stay aloof, mind ing our own affairs and letting the world go by.

In 1914-1917 we praised our President who could keep us out of war. But we couldn't be kept out. We were involved. We were sucked in. America has grown too big to stay out.

As long as American cotton, tobacco, oil. lumber and wheat, copper and automobiles. cigarettes and farm machinery find big markets across the waters, just so long must we maintain contacts and guard the interests of home afar from home.

The main point it seems to us, that Senator Reynolds has missed in his opposition to the world court is that, our aloofness can't prevent our liabilities-they are there just the same.

We are not bound by any decrees of the international tribunal. We are only there to know and see, which is for our better protection.

A. H. GRAHAM - Meanting, friends of Lieutenant Governor A. H. (Sandy) Graham are leaving no stone unturned in smoothing out the ground for him to make the race for Governor Many friends of the second-high man of North Carolina express confidence that neither Hoey of Doughton will make the race and that Mr. Graham will be the next Governor of North Caro lina. It's all being kept very quiet but so far the Senate's presiding officer hasn't done anything that observers classify as a political mistake and he has said that his luck with this General Assembly probably may have decided influence on his decision in the gubernatorial contest.

THE FIRST SNOWFALL

Je. A winter without snow is not best for the country, so say our older citizens. A light fall of the fleece here Sunday night delighted the kids but was not up to that standard preferred by farmers who who claim that a heavy blanket of snow, lying on the ground for weeks, is beneficial to the wheat and rye. It keeps the grain warm, and crowds out the freeze that warps and dwarfs the yield.

This has been so far a mild winter, considering the "shorn" lambs that are short on coal, and looking for a check from the FERA.

like everybody and his brother want to get their hands into tax money paid by automobile and truck owners of North Carolina. Around legislative halls can be heard many different proposal: for using gasoline and license money for other purposes than roads. Some want it to pay local government debts; others to establish employment offices and others for the schoole. But the State's roads, especially the secondary highways, are not in the pink of condition and legislators from rural counties know that. Also some bridges still levy tolls for passage. It's likely to be a merry fight before the question of diversion of highway

funds is settled.
