## STOKES FARMERS STAND BY AAA

OUR FARMERS, WITH TOBACCO GROWERS FROM FIVE STATES, MEET AT RALEIGH—WALLACE AND HUTSON ON HAND — WISE TO PLACE APPLICATIONS FOR LOANS NOW.

Stokes folks along with representative tobacco growers from five states comprising the Flue-Cured Belt assembled in a mass meeting in Raleigh on Monday, after hearing the Secretary of Agriculture Wallace and Chief Tobacco Section John B. Hutson, discuss the AAA program and the basis for increasing the crop to 85% in 1935, voted unanimously to thank the government for its aid to tobacco growers and to endorse the administration plans for the coming year.

Wallace told growers in the mass meeting in Raleigh why the AAA felt it wise to produce Flue-Cured tobacco sufficient to supply the domestic and foreign trade. He stated that the tobacco farmers of North Carolina are better off than any other group in America and cautioned them against a governmental created monopoly at the expenses of the public. The Secretary made a fine impression on the thousands who gathered to hear him and there is no question but that everyone went away with a clearer understanding of the government's purpose to establish a fair return for everyone.

### NO BLANKS YET

The application blanks in which there is considerable interest to be used in filing applications for tax-exempt allotments have not been received in the office of the County Agent, and in view of the fact that the form which will be used has again been changed, these blanks are not expected before the 2nd Monday in March.

### CONTRACT SIGNERS MAY HAVE ALLOTMENTS RAISED

Any contract-signer whose allotted pounds are too low for his allotted acres may apply to the county committee for an increase in pounds. The committee is authorized to use 3% of the County's base poundage with which to take care of requests of this kind. However, it should be borne in mind that where increases in either acreage or poundage is made the grower is rendered ineligible for any rental or benefit payments under the contract.

Where growers request that their poundage be increased to bring the figures up to where the production allotment will be in proportion to the acreage allotted under their contract, and the request is granted the growers automatically surrender their rental and equalizing payments.

### TRANSFERS WILL NOT BE ALLOWED

"Look to the pounds," will be a good slogan this year. It is stated that growers will not be permitted to either purchase or borrow their neighbors allotment

cards with which to sell their tobacco in 1935 and a good plan will be set as a production goal only the allotted pounds provided the pounds are not out of proportion to the acres. If a grower is allotted five acres and 3200 pounds under his contract and he realizes that he can produce 800 pounds of tobacco to the acre, it will be to his interest to plant only four acres even though he is allotted five acres.

On the other hand if a grower is allotted five acres and 6400 pounds and realizes that he produces only 800 pounds to the acre it will be his business to reduce the poundage in his contract because figures so much out of proportion would not gain for him anything. He will be neither able to sell his surplus poundage to his neighbor nor to realize in any other way upon it.

### BETTER APPLY FOR PRODUCTION LOANS

Some of the allotment cards are still out and the prospects are that the equalizing payments will not be here for at least 30 or 60 days. Where farmers need production Credit it will be well to place an application for a loan now. This may be repaid when the tobacco checks arrive.

Last year the farmers in this section through their own Production Credit Association loaned several thousand dollars and collected every cent of it. In the course of a few years this Association with continued success and increased membership will be in position to supply its members with all necessary production credit from its own organization. Those who line up with the Association now will be able to establish a credit rating which will later prove beneficial and to have a part in developing an organization through which considerable good can be rendered to the people as a whole.

KIRBY,  
County Agent.

### When You Come To Town

Don't forget that the Danbury Reporter's new quarters are in the Joyce old store building right on the corner below the Taylor old hotel.

You come here and don't come to see us leaving behind some substantial remembrance, and you are out of luck as well as we. You miss that sweet solace of conscience which comes from a duty well done, while we are short on that cordial expression of good will and practical encouragement which is necessary to the continued prosecution of our interesting but sometimes disheartening service.

Now you will, won't you?
