

## FALL BUILDING

While weather and working conditions are ideal, you should arrange for the building or repairing you want completed before wintry days add unnecessary costs and delay. Now is the opportune time to build. Labor costs and materials offer unequalled economies.

### MATERIALS:

Economy and lasting satisfaction calls for the very best quality materials in every building or repair job you do. Long years of experience have taught us that cheap and shoddy materials are always the most expensive. We insist upon quality first, at the most moderate prices.
