The Patriotic and public houses below extend a cord of Stokes county, and we wish you a most successful year.

We are proud of the success of the efficient teaching on the part of the teachers. It is realized that on the part of the students, is based the success of the school with the splendid staffs we have the most progressive of school year.

Teachers will find a friendly welcome among the people of Stokes county, a keen interest and strong desire to forward every step.

This welcome goes further than any aim—it is a welcome to the children for instruction we would have, a group of performing a fine service for the community as a whole.
