

Pigmy Elephants With Huge Circus

Mighty Ringling Bros. and Barnum & Bailey Combined Organizations Offer Among Vast Hosts Of New Features Col. Tim McCoy, Screen's Great Western Star, Midget African Elephants and Pongurs.

With one hundred double-length railroad cars, bearing 1600 people, African pigmy elephants, African pongurs, seven herds of full-sized elephants, 1009 menagerie animals and 700 horses, the Ringling Bros and Barnum & Bailey Combined Circus will arrive in WINSTON-SALEM, TUESDAY, OCT. 27 for afternoon and night exhibitions.

The circus is especially elated this season over the amazing success of the Big Show's sensational new super-feature — the first herd of African pigmy elephants (tiny tuskers that years ago attained their full growth) ever to leave the depths of darkest Africa, and the first herd of African elephants ever to set foot in America. The wierd midget pachyderms are accompanied by a herd of miniature African pongurs, world's smallest beasts of burden. These new importations have taken America by storm.

The Big Show's big top, seating 16,000 persons, covers seven rings and stages, a huge hippodrome track and encircling grandstands, and is one of 31 great tents, among them the menagerie sheltering the world's largest traveling zoo. In its center this season will be seen Col. Tim McCoy's Indian Village, with Sioux and Blackfeet warriors encamped. Col. McCoy, the screen's most outstanding western star, will himself lead his congress of rough riders of the world in the main performances and in the wild west.

The Greatest Show on Earth offers scores of foreign features this year, including the Nations, the Royal Bokaras, the Imperial Viennese, an assemblage of 60 free-running horses, ponies and elephants; the largest aerial ballet ever produced. Fresh from Europe are the Walkmirs, the Antaleks, the Buemrangs, the Momeos, the

Maschinos, the Robertos, the Willos, the Torrence-Victorios, the Rooneys, aerial novelty sensations, The Loyal-Repenskis, the Rieffenachs, the Walters, famous bare-back riding troupes; the two Guice aerial comedy troupes on the lefty bars; the two renowned Wallenda troupes of high wire thrillers; the Otaris, who fly in mass somersaults from an aerial cross; the Flying Concellos, with Antoinette, only girl to accomplish a two-and-a-half mid-air somersault to a hand-to-hand catch; the Flying Comets; Dorothy Herbert, madcap rider of reinless jumping horses over fire hurdles, and Hugo and Mario, human projectiles—these are some of the most prominent features of the superb 1936 Ringling Bros and Barnum & Bailey program.

Know Your Language

USE of superfluous words is frequent in both writing and conversation. "Hollow tube" is a case in point. By its very nature a tube is hollow; if it weren't hollow it wouldn't be a tube. "Actual fact" is another example. That which is a fact is an actuality, and that which is actual exists in fact. To write or say "It is an actual fact" is merely using a superfluous word to convey the same thought that "It is a fact" conveys.

Modifying words, phrases and clauses should be placed as close as possible to the words to which they relate. When this is forgotten odd results are likely to follow, as in the following sentence: "He carried a bag of peanuts in his hat, which he fed to the elephant." If it was his hat that he fed to the elephant, this is all right. Otherwise it is all wrong.

Beauty Hints

By Jane Heath

YOU can't trot off in the glaring summer sun and think your eyes are going to look lovely and your eyelashes fetchingly long—unless you take a few minutes out for a wee bit of care.

The sun has a tendency to make your eyes seem pale and your lashes practically non-existent. All you have to do to overcome this is use Kurlene. It is a scientifically compounded ointment made of rich natural oils. Apply it on the lower lashes, it will bring out their natural tone and you can be certain it will promote long silky growth.

Don't fail to pack Kurlash in your bag—or slip it in your purse. This precious little gadget curls your eyelashes in thirty seconds—and it is thirty seconds well spent. Curled lashes are so important—they make your eyes look larger, and in the sunlight throw flattering, subtle shadows that are guaranteed to fascinate eligible males.

And now for swimming! Did you know the liquid mascara called Lashint is not only delicately perfumed, but waterproof!

For tea dances at the vacation resorts when you are wearing pastel or flower printed frocks, try the new colors in Shadette eye shadow. Aqua blue, spring green, royal blue, violet, light blue, olive green. All magnificent with sun-tanned or golden browned skin. For dancing under the summer moon, we know of nothing more exciting than shading your eyelids with either gold or silver. The effect is really glamorous!

Summer Is Salad Time

By Jane Rogers

WHEN summer shows what it is really capable of by descending on us with one of its inevitable hot spells, our palates crave cool and refreshing foods. The salad is naturally our first thought, and a Pineapple-Tomato Aspic, with its delicate blend of tomato and natural, unsweetened Hawaiian pineapple juices, is guaranteed to revive the spirits of even the most heat-exhausted family or guests.

Pineapple-Tomato Aspic
 3 cups solid pack tomatoes
 1 teaspoon dried thyme
 1 teaspoon salt
 6 cloves
 1/2 bay leaf
 1/2 teaspoon Worcestershire sauce
 1/2 teaspoon grated onion
 2 drops Tabasco sauce
 1/2 teaspoon cayenne (optional)
 Small can of asparagus tips
 3 tablespoons gelatine
 2 cups canned Hawaiian pineapple juice
 Simmer the tomatoes with all of the seasonings and the water from

the can of asparagus about 20 minutes, or until the tomatoes are very soft. Then strain through a fine sieve, pressing through as much of the pulp as possible.

While this is cooking, soak the gelatine in 1/4 cup of the pineapple juice. Over this pour the hot tomato juice, and stir until gelatine is dissolved. Add remainder of pineapple juice. Rinse mold in cold water, place the asparagus tips in it in a regular design, pour in a little of the gelatine mixture and return to the refrigerator to harden. As soon as the mixture has set, add more of the gelatine, continue adding small quantities of the gelatine mixture until the mold is full. Thus the asparagus is kept on the bottom of the mold which, when inverted, becomes the top of the salad. Serve on crisp lettuce with mayonnaise or Louis Dressing. This will provide from six to eight servings.

Hints for Homemakers

By Jane Rogers

TAKE advantage of a cherished secret of Hawaiian cookery the next time you want your green vegetables to taste especially delicious. Instead of cooking in plain water use one-third natural, unsweetened Hawaiian pineapple juice and two-thirds water. You'll be delighted with the added tenderness and zest the vegetables acquire.

A discarded, but still firm-on-its-legs table can frequently be converted into a serviceable piece of furniture for the game room by adding a new top of wood fibre insulation, or tempered pressed wood. If the top is to be covered with cloth, the wood fibre insulation should be used and the cloth laid over it without glue. It can then be drawn tightly and fastened at the sides with large brass-headed upholstery nails. If the table is to be used for beverage glasses, etc., the uncovered, tempered pressed wood is suggested.
