AS TO THE 1937 TOBACCO PROGRAM

COUNTY AGENT SEARS EXPLAINS ABOUT TOBACCO BASES—COMMUNITY MEETINGS—MOVING PICTURE ON SOIL CONSERVATION.

T. H. Sears.

The establishment of tobacco bases on the different farms for the 1937 program will be based on the bases established under the AAA program, subject to such adjustments as the committeemen find necessary to make the bases fair and equitable.

The committees will be called in on certain days to hear any requests from the farmers in the different townships as to changes in their bases for the year. The date for the committee meeting for a certain township will be announced at the community or township meetings, so be present and find out when your committee will meet to hear your request.

It is requested that anyone who wishes to make a request for an adjustment make it on the day specified, because the committee will be hearing requests from other townships after that day. On the day scheduled for your township, your community and county committees will be present and will give your base careful consideration. Of course, this does not mean that they will be able to grant every request made, but they will do the best they can with the bases allotted to the county in both acres and pounds.

Community Meetings.

During the next week, we hope to hold local meetings in each township to discuss the 1937 program. The dates of all these meetings will be worked out later and each grower within the township will be notified.

We feel that where there is a better understanding of the program the individual grower will be in a better position to comply with the program and earn the full amount.

REAL ESTATE TO BE REVALUED

COUNTY COMMISSIONERS ORDER WORK TO START APRIL 1 — ONE DEMOCRAT AND ONE REPUBLICAN ASSESSORS FOR EACH TOWNSHIP—LIST OF LISTERS AND ASSESSORS.

At their regular meeting here Monday the board of county commissioners, composed of Joyce, chairman; Gibson and Johnson, ordered a revaluation of all real estate for the county for the year 1937 to start April 1.

Each tax lister is instructed to list personal property and also serve as a member of the assessing board in their township.

The board appointed one Republican and one Democrat in each township to serve as assessors.

The tax lister must list personal property this time on the premises instead of having dates as heretofore. He will list personal property as they travel from farm to farm.

Instead of having an assistant tax lister to take farm reports one of the members of the assessing board will do that work with a saving to the county.

The list of listers and assessors follow:

Danbury—H. G. Alley, lister, S. A. Flinchum and S. P. Christian, assessors.

Peters Creek—Harry Martin, lister, Jas. L. Moore, Rufus Mabe, assessors.

Big Creek—Ernest Collins, lister, Edgar Palmer, L. L. Lowe, assessors.

Snow Creek—Willis Moore, lister, R. O. Joyce, J. S. Joyce, assessors.

Quaker Gap—T. M. Smith, lister, R. T. Pell, Jesse George, assessors.

Beaver Island—Whit McCollum, lister, J. Van Tuttle, T. G. Reynolds, assessors.

Meadows township—J. E. Mitchell, lister, Marvin Young, Wiley G. Tuttle, assessors.

Sauratown township—J. C. Craig, lister, Ralph R. Mills, M. O. Jones, assessors.

Yadkin—W. B. Lane, lister, J. P. Ferguson, Z. D. Covington, assessors.

The law requires that assessors be free holders.

Peaches May Be Ruined By Snow

Raleigh.—Peach growers, agricultural officials and farm agent expressed for today that North Carolina's peach crop—a \$43,000,000 enterprise last year—has been damaged greatly by cold and snow.

Some sections believed their entire crop killed by the cold of the past few weeks and the heavy snow which blanketed the State over the week-end.

R. B. Etheridge, chief of the division of markets of the State Agriculture Department, said he could not attempt to estimate the damage done by the freezing weather.

"It would be impossible to estimate the damage with any degree of accuracy," he said. "It will be at least ten days before we can begin to tell the extent of the damage to the peach crop."
