# ALLAN D. IVIE, JR., WILL ENTER RACE AS CANDIDATE FOR DISTRICT SOLICITOR

## PROMINENT ATTORNEY TO SEEK OFFICE

"DEFINITELY IN RACE", HE INFORMS REPRESENTATIVE OF THE NEWS — IS WELL QUALIFIED.

Upon being interviewed by a representative of The News last night, Allan D. Ivie, Jr. young and prominent local attorney, gave credence to the rumors that he would be a candidate for the Democratic nomination for solicitor in the 21st judicial district when he stated he had decided to enter the race. For some time reports had been circulated that he would be a candidate but this is the first statement he has directly made to the press concerning his intentions in the solicitorship contest.

The present solicitor, Allen Cwyn, Reidsville, will be a candidate for the judiciary, which leaves the post he now holds open to a new aspirant, and from all reports throughout Leaksville township and Rockingham county there is assurance that Mr. Ivie's candidacy will receive strong support where his qualifications as attorney and jurist are well and widely known. Especially in his home town of Leaksville is he assured the full backing of Democratic voters.

Mr. Ivie is a native of Leaksville and a member of one of its most prominent families, being the eldest son of the late Allan D. Ivie, who was a prominent member of the bar and served in the State Senate.

Mr. Ivie has been successfully engaged in the practice of law in Leaksville for the past ten years. Receiving his early schooling in Leaksville, he entered Duke University where he obtained his literary and legal education. When only 20 years of age he passed his examinations to the bar but had to wait until his 21st birthday in December, 1927, the age requirement in this state, before he could practice, becoming one of the youngest men to become engaged in the legal profession in the state.

Like his father before him, Mr. Ivie has always been an ardent Democrat and a zealous worker for that party. He served as solicitor of the Leaksville Township Recorder's Court for one term and was reappointed for another but resigned within a month of his reappointment to resume his private law practice. It was while he held the office of solicitor that he won the praise and compliments of a great many on the manner in which he displayed his keen judicial sense and attained an enviable reputation as a trial lawyer. He dis-

Leaksville attorney, who will seek the Democratic nomination for solicitor in the 21st judicial district.

charged his duties in that office with efficiency and dispatch.

Mr. Ivie needs no introduction to the people of this county and his large legion of friends are convinced that his candidacy for district solicitor will find the people of Rockingham solidly behind him.

The demand on his legal talents however, have not found Mr. Ivie wanting when called upon to give his time and his efforts in community affairs. He has ever been active in the promotion of those things for the best interests, the uplift and progress of his city, county and state. He is a former member of the Leaksville-Spray Rotary Club.

Since an early age he has been a member of the Leaksville Methodist church in which he has always taken an active interest. For several years he was teacher of the Men's Bible Class and he is frequently called upon to fill engagements for addresses before other churches and Sunday Schools throughout a wide territory.

Mr. Ivie is married and they have one son, Allan D. Ivie, 3rd. He and his family live in their modest home in Leaksville, adjoining the old home place where Mr. Ivie was born.

Those who know Allan Ivie are convinced that he will bring into the campaign a vigor which has characterized his other many activities; that it will be fought upon a clean and high basis in keeping with the integrity and high character of his private and professional life; and that his campaign will be pitched and maintained along those lines which have won for him the respect and confidence of all who know and have had dealings with him. Furthermore, his friends are confident that as he goes out into the District his candidacy will find a prompt and ready reception on the part of the citizen-

## Letter From Banner Warehouse

Martinsville, Va.,  
October 19, 1937.

To The Danbury Reporter:  
Farmers are delighted with their prices on the Martinsville tobacco market, and more farmers are selling with us than ever before.

Prices are the highest of the season so far this week. The Banner Warehouse averaged for their entire sale Monday, \$27.13, with a big lot of low grade tobacco on sale. It is true the common and dark grades of leaf with bodie and quality are selling better as well as all grades and types of cigarette tobacco. Dark wrappers in active demand and selling up to 60 cents, and a few lots higher. Just to show the trend of prices, we give you a few recent sales as follows, and many others just as good. Sales follow:

### ERNEST WILLIAMS

## New Miracles Of The Photoelectric Cell

By James D. Purdy  
Director, Schools of Electrical Engineering, International Correspondence Schools

TRANSPERANCE of light impulses into electrical impulses through the medium of a photoelectric cell is the basis of a newly invented method for the transmission of color photographs over long distance telephone circuits. In a recent demonstration of the method a three-color photograph was transmitted by telephone from Chicago to New York.

The United States Bureau of Standards has developed a balloon device to determine the safe flying ceiling during foggy weather. As the balloon ascends a photoelectric cell measures the light at different levels. Varying brightness of the light causes a change in the pitch radio signal which the device its to the recorder on the

A photoelectric device is now available for measuring light reflected from a wall or other flat surface. A hollow metal sphere is brought into position with its opening against the surface to be tested. Light is directed into the sphere through a tubular arm. An electric eye accurately measures the amount of light reflected from the surface.

## Radway's Pills FOR CONSTIPATION

What They Are: A mild reliable vegetable laxative which does not grip, cause distress or disturb digestion. No habit forming. Contains no harmful drugs.

What They Do: Millions of men and women, since 1847, have used them to relieve sick headaches, nervousness, fatigue, loss of appetite, poor complexion and bad breath when these conditions are caused by constipation.

## New Miracles Of The Photoelectric Cell

By James D. Purdy  
Director, Schools of Electrical Engineering, International Correspondence Schools

A METHOD of transmitting news bulletins by television has been developed by a New York inventor. At the transmitting station an electric typewriter types the bulletins on transparent tape. A light beam passes through the tape to a photoelectric cell which transforms the variations in light intensity into electric impulses that are sent out by short-wave radio. The receiving apparatus re-transforms the impulses into light of varying intensity and projects the original letters or numbers onto a screen.

The photoelectric cell and a light beam from a standard automobile headlight, from which all visible rays of the light spectrum have been filtered, are employed in the latest protective device against burglars or other intruders. By a system of mirrors the invisible light beam is reflected back and forth throughout the area to be protected. Energy released by any interference between the beam and a photoelectric cell or cells can be used to sound a bell or siren, or even to transmit an alarm by telephone.

Automobile headlights can now be tested by a photoelectric cell meter. When the device is placed against the lens of the headlight a dial reading gives the volume and intensity of light. Another device based on the use of the photoelectric cell has been developed to grade milk. The device measures the degree to which various samples of milk transmit light, and grades them accordingly.

I'M FEELING FINE THIS MORNING - FREE FROM THAT THROBBING HEADACHE AND READY FOR A GOOD DAY'S WORK.

All people who suffer occasionally from headaches ought to know this way to quick relief.

At the first sign of such pain, take two Bayer Aspirin tablets with a half glass of water. Sometimes if the pain is more severe, a second dose is necessary later, according to directions.

If headaches keep coming back we advise you to see your own physician. He will look for the cause in order to correct it.

The price now is only 15¢ for twelve tablets or two full dozen for 25 cents — virtually, only a cent apiece.

15¢ FOR 12 TABLETS virtually 1 cent a tablet
