

Unemployed Insurance Benefits to Start Soon

Washington, Dec. 27.—Officials of the social security board expect business to receive a lift about February 1 from the payment of unemployment insurance benefits in 21 states and the District of Columbia.

Board officials said today time alone would tell how much of the 437,800,000 reserve of the unemployment insurance systems would be paid out this winter. They said they would have no idea until insured workers who have lost their jobs begin to register after January 1.

An immediate upswing in business probably would reduce the amount considerably, the officials added.

"Unemployment insurance is not a cure for the problem of unemployment," one said. "Work and a wage are the only cure for being out of a job."

"Shock Absorber."

"But unemployment benefits will act as a shock absorber during periods of unemployment, both for business in general.

"They will buy groceries and help pay the rent. Money will flow back to local trade and help check the loss of sales by stores, loss of orders by factories, more lay-offs, more people without wages, still less business, still more unemployed."

The 22 unemployment insurance systems scheduled to start payments within the next two

months vary to some extent, but have many similarities.

All provide unemployment benefits only for persons who have had jobs since the systems were established.

Most of them cover workers whose employers also employed at least seven others. This lets out the single clerk in a grocery store, for instance. Only in the District of Columbia, Minnesota and Pennsylvania are single employees covered.

All the systems require the insured unemployed to register at an employment office and to wait several weeks before receiving benefits. During that waiting period, the unemployed man, or woman, must take any suitable job that turns up.

Sixteen-Week Limit.

Michigan's maximum weekly benefit is \$16. The maximum of all the others is \$15. Some have no minimums, but the minimums of most range from \$5 to \$7, depending on the time worked and pay received by the worker during the previous year.

The benefits will continue from 12 to 22.6 weeks, most of the states having a 16-week limit.

The 22 systems to start payments soon are these:

Alabama, Arizona, California, Connecticut, District of Columbia, Louisiana, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New York, North Carolina, Oregon, Pennsylvania, Rhode Island, Tennessee, Texas,

Utah, Vermont, Virginia and West Virginia.

Eight other states will start payments later in 1938.

These, and the months in which their insured jobless may begin registering to receive benefits, are: Indiana and Mississippi, April; Iowa, South Carolina and Michigan, July; Idaho, September; New Mexico and Oklahoma, December.

Board officials say they expect the entire country to be covered in 1939.

Wedding Of Norman Dunlap and Miss Mary Zimmerman

On December 23 in Winston-Salem, Miss Mary Zimmerman became the bride of Mr. Norman Dunlap. Both these young people are of Walnut Cove. Miss Zimmerman is the very attractive and popular daughter of Mr. and Mrs. J. I. Zimmerman, and is a favorite with the younger circle of Walnut Cove society. Mr. Dunlap is a son of ex-Sheriff and Mrs. J. Frank Dunlap. He is a boy of promising future, and will succeed in life.

The young couple are the recipients of a storm of congratulations and good wishes from many friends.

LOST—One Walker hound, white and black spotted, medium sized, male, lost near Flatshoal mountain. Has collar with name H. C. HEATH, Route 1, Winston-Salem. Reward.

H. C. HEATH,
Winston-Salem, N. C. R. 1.

TOBACCO PLANTS

REIDSVILLE, N. C., R. F. D.

OCTOBER 15, 1937.

The American Agricultural Chemical Company,
Greensboro, N. C.

Gentlemen:

Replying to your letter asking me how I like AGRICO FOR PLANT BEDS, I am writing to say I like it so much that I expect to use AGRICO again next Spring on my tobacco plants.

I had no trouble in getting a stand with plants which were grown on AGRICO with no top dressing of any kind. I used AGRICO under about twenty thousand (20,000) yards.

I also used AGRICO FOR TOBACCO on about two hundred and fifty (250) acres of tobacco and am so highly pleased that I expect to use it again next year which will be my third year.

I believe it will pay any tobacco grower to use AGRICO on his tobacco plant beds and his tobacco crop. It has certainly paid me well. It ripens tobacco earlier, grows a fine quality leaf with smaller stems and fibers and a good poundage per acre, all of which contribute to getting the most dollars per acre for our tobacco.

Yours very truly,

T. HOWARD SLADE.

FOR SALE.

Nice farm, 91 1-2 acres, located on the hard-surface United States Highway No. 1 about six miles north of Sanford, within one-half mile of good church and one of the best schools in Lee county, priced right. Address M. W. HARRIS, Box 190, Sanford, North Carolina.
