WHEN HITLER WINS, WILL HELL BREAK LOOSE IN AMERICA ?

The Macedonian cry comes across the waters from the dying empires of freedom and democracy.

As Liberty in Europe makes its last stand before the onrushing Hun hordes, whence shall come its help?

Will the people of this greatest democracy in the world look in at the death and sustain the shock, or will HELL BREAK LOOSE IN AMERICA?

Will the people of the United States retain their poise, equilibrium, sense, while the shrieks of countless thousands of suffering and dying innocent men, women and children ring in their ears while they wake and while they sleep?

Can we preserve our calm indifference when civilization beckons us with tears and prayers to come over and help?

The answer is, I will not give my boys to die on a foreign strand for alien interests—nor will you. I will give my boys and myself in DEFENSE OF AMERICA—and so will you.

America can do nothing about it NOW. We may sympathize and send money and material, but that is as far as our help may extend in the path of the cyclone that sweeps on resistlessly.

America may be compared to Sampson without his locks, or a Numidian lion minus his claws and fangs.

The lesson for us is to PREPARE—PREPARE—PREPARE. Our cue is to be not caught napping as was France and England.

The unleashed powers of money, material and men that may be commanded by this continent will be irresistible to all the nations of the world if marshalled and developed.

Those who counsel to refrain from the cost are enemies to the freedom of this republic. A German victory means cost plus—it means CONFISCATION OF THE RESOURCES OF THE VICTIM.

Let America BEWARE AND PREPARE.

Card to the People From H. H. Brown

Next Saturday is the primary. I will appreciate my friends attending the polls and casting their votes for me for the house of representatives. If nominated and elected I promise to be the servant of the whole people, and to do my best to protect their interests.

An effort should be made by the legislature to extend the markets of the farmers in the export of our fine-cured tobacco, in this day when the crisis in Europe must have its effect on the price of our crop. If I get to the legislature it will be my purpose to induce other members to join me in starting a movement to raise the price of our great staple.

Another thing I am in favor of: This is to work for more and better farm-to-market roads in our county, and for hard surface highways connecting our county seat with other county seats.

At the same time I shall work to secure a lower tax rate, and the steady improvement of our schools.

Thanking you for your vote.
H. H. BROWN.

Farmers May Register Their Lands For Sale With Farm Security Administration

Any farm land for sale in Stokes county can be listed for sale with the Farm Security Administration for consideration under the FSA tenant purchase program. Lacy A. Gibson, County Supervisor, announced today.

This means any real estate agent or farm land owner in Stokes county can register farms for sale at the FSA office in County Building, Danbury, N. C. Funds for the sale of farm lands to tenants seeking to become owners under the FSA program have been appropriated by Congress under the Bankhead-Jones Act, and purchase of these farms is under supervision of the Farm Security Administration.

Mr. Gibson said each county FSA office wanted as large a selection of farms as possible in aiding tenants to purchase farms, and asked that local farm real estate men file their lists of suitable farms for sale with the FSA office. The prospective purchasers, who expect to borrow from FSA, will be referred to the owners and agents of suitable farm lands.

MARKERS AT THE PRIMARY

THE NEW LAW FIXES RESTRICTIONS FOR NEXT SATURDAY'S VOTING WHICH MUST BE OBSERVED.

The 1939 General Assembly made a very drastic change in the use of markers in primaries. The only voters who may be assisted in the marking of their ballots are those who cannot read and those who by reason of physical handicap, such as blindness, paralysis or other disabling defect, are unable to mark their ballot.

In an official opinion, the Attorney General ruled that only those illiterates registered under the Grandfather Clause of the Constitution were entitled to assistance by reason of their inability to read.

When a voter is entitled to assistance in the marking of the ballot, he must obtain the assistance from a near relative, husband and wife; parent and child; brother and sister; or grandparent and grandchild) but if no such near relative is present, he may then ask any other voter of the precinct who has not assisted any other voter, to give him the assistance. If, however, there is present no near relative, or other voter who has not marked another ballot, the voter may then, but only then, call upon the registrar or a judge of elections for assistance.

The registrar is required to keep a record of all voters who receive assistance and the names of the persons giving assistance. It is not only unlawful for any person to give assistance, but also unlawful for any person to receive or permit assistance except under the terms of the act.

The Act does not prevent members of the same family (husband and wife; parent and child; brother and sister; grandparent and grandchild) from assisting one another, and no record is required of such.
