Locust Hub Wagons

LOCUST WOOD

The Strongest HUB Ever Built Into a Farm Wagon Wheel

THE HUBS in this new Locust Hub Farm Wagon are oversized and made out of a solid block of selected LOCUST WOOD, the world's toughest, strongest, and longest-lived wood, usable for wheel hubs.

See above how the A Grade White Hickory spokes are mortised into the hub—forming an almost indestructible unit. No working loose of spokes to weaken wheel construction. They stay solid for the life of the wagon.

An Unbeatable Combination of STRENGTH--RUGGEDNESS--LIGHT DRAUGHT

Here's a great, big, strong, light-draught farm wagon that in design and workmanship is in a class by itself. It is the crowning achievement of more than 70 years of successful wagon-building experience. No other farm wagon of this type obtainable at ANY price will give you more for your money.

The Locust Hub Wagon incorporates every advanced worth-while feature known that contributes to superior wagon performance with unusually light draught. They're all here! And the most outstanding feature of all is the HUB... made out of LOCUST WOOD, and the strongest, longest-lived hub ever built into a wagon wheel.

Furthermore every spoke is of A Grade White Hickory, double riveted where it enters the rugged two-piece White Oak bent rim. Axles are of second growth White Hickory, tough as pig iron... and really trussed, as shown above.

(All our wagons; Hickory, Piedmont, Locust and Texas brands have these Life-Time LOCUST HUBS.)
