A FLIP of a SWITCH

MAY SEND A BOMB TO TOKIO

Each year we have made hundreds of calls simply to turn on a switch. The trouble call came in . . . the customer said the equipment wouldn't work . . . and we found the only trouble to be that the electricity had not been turned on.

If you have trouble, please be sure the switch is turned on before you call us. Help us to save necessary rubber.

The more rubber you save, the quicker our boys will be in Berlin and Tokyo, and home again.

WHAT HELPS NORTH CAROLINA HELPS you!

COLONEL EDGAR H. BAIN, State Director

Every legitimate industry that contributes to North Carolina's good is important to you, too.

The legal beer industry gives jobs to 13,000 North Carolinians. It pays them salaries totalling more than \$12,000,000 a year. Its steadily growing taxes—\$2,800,000 to the state in 1942—are a tremendous aid in advancing many public services.

The loss of these taxes would mean that you would have to dig still deeper into your pocket to maintain these services.

To protect such contributions to our state's welfare, the brewing industry carries on a self-regulation program designed to assure wholesome conditions wherever beer is sold. You know this program as the "Clean Up or Close Up" campaign.

As a part of this work, our Committee has cooperated with your law enforcement officers to eliminate 241 undesirable beer outlets.

Your help is asked. You give it when you patronize only those dealers who are law-abiding, and when you report any law violations to the authorities, or to this Committee.
