BOND DRIVE ENDS NEXT SATURDAY

MISS GRACE TAYLOR ISSUES LAST PLEA TO STOKES CITIZENS TO GO OVER THE TOP

Dear Friend:

The Second War Loan drive is on! "Offenses abroad start on the homefront with money and materials. Planes and tanks that battle the Axis today, the bombs that blast Berlin and send Japanese ships to the bottom come from the homefront. So the Second War Loan is an attack on the Axis and the Japs."

Our boys are ready to go. Are YOU?

Put your dollars in active service today. The campaign ends next Saturday, May 1.

The boys "over there" are watching to see what we do "over here." Will we disappoint them? No. Stokes county will not fail to back up her fighting men.

All Treasury Securities are

available in this drive. Go to the bank or postoffice in your county, and invest in Victory today.

Remember that currency is a promise on the part of the government to pay—WITH INTEREST.

"Bonds are like Mercy—twice blessed. They bless those who stay at home, and those who go to the front."

When the story is told of old, let it be found on the records that Stokes went "over-the-top" on the homefront, just as her boys went "over-the-top" on the battlefield.

"They give their lives; will you lend your money?"

Yours sincerely,

GRACE TAYLOR,

Chairman War Finance Committee Stokes Cty.

A CURIOUS INCIDENT

Recently witnessed was an act seldomly if ever seen.

A cigarette smoker was finishing his fag with a last drag, then casually tossing it away. Later being disturbed by its smouldering, he turned to stamp it with his foot when he observed the butt had actually landed on end and had burned practically up with the ashes intact.

MAGNIFY—

The buying power of your nickels and dimes does seem magnified when you invest in gas and electric service. Why, an ordinary nickel will toast dozens of pieces of bread, make hundreds of ice cubes, provide gallons of instantaneous hot water, give you hours of radio listening pleasure, or percolate cup upon cup of delicious coffee.

Yes, if you divide your electric service cost into nickels and take a moment to think of the cooking, the cleaning, the refrigeration, the ironing and washing, the radio entertainment, the lighting and other services now regarded as commonplace, we think you will agree that your gas and electric nickel will take on new value.

REMEMBER, TOO, THE BEST WAY TO MAGNIFY YOUR NICKLES AND DIMES THESE DAYS IS TO PUT THEM IN VICTORY BONDS
