What You Buy With WAR BONDS

The Bofors anti-aircraft gun is designed for greater range and heavier calibre than the average anti-aircraft or rapid fire gun. They are mechanically intricate and more costly. The two-gun Bofors mount costs approximately \$98,000 while a Bofors quad-mount runs up to \$140,000.

We want our fighters to have the best equipment possible and your purchase of War Bonds will help pay for these guns, giving them an advantage over our enemies. Buy War Bonds every payday. At least ten percent of your income, or as much as you can buy will help pay the war cost, provide you with a nest egg for the future, and pay you good interest.

Received a visit from Joe Hill of Francisco. Joe says squirrels are so plentiful in the Frisco woods that you need no gun, just knock them with a stick. He says his brother Dolph had a large field of corn eaten up by them, and that sometimes there were two and three squirrels gnawing one ear.
