

Green Light for **Private Forestry**

Shortage of Forestry Products Is Serious

Recent actions by congress great-y encourage timberland owners, toresters and the lumbermen who long have been supporting a nation-d program of private forestry, W. DuB, Brooklings of the Chamber of Gommere of the United States points out.

Private forestry means the grow-ing of trees as a commercial enter-prise, rather than landscaping or the planting of enamental trees. The bazards of the business, such as statistics of the business, such as means of the business, such as means years before trees mature, are so obvious that there are some who say that the government ought so own the forests. As an alternative as outright government ownership, they advocate complete federal con-ment of forest practices covering growing and cutting on all privately growing and cutting on all privately awned timberlands.

Funded tumberlands. Either of these alternatives would be a serious matter for the cause of prize enterprise. It would take an energy of the fire, com-petitive field. The forest areas of the United States actually exceed the tilled farm lands. In number of produces and investments forest employees and investments, forest product enterprises rank fifth among American industries.

By the recent passage of a meas are authorizing greatly increased stands for fire prevention, congress has gone a long way toward remov-mag what is recognized as the great-est deterrout to the progress of pri-A basic principle of this new fire

protection legislation is equal con-bridgetions by the federal government on the one hand and by the states and private owners on the other. The base Senator McNary of Oregon was sustrumental in enactment of a law harsed on that principle 20 years ago, but there were inadequate funds to make it effective. It is to be re-gretted that the senator did not live the see the passage of his recent bill ther greatly increased funds.

Formers will need more than six broken board feet of lumber in 1944, fast they'll have to take action them-schees if the critical overall lumber and pulpwood shortage is to be met.

and pulpwood shortage is to be met. War Food Administrator Marvin denses has announced that if produc-free and distribution of farm crops are to supply essential needs this great, American farmers will be ratified upon for two lines of proce-dure: First increasing lumber pro-duction from farm woodlands during the winter, and second, providing labor for forest industries during the sinck winter season on farms. the slack winter season on farms

Substitute Provided

For Steamed Bonemeal

Because of the shortage of bone-meal as a source of phosphorus in poultry rations, tests conducted at the Texas agricultural experiment station are of particular interest to soultry raisers.

The non-variable portion of each ration was made up of the usual proportions. Each ration contained as estimated 18 per cent protein, a calcium-phosphorus ratio of

The results show clearly that the greenage gains and feed required to produce a unit of gain were almost

WOMAN'S PART IN NATIONAL LIFE

LESSON TEXT-Judges 4:1-9, 13-16. GOLDEN TEXT-Who knoweth whether thou art come to the kingdom for such a time as this?-Esther 4:14. Women of our day have unprece-

dented liberty of action and almost limitless opportunity to show their ability to meet responsibility and to accomplish great things. They are measuring up to that opportunity both in the armed services and in the multitude of tasks they are creditably carrying on in civilian

To those who seem surprised at To those who seem surprised at their response to the nation's need, the church could well testify that women have always served well in ose things which count most for God and country.

I. A Woman Can Rule (vv. 1-5). I. A Woman Can Kulle (VV. 1-5). God has established an order in the world which places woman where she best fits—in the home. There, under the guldance and with the help of her hustand, she exerts her most powerful influence in the rearings of children. That is her normal, most effective and most blessed position. blessed position.

But all too often conditions in the world are not normal, and woman, like man, is thrown out of the customary orbit of existence. Deborah faced such a day. Israel had sinned and been given over to the chas-tising hand of the Canaanite. Then God heard their repentant cry and Was ready to send a deliverer-as He did in the case of each of the judges. Apparently no man was ready to take up the responsi-bility, or willing to thus serve God, and so He called Deborah. She sat under her nalm tree and Istael under her palm tree and Israel came to her for judgment.

case, a giant oil tank had to be towed from Hoboken up the Hud-son and through the New York state barge canal and the Great Lakes to Chicago. In the other case, the large pipes for Boulder dam, owing to their 30-foot diameter, had to be fabri-coted at the site in a chart She typifies many women who have been the leaders of their people, and her story has been an inspiration to women in the church. May many more be encouraged to take up the weighty problems of moral and social righteousness, which the men of our nation (and others) do not seem to care or dare to attack!

II. A Woman Can Lead (vv. 6-9). II. A Woman Can Lead (vv. 6-9). Barak was a man of ability. Deborah gave him full credit for his capable service (5:1, 12), but evidently he lacked that initiatre which would send him into conflict with his people's enemies. Without Deborah he would not go (v. 8), under he lacked in the use willing under her leadership he was willing and courageous.

and courageous. It is easy to ridicule Barak, and no doubt he deserves some measure of censure, but let us not be too severe on him. When the records are all in, it will be known that mean of the feets of courage the many of the feats of courage, the high and noble decisions, the vic-tories in the fields of science and culture, and particularly those things that have been accomplished in and through the church, were the result of the leadership of some woman.

Many are the distinguished na tional and spiritual leaders who have said that all they were and had accomplished they owed to their mothers. Others speak with high ap-preclation of a noble and inspiring wife

Think also of the many social and have religious causes which largely carried on by determined and sacrificial women. Yes, a wom-an can lead, and often she must

Two Frenchmen Fought Duel in Air Back in 1808

In 1808 two Frenchmen decided to fight a duel in the air. Each ascended in a balloon, and at a convenient height the fight began, each man taking pot shots at his opponent's balloon with a musket.

The shooting was wild, but at last one man succeeded in scoring a direct hit. The gas leaked out through the puncture and his oppo-nent fell several hundred feet to his death. The victor's balloon landed some miles away and out stepped the first air ace.

HEARTBURN

Relieved in 5 minutes or double meney back when excess atomach acid causes painful, suffor gas, sour stomach and hearthurn, doctors usu symptomatic relief - medicines like those in Tablets. No lazative. Bell-ans brings con jiffy or double your money back on return to us. 25c at all druggists.

Use for Toppieces

Derby hats are being used as "incentive pay" to get Panama natives to bring in raw rubber, Derbies are their favorite barter items.

Tomato Harvest

「ない」というというになったので、「ない」というでは、

With the tomato harvest already moder way in some states, growers will do well to follow picking and packing practices that reduce skin **breaks** and resulting decay in toma-toes, says the War Food administration. These practices include pick-ing tomatoes when they are "mature-green," avoiding harvest-ing during wet weather, if possible, and using crates with the smooth mide of the slats on the inside. Im mature tomatoes have been found more susceptible to skin breaks than more picked "mature-green."

1 bottle fruit pectin

crushed pineap-ple. Measure sugar and fruit into a large kettle filling up last cup with water if necessary.

Bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Then remove kettle from fire and

stir in bottled pectin. Skim. Pour quickly. Paraffin hot jam at once. Marmalade, golden tinted and sunshiny as the summer day, will win

Lynn Says

Taste - Tested Tips: Old-fash-ioned potato salad is a treat made with boiled dressing, seasoned with dry mustard. Try a sprinkle of paprika over the top, and serve with crispy, broiled bacon. Eggs are still plentiful and are

a treat when served curried with a rice or noodle ring. Green peas or beans with baby onions are a good accompaniment. Salads are refreshing as lunch-eon or supper main dishes. You'll like vitamin C filled oranges

sliced on lettuce with one of the following salads in the middle: Chicken, tuna or egg salad; cot-tage cheese mixed with slivered, seedless grapes; or, cooked prunes stuffed with peanut butter.

4 cups Crabapple, 2 cups Apple, 2 cups Pineapple, 2 cups

3 cups 3 cups

For those who wish to make jellies out of fruit juices, canned this summer, there is a simple procedure to follow. If there is not enough

sugar to fill all your canning and jelly-making needs, then the best way of assuring yourself of jelly, is to put up the juice and make it up into jelly when you do have the

sugar. Follow directions for preparing fruit or berry juice as in jelly-making recipes. Do not add fruit or simmer unless recipe directs it. After juice has been extracted, place jelly bag and squeeze out the juice.

Fill canning jars to shoulder and reactions and the second secon the jars. Keep water at simmering temperature and process pints of juice 20 minutes, quarts 30 minutes. Remove jars and finish sealing, if necessary. Cool as rapidly as pos-sible but avoid a draft. To Make the Jelly.

When you desire to make the jelly, use your favorite recipe or those with the commercial pectins. These jellies have the same texture as those made from fresh products.

11 you wish additional instruction for canning fruit or berries, write to Miss Lynn Chambers, 210 South Desplaines Street, Chicago 6, Illinois, Please enclose stamped, self-addressed envelope for your reply. Released by Western Newspaper Union, If you wish additional instruction

lead out to get the men to follow. Not all the pursuits of life are lived out in peace or in preparation for war. The time comes when battle must be joined, and then we see that

III. A Woman Can Fight (vv. 13-16).

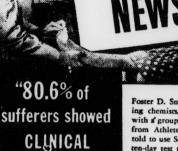

True it is that it was Barak whe led his army, but he went out at the word of Deborah. Hers was the responsibility for strategy, for the determining of that important D-day when the blow must be struck.

The courage of women in the battles for country makes an inspir-ing story. Not the least of that cour ing story. Not the least of that cour sge has been shown by those who have quietly stood "by the stuff" at home, who have bravely parted with their cherished loved ones who have borne the dark hours of loneliness, uncertainty and often of heart-piercing sorrow. They shall not be without their reward (see I Sam. 30:24).

This is the place to say a further word of appreciation of the women of the church who have fought such a valiant fight against liquor, social a valiant neur against induit, so ta degradation, vice, evil politics, etc "Hats off to them!" May they be encouraged to go on. Then too, one ought to say a worc of sad and earnest admonition to

or sad and earnest admontton to those countless women who have used their great freedom in our day as a license to live wicked and un godly lives. They do not have the courage to stand against the loose moral standards, the common ac ceptance of info;cants the immed ceptance of intoxicants, the immod est apparel of the day. Christian women have the golder

opportunity of setting a fine pattern of useful living now. Let them make the most of it, for the glory of **God**

Foster D. Snell, Inc., well-known consult roater D. Sacii, inc., well-known consult-ing chemists, have just completed a test with a group of men and women suffering from Athlete's Foot. These people were told to use Soretone. At the end of only a ten-day test period, their feet were exam-ined in two ways: 1. Scrapings were taken from the feet and examined by the baccacifrom the feet and examined by the bacteriologist. 2. Each subject was examined by a physician. We quote from the report:

"After the use of Soretone according to the directions on the label for a period of only ten days, 80.6% of the cases showed clinical improvement of an infection which is most stubborn to control."

Improvements were shown in the symp-toms of Athlete's Foot-the itching, burn-ing, redness, etc. The report says:

"In our opinion Soretone is of very definite benefit in the treatment of this disease, which is commonly known as "Athlete's Foot'."
