What Not

Mr. Watt's telephone rang boisterously, and he was somewhat irritated, and why not? "Hello!" he yelled into the instrument.

"Who's speaking," came the answer.

"Watt."

"What's your name?" insisted the voice.

"Watt's my name," answered Mr. Watt.

"Yeh, what's your name?"

"My name is John Watt!"

"John Watt?"

"Yes!"

"Oh, never mind," came the disgusted voice: "I'll be around to see you this afternoon."

"All right," said Mr. Watt: "who are you—Jones?"

"No," I'm Knott!"

"Well, will you please tell me who you are then?"

"Will Knott!" yelled the man.

"Why not?" asked Watt.

"My name is Knott!" shouted the man.

"Not what?"

And both men slammed their receivers down in a rage.

Why Don't The Bus Stop?

A beautiful young lady carrying a big suit case and her hand bag, stepped into the cafe a moment. She was waiting for the bus going south. In less than two minutes the bus passed, never stopping. Because the young lady was beautiful, or for any other reason, we do not know. Jim Booth jumped in a car, took the young lady and caught the fast-flying bus a mile south of town, and put the beautiful young lady on board.

The public which pays the bills of buses, as well as many other bills, is entitled to some consideration and some courtesies, even from fast-flying buses which depend on the public for their sustenance. Because the buses sometimes come in on time and sometimes do not, you never know.

Farmers have begun to prime among the visitors here Monday.

Good wheat can be successfully grown in Stokes county. The picture above shows M. J. Fagg and son Elmer in a field of Leap's Prolific Wheat. There are 14 acres in the field and it yielded approximately 20 bushels to the acre. The crop was grown following a tobacco and corn crop. The land was disced last fall after the crops were harvested. When the wheat was seeded it was fertilized with 200 pounds of 2-10-6 per acre. In the spring Mr. Fagg used 100 pounds per acre of top dressing.

Hundreds of my fellow employees are buying E Bonds every month. With over 1200 of us in the armed services, not to speak of our kinspeople in uniform, the war is a personal thing with us.

It's hard for many of us to buy bonds, but it's one little way we can show that we are back of them. We think carrying on your electric and gas service is pretty important too.
