The above statement is of July 31, the last sales day for the drive. Other sales have since been made.

Said A. J. Ellington, Fifth War Loan Chairman, "I am proud of the fact that Stokes county exceeded both its "E" and its overall quotas for the Fifth War Loan Drive. It is a source of gratification to know that we were among those who went 'over the top.'"

"I wish to thank, most sincerely, every person who participated in the drive. Each of you has made a real contribution in all that you have done, and I want you to know that I sincerely appreciate your assistance. Without it the results would not have been what they are."

Many Stokes county FFA and 4-H Club boys and girls are getting their calves in condition for the fall shows. The above picture shows Dick Neal of Walnut Cove getting his calf ready to be shown. Dick has a fine prospect for a red or blue ribbon winner. He is feeding the calf a mixture of dairy feeds and oats. He believes the oats do much to condition the calf and get her in prime flesh. By beginning with good registered calves, a person can soon build up a good herd of dairy cattle at very little cost. After breeding, feed and care are the most important factors in good dairy management.

Servicemen's Parents -

The Reporter now has on its mailing list the names and addresses of several hundred of your sons who are in the service here in the States and in action overseas. These boys are and have been receiving the Reporter as regularly as mail service to them permits.

We want to call your attention to the fact that some of these subscriptions expire with every month, and in turn are taken from the mailing list.

Many of the boys overseas, and in the camp have subscribed themselves, and others receive the paper as a gift of their parents or a friend. In either case the boy has little time to care for such things. That should be attended to at home by those interested in his comfort.

It is the parents of these boys who should attend to the matter of whether or not the paper continues to reach him.

For the man in England, New Guinea, Alaska, one copy of the Reporter is to him worth the whole price of subscription. We suggest you let this weekly news reach him uninterruptedly.

If your son or relative is receiving the Reporter, see to it that he continues to have what he wants most—news of home—by keeping his subscription paid in Advance.

Remember—newspaper cannot be sent overseas unless it is a paid-in-advance subscription.
