Flash In the Pan

What appears to be a cheap conspiracy on the part of the Union Republican, A. I. Ferree and John J. Ingle to slander the Democratic leaders of Stokes county and at the same time provide themselves with some lying material with which to stimulate their anemic campaign in the State—has dismally failed.

In the Union Republican this week appears a 4-col. wide broadside headed like this:"PLAN TO STEAL ELECTION IN STOKES COUNTY IS ... FOILED BY FERREE AND INGLE AT DANBURY.'

The Union Republican says that "when these two Republican candidates arrived in the capital city of Stokes they were informed that the registration books in the Hartman and Lawsonville precincts had been held open only about an hour at the polling places, that all Democrats had been registered but few Republicans were given the opportunity to do so."

The Republican says therefore that Ferree proceeded to go on a rampage, visited Solicitor Scott, Chairman Ellington of the Board of Elections, and others and that Ferree was very severe in his condemnations, raising hell in general, etc.

The Reporter on reading the Union Republican's article, went at once and made a thorough investigation of the facts, finding that the Union Republican's statements were not only basely untrue, but that it appears Ferree (if not Ingle) after collusion with one or two Hartman Republicans was trying to incense voters and stir up trouble in the approaching election in Stokes, by a false misrepresentation of facts, and thus provide Ferree with false ma terial which he hoped to use in his campaign for U.S. Senator in other counties.

The Reporter learned that Ferree and Ingle were here on this occasion to speak in the courthouse at the rally advertised for them; that at the meeting there were only 22 Republicans present, including the two candidates Ferree and Ingle. That thereby Ferrell was greatly incensed and after talking with one irate Hartman Republican whose boy had not yet owing to the circumstances (hereinafter stated) been permitted to register, seized on the situation as an opportunity to give vent to some very incendiary remarks and to make the "Stokes incident" his opportunity to get some votes in the State by hollering "fraud and stealing," etc. Those who heard Mr. Ferree were not particularly impressed with his dignity or ability as a candidate for U.S. Senator and even one Republican remarked that "he made an ass of himself."

Below will be found a true statement of the Hartman and Lawsonville "stealing" incidents, as furnished to the Reporter by A. J. Ellington, chairman of the Board of Elections:

"On Oct. 13 the regularly appointed registrars at Lawsonville and Hartman precincts advised me that they would not be able to serve as registrars during the registration period and general election to be held Nov. 7. I was unable to get anyone in Hartman precinct to take the books at that time and prevailed upon the registrars
