Lee, Hollis and George Dye are under arrest at Calverton, Fauquier county, charged with being implicated in the murder of Mrs. Kimes and her three children near their Wednesday morning. A portrait of Jefferson Davis, painted by William Gell Browne, for the West-land Club, of Richmond, is said to be a perfect likeness of Mr. Davis as he appeared at the time he took the reins of the Confederate Government. The picture is full three-quarter length, the canvas measuring 5 feet 6 inches by 3 feet 4 inches. Mr. Browne in painting the portrait had nothing to work from but the Gall bust, a detective photograph and his own recollection of Mr. Davis.

Lake Palmyra is a part of the Mississippi River at high water, but at present its bottom is dry, with a thin upper crust of dry earth and a deeper lower layer of soft mud. A half-witted negro who tried to walk across to an island broke through the crust. In one day he sank to the waist, and in two days to the neck. On the night of the second day he was pulled out.

Some time ago C. P. Goodyear and other enterprising citizens of Brunswick, Ga., undertook to deepen the harbor at that place by the use of dynamite. At a cost of a few thousand dollars they secured an increased depth of 24 feet, though engineers had estimated that hundreds of thousands would be required. Not satisfied with this Mr. Goodyear and his associates have offered to the city council to guarantee to secure 25 feet, and a contract will doubtless be made to that effect.

HE DEFIED THE SHERIFF.

And Drove Judge Bynum From the Bench.

The Asheville, N. C., Mountain Home Journal reports that a most disgraceful and daring occurrence took place at Burnsville, Yancey county, last week, and says the facts are these: One of the best citizens of that county, Solomon Carter, had died very suddenly, and was being buried. Garret D. Ray, another leading citizen of the same town, had not lived on good terms with Mr. Carter during the latter's lifetime, but as death had removed one of the two, Mr. Ray thought he would aid in paying the last tribute of respect to his departed neighbor and attended the burial. This so enraged the son of Mr. Ray that he shot at his father several times, whereupon Judge Bynum ordered the arrest of young Ray. He defied the sheriff, but walked into the courthouse, and, with his double-barrel gun, drove the judge from the bench, cleared out the assembly and deliberately walked off.

ELOPEMENT ENDS IN DEATH.

One of the Elopers Was a Cousin of President Diaz of Mexico.

EL PASO, TEX., [Special].—Ramon Gandara and Miss Perez eloped from Cuadrilla, Mex., fifteen miles below this city, and boarded a train at the Rio Grande station on the Southern Pacific Railway. Jose Perez, a nephew of Miss Perez, also got on the train to stop the runaway. Gandara opened fire, shooting the bride in the hip. Perez returned the fire, killing Gandara instantly. Miss Perez is a cousin of President Diaz of Mexico.

BANKERS AND SILVER.

Free Coinage Discussed by the Convention in New Orleans.

"Is it Practical to Have a National Rate of Interest?" Discussed.

NEW ORLEANS, LA., [Special].—At the Bankers' Convention W. P. St. John, of New York, read a paper on the silver question. He urged the reopening of the mints to equally restricted coinage of gold and silver. He says his plan will tend to unite the currency by providing a single automatic issue in lieu of any capricious issue of circulating notes. These notes would be redeemable in coin, the coin reserved for them being at face amount of the notes.

Hon. John Jay Knox, ex-Comptroller of the Currency, replied to Mr. St. John, arguing against the free coinage of silver. Mr. Johnston, of Birmingham, spoke in favor of an honest silver dollar.

Mr. George Rutledge Gibson then read a fancy descriptive paper on "Wall Street."

Mr. Gibson briefly reviewed the history of the stock exchanges and devoted much space to the principles and benefits of speculation; the ethics of speculation; the utility of the middleman or broker; the community of interest between Wall street and the country; the influence of the Stock Exchange and the international relations of Wall street. Mr. Gibson treated his subject from a Wall-street standpoint. Speaking of the relative value of railroad and farming property in the West, he claimed that to the railroads, in the increased transportation facilities furnished, the farmer owed most of the increased value of his farm property. Mr. Gibson expressed the opinion that the bankers of the interior of the country were to themselves as influential citizens of the communities in which they live to combat the feeling of hostility in many sections to capital and to Wall street. He paid a high tribute to the morals of the Wall-street bankers and brokers, especially as to their integrity in financial matters and their scrupulous regard for the inviolability of contracts they make, even in the hurry and bustle of transactions upon the Exchange.

A paper was read by William C. Cora-call, of Buffalo, N. Y., on "Canadian Bank Currency," and one by Hon. P. W. Copley, of Jackson, Miss., on "State-ship in Finance."

The topic for discussion was: "Is it practicable to have a national rate of interest?"

TRANSACTION IN RAIN MAKING.

Sale of a Rain Company's Secret Process for \$50,000.

TEMPLE, TEX., [Special].—Rain makers have been at work here. They came from Kansas, are called the Inter-State Artificial Rain Company, and have their headquarters at Goodland, Kan. This company, of which E. H. Murphy is President, was negotiating a sale of their secret to a stock company, and the experiment here was the last of a series that resulted favorably. The stock company, through its agent accompanying the party, signified its satisfaction with the experiments.

The party, consisting of President Murphy, Messrs. Smith, Bush and Morris, arrived in the city on Nov. 1, and commenced operations Monday evening in a small outhouse at the edge of town. The conditions were extremely unfavorable for rain.

No results could be seen at first, but on Friday the sky became overcast with clouds. On Saturday a high wind prevailed, and on Saturday night some rain came from the southwest. On Sunday rain fell all day and at night a norther arose. Reports from 100 to 150 miles round the town shows that rain fell on Sunday in most localities in considerable quantities.

The rain makers are jubilant and claim the rain fell on account of their efforts. They closed the bargain for the purchase of their secret upon the results here and Tuesday left for home. It is understood that \$50,000 was the price. The process is claimed to be that used by Melbourne.

KNIGHTS OF LABOR.

The Meeting Adopts Two Important Resolutions.

TOLEDO, OHIO, [Special].—Knights of Labor convention settled the contested case of district assembly 135 by restoring eighteen local assemblies to good standing and searing all five delegates. The following amendment of section fifteen, article three, was defeated unanimously.

"All general officers shall be elected for two years, but no general officer shall be eligible to re-election for more than two consecutive terms."

The following amendment to 12th article was unanimously adopted:

"And all children over the age of seven and under fifteen shall be compelled to attend some institution of learning at least ten months of each year, or such part of the year as may be offered them."

An amendment intended to place the selection of the executive board in the hands of the General Assembly, instead of the Master Workmen, was defeated, another victory for Powderly.

A number of letters were read from the order in south Africa and New Zealand, where it is growing rapidly. The board complains that the labels of the order are counterfeited systematically, and that, as the law affords no sufficient protection, asks the appointment of a special committee to devise means of remedy.

The Liquor Question in Charleston.

CHARLESTON, S. C., [Special].—The prohibition question is revived here, and the legislature will hear from Charleston when it meets. The advocates of prohibitionists have prepared a petition, which has quite a number of signatures. The anti's say, however, that they are mostly signatures of women and children, and on the other hand, the wholesale liquor dealers and the retail grocer association and the German Turn Verein are preparing counter petitions, and have a joint committee, one charged with the management of the campaign in Columbia.

TRAIN ROBBERY FOILED.

An Interesting Story From Down in Alabama.

BIRMINGHAM, ALA., [Special].—A story comes from Collinsville, on the Alabama Great Southern railroad that sounds very much like an attempted train robbery.

The agent at Collinsville heard that an attempt would be made to rob the Southern Express which passed there about twelve o'clock. Shortly afterward fifteen men, nicely dressed, came in and took possession of the Station, refusing to vacate when locking up time came. The agent then called on the local authorities, and the mayor and marshal, police and a posse of citizens came to his rescue and drove the men away. The gang was well armed and left threatening vengeance. The train at Chattanooga was notified and left there with all the train men armed to the teeth. As it pulled in Collinsville, four of the men reappeared and attempted to board it, but the citizens fired on them and they fled. It is said one of the fellows was hit and fell, but got up and made off again. It is believed the attempt was planned to have been made below Collinsville, but the train came through without being molested. All the train men on the division are now armed and an extra lookout is observed. One of the gang has been arrested, but his story has not yet been obtained.

SAW THROUGH HIS DISGUISE.

A Reporter Assumes the Role of a Servant and is Ejected From the Kaiser's Train.

A cablegram from Berlin, says: A reporter disguised as one of the imperial domestics smuggled himself aboard the Kaiser's train from Potsdam for Kreuz, and was taking copious notes in his capacious brain of the royal sayings and doings en route, when he was detected by the vigilant Baron Lyncker, of the Emperor's personal entourage, and was forced to admit his identity and mission.

Some of the eminent persons on the train thought hanging would be too light a punishment for the intruder, but it was finally decided to put him off the train at a lonely spot in the woods, whence he would have a long walk before reaching a place of habitation. This was done, and when the Emperor inquired the reason for stopping the train and was told what had occurred he laughed heartily and expressed his approval of the punishment inflicted upon the enterprising young man.

WATSON & BUNTON, Attorneys at Law, 115 N. 3rd St., N. C., Sept. 16, 1891. JAS. H. WEBB, Sec'y, Washington, D. C.: Electropoise for four years, upon a little invalid son, who has been afflicted with a pulmonary trouble and a diaphanous tendency. I have found great relief for him in the use of the Electropoise, when the doctors had failed to give him any permanent relief, and I am satisfied that but for its use we should have lost him. I have never seen it fail to reduce his fever, or to bring sound sweet sleep. I would not be without it for many times its cost. Yours truly, J. C. H. NIXON. Mr. Bunton is also President of First National Bank, Winston, N. C., and is one of the prominent men of the South.
