We notice that a good many papers throughout the State, are following our advice given the editors at the last convention by adopting the cash-in-advance system. They are about to find out that with increased patronage they have been getting poorer every year. We hope that every single paper in the State will inaugurate that system with the beginning of the year as from our own experience we can assure them that it will be to their benefit.

A late issue of the New Orleans Picayune refers in highly complimentary terms to Mr. Richard M. Nelson, son of our venerable townsman Col. C. J. Nelson, who at the seventeenth annual convention of the American Bankers' Association, held recently at New Orleans, was elected president of the Association for the ensuing year. Mr. Nelson who is also the president of the Commercial Bank, of Selma, Ala., is a Goldsboro boy, having been born in this city in 1843.

Rev. B. R. Hall, pastor of St. Paul M. E. church here, which position he has filled for the past two years, left the city Monday for Greenville to attend the Conference. Mr. Hall is a good man, a good preacher and a faithful pastor. After laboring faithfully and diligently among his flock for the past four years, Rev. M. M. McFarland preached his farewell sermon before a large congregation in St. John M. E. church Sunday morning. Under his pastorate the church has prospered, he having raised \$2,800 during his term, paying off all indebtedness on the edifice and a greater portion on the parsonage. The report shows that during his term 88 members connected themselves with the church; he also married 16 couples and preached 29 funerals. The reverend gentleman leaves for the Conference to-morrow and to whatever church he is sent for the next year, the heartiest wishes of all our citizens for future success will accompany him and his excellent family.

The wide spread fame of Dr. Bull's Cough Syrup is justly won by its own merits, and the reputation it has gained has been secured by its universal use.

Without Knife or Fire.

Mr. S. E. Carmichael, a prominent citizen of Henrietta, Texas, writes: "I wish to tell you what Swift's Specific has done for my wife. Several years ago there appeared a splotch on the corner of her nose which gradually increased in size, and became quite painful; on washing her face it would frequently bleed. The doctors called it cancer, and advised that it be removed by the knife or burning, stating that it never would do to neglect it. My wife refused to have it cut or burned, but at the same time it continued to grow worse. After a time she commenced taking S. S. S., which effected an entire cure. She used a half dozen small sized bottles. We both think there is no medicine in the world that will equal Swift's Specific, and we would like for all sufferers to know the benefit she has received from it."

S. S. S. cures blood diseases of this character by forcing out the poisonous germs and the poison also. A valuable book on blood and skin diseases will be mailed to all applicants free. Address,

The Soma Plant.

In the Aryan religion the chief offering to the gods was the fomented juice of the Soma or Moon plant, which, being a strong drink, gave new excitement to those who partook of it, and was believed to impart power to the gods. It was believed, moreover, that it wrought miracles, and for this reason, perhaps, it afterwards became the chief god of the Hindus. In a vedic hymn the worshiper says:

"We've quaffed the Soma bright,
And are immortal grown;
We've entered into light,
And all the gods have known.
What mortal now can harm,
Or foeman vex us more?
Through thee beyond alarm,
Immortal God! we soar."

No such power as this is attributed to any plant at the present time, and yet many of the cures performed by S. S. S., a purely vegetable remedy, seem almost to border on the miraculous. In contagious blood poison, scrofula, skin diseases, some forms of cancer, etc., it is the remedy par excellence.
