**The Billville Banner.**  
 We're going to kill Bill Jones' fatal call as soon as Congress convenes—that is, if Bill ain't at home.

The extra session struck town about 12 o'clock last night; we got so happy that we lynched six niggers and tarred an feathered the mayor.

The folks around this town are slowly but surely getting civilized; but you still have to run some of 'em down and tie 'em to put shoes on 'em.

There's a good time comin' to this country, when there won't be any collection after preachin', and no barbed wire fence around the watermelon patch.

The financial stringency has struck Billville; the town is dead and we are sitting up with it until they can raise cash enough to defray its funeral expenses.

The school exhibitions are over; Mary's little lamb has been turned out to graze; the boy has left the burning deck and curlow won't ring again until next year.

The Banner was the third paper in the country to call for an extra session, and if we don't come out there days ahead of the other fellows, we'd have called for it first.

Six men that we recommended to the President for government positions are now splitting rails for a living, and yet, those six men meant twelve votes in the last election.

There's lots an' lots o' talk about the Sherman law; but the last time Sherman passed this way there wasn't any law in the country; at least he never said nothin' about it.

Billville imposes a tax of \$2 on people for the privilege of walking on the new sidewalks; we are therefore having a high old time in the middle of the street; it's dusty, but economical.

During our absence the other day a Georgia cyclone kindly moved our office into the next county, but we will be back at the old stand as soon as the sheriff can get a requisition for us.

**Cable Flashes.**

Paris is again quiet after the riots of last Friday.

During the past month over 5,000 persons died from cholera at Mecca.

A flood at Maningfu and other portions of China last week, drowned 10,000 persons.

A fire entailing a loss of 500,000 marks occurred in Altona, a suburb of Hamburg, Thursday.

An explosion of fire-damp in Ingram's colliery at Yorkshire, England, Thursday, killed 145 miners.

The steamer Alfonso when approaching Romania, Russia, Monday, exploded its boiler, killing 26 of the passengers.

A yacht containing twenty persons was capsized by a squall Saturday off Skegness, a watering place on the east coast of England, drowning all occupants.

My little boy was very bad off for two months with diarrhoea. We used various medicines, also called in two doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhoea or colic medicine. J. E. Hare, Trenton, Tex. 25 cent bottles for sale by all druggists.

**He Sees the Error of His Ways.**  
 Monroe Enquirer.

We have received a letter from one of the most intelligent Third party men in Union county and he acknowledges that he, in voting the Third party ticket, committed a sin through ignorance. This gentleman enumerates some of the villainies that the pessimists and Third party men have been guilty of and when the enormity of their guilt and deceptive hypocrisy breaks upon him he calls upon God to forgive such great and heinous sins.

**A NARROW ESCAPE!**

How it happened.

The following remarkable incident in a lady's life will interest the reader. When she had a terrible pain at my heart, which hurried her to bed and she could not get to sleep, I was compelled to call in a doctor and he prescribed for me such until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I would lie down in bed with my head under a pillow and rest, but I could not get to sleep. I was so miserable that I was compelled to get up and take a walk. I had taken different remedies and been treated by doctors without any benefit until I was both discouraged and discouraged. My husband bought me a bottle of Dr. Williams' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 130. Its effect in my case has been truly marvelous. I have never taken any other medicine. I have ever taken or any benefit I ever received from physicians.—Mrs. Harry Starr, Gettysville, Pa., October 15, 1892.

Dr. Miller's New Heart Cure is sold on a positive guarantee. It is prepared by the Dr. Miller Medical Co., Elkhart, Ind., on receipt of price \$1.00 per bottle, six bottles \$5.00, express prepaid. This great discovery by an eminent specialist in heart disease, contains neither opiates nor dangerous drugs.

**A FEW FACTS ABOUT SILVER.**

The standard silver dollar contains 371 grains of silver bullion, which, on Saturday, was worth about 56 cents. In addition the silver dollar is made up of 41 grains of alloy, worth, perhaps, 5 or 6 cents. Therefore, a silver dollar containing sufficient bullion to be worth 100 cents would have required 65 grains, and it would have been nearly twice as big as the present coin.

Looking at silver at its commercial value, 73 cents per ounce, the ratio between it and gold would have to be about 1 to 27. That is to say one ounce of gold would purchase nearly 27 ounces of silver.

With these facts in mind it is easy to see what a strain is put upon the National finances to keep silver money at par with gold.

The expectation of the country is that Speaker Crisp will organize his committees with a view to referring to the popular desire with reference to financial legislation. Listening to the voice of the silver-sirs, the Nation has suffered grievous disaster. It would be mere mockery of business distress to ask the men who have been chiefly instrumental in producing it to provide a remedy. The 50-cent-dollar-gentry must take back seats. They have been tried and found wanting.

Those State papers which are running just now a reading notice sent out by a so-called advertising agency of Montreal, Que., most absurdly must have acquired Editor Grantham's (Dunn Times) way of doing business, to accept anything that comes from an advertising agency.

Among other causes of disaster and casualty the tornado confines to hold a prominent place. It is as difficult to forestall or avoid its coming as that of the thunderbolt and no Franklin has yet appeared to harness the whirlwind.

While Jay Gould lived he managed, by artful statements, to keep his personal assessments down to \$500,000. Now they have been raised to \$1,000,000. Dead men can tell no tales.

What the new Congress will most need is a set of rules that will enable the majority to come to a vote on important measures.
