The Milk Turned Sour. I will not tell you her name, but one of the neighbors says that during her brief visit the other day the milk turned sour. Her face looks a yard long. She sighs perpetually. The cloud on her brow is deep. If beaten out thin, I believe it would cover the sky. Her voice is doleful, and her eyes show no radiance. Her wrinkles are numberless. She is a sorry picture, and all because she is the victim of one of those complaints common to women. Her system plaints common to women. Her system is deranged. She needs a course of self-treatment with Dr. Pierce's Favorite Prescription. ANOTHER WORLD'S EXPOSITION.

To Commemorate the Twentieth Century of the Christian Eeligion. According to advices from Washington. New York may have a world's exposition if she wants it without contro-versy or competition. General Wheeler of Alabama introduced the following

bill:

In order to commemorate the beginning of the twentieth century of the existence of the Christian religion and by appropriate ceremonies to express the profound reverence and thanks of the people for the advanced civilization and inestimable blessings vouchasfed to mankind by Christian teachings and example, a world's exposition shall be held in the city of New York, commencing as soon after Jan. I, 1900, as the legislature of New York may prescribe, and continuing during so much of said year as may be provided by said legislature.

That the president of the United States shall, upon receiving efficial notice from the covernor of the state of New York that the said state has enacted a law accepting the responsibility intrusted to it by this act, issue a proclamation inviting the nations of the earth to participate in said exposition.

That unless the state of New York enacts a law accepting said trust within three months after the next meeting of the legislature of said state this act shall be void and of no effect.

Speaking of the bill General Wheeler

Speaking of the bill General Wheeler said: "The suggestion is own. No one from New York has spoken to me about it, and I have no assurance that she wants it. But she did make an effort to secure the Columbian exposition, and I thought she might like to undertake such a work as this. If she declines to assume the responsibility, why I shall believe that no other city would or could entertain it, and the whole matter will be at an end."

WATERSPOUTS GALORE.

The Steamer Thomas Anderson Meets With Thrilling and Unusual Experience.
The British tramp steamship Thomas Anderson, 16 days out from Hamburg, arrived in New York recently with a general cargo and some interesting data concerning Atlantic waterspouts. The vessel was 130 miles east of Sandy Hook Friday when First Officer Hardaker observed a heavy, black cloud. The mass of vapor writhed and rolled, and when it was half a mile dead ahead of the Anderson a solid bank of water suddenly rose from the sea. Whirling on its base, white with foam, the waterspout went up to meet the cloud. Half way to the edge of the send the waterspout suddenly collapsed, and with a roar and a crash the whole mass of water tumbled back into the sea.

The Anderson 10 minutes later passed over the spot where the spout had risen. The ocean was still in turmoil, and the steamship rocked heavily. She had hard-ly crossed the disturbed area when the wind veered, and a few moments later four more spouts arose, two on each side of the steamship. They circled around in uncomfortable proximity, and while the vessel passed between them another rose directly astern. When the Anderson was a long way off, the spouts were still wheeling along the sea.

To Suppress Peculiar Industries. The French government has determined to suppress two new and peculiar industries. One is a process for turning old playing cards into new in order to escape the heavy tax. The authorities have seized three such factories. The treasury has already lost \$600,000 through their operations. The other trade is in renovated secondhand graveyard ornaments, which the French use extensively. The object of the latter re-

form is to stop the wholesale despoiling of cemeteries. Lemon Elixir.
