A. ROSCOWER, Editor and Proprietor.

GOLDSBORO, N. C., Sept. 1, 1898.

DESECRATING GRAVES.

Captain J. A. Duncan, of the Twenty-second Kansas Volunteers, has been convicted of desecrating the grave of a Confederate officer buried on the battle-field of Bull Run, Va., and sentenced to imprisonment for five years.

It is to the credit of the people of Virginia that they kept within proper bounds their indignation at the crime of Captain Duncan and others, who, in their search for relics of the Virginia battle-fields, did not hesitate to desecrate the graves of Confederate soldiers.

Too much attention cannot be given to the cutting and curing. Rice that is over-ripe yields in milling poorly, and is an unattractive article that is never popular with the trade.

The indications are that good, well matured, but not over-ripe, dry and clean stock, free from seed and excess red, will be in demand, and soft rice, unattractive in color and appearance, in fact low grades, will be decidedly neglected.

THAT SLANDER INDORSER.

The villainous slander of the white women of North Carolina as published in the negro paper at Wilmington in its issue of August 18, has been endorsed by the negro ministers of that city by the passage of the following resolution.

"Resolved, That the Ministerial Union is in hearty sympathy with the efforts of the Daily Record in defending the rights of the race, and that each minister inform his congregation of the present situation and endeavor to sustain the paper by swelling its subscription list and urging prompt payment."

It is almost past belief that such an endorsement as this could have been given to such utterances as were printed in the Daily Record of the 18th, by these ministers, who are looked upon as the most intelligent men of their race, but here it is flat-footed and unmistakable, and printed in the very paper in which the original slander was printed.

How true were the words of the great Vance on the floor of the United States Senate when he said:

"Since their admission to citizenship they have been elected to both branches of Congress and have occupied almost every position under State authority. They have controlled entire States, counties and municipalities, and in every instance their rule was marked by failure and ruin. It was a war against property, intelligence and respectability. The few years of their misrule in the South will be forever remembered in our history and will constitute a damnable blot on those who authorized it, and who looked on with complacency so long as the thieves were Republicans, the victims were Democrats."

The nation will not forget that the magnificent work done by our soldiers in fighting against the soldiers of Spain has been done in the face of and in despite of more serious obstacles than the bullets or the entrenchments of the enemy. By so much as our heroes were starved, unsheltered and buffeted and bedeviled by bungling and criminal incompetency, by so much is their heroism made more admirable and conspicuous.

The Rice Crop.

We see from our Southern exchanges that the outlook throughout the entire rice belt is exceedingly promising for a very fine crop, not only in quality but especially so as to quantity.

Our planters should not lose sight of the fact that the rice industry of Louisiana, and even Georgia and South Carolina, possesses many advantages that we do not enjoy; being further South, and their season is in advance to ours, thus enabling them to enjoy the benefit arising from supplying demand for the "New Crop" which means the cream of the demand.

Many of the objectionable seed, so troublesome to the mills, and which materially detract from the market value of their rice could, and with but little expense, be removed by sending children through the crop, just before same is cut, and having the seeds pulled up and carried out.

There are no politics in heaven. That's why some of the politicians won't go there.

We are disqualified as a candidate for superintendent of the poorhouse. Too many of our relatives there.

When we are safely anchored in position let us not close the office door—unless it lets in a \$50 draft.

We never fought in the war, but we're going through the State campaign and that will entitle us to a pension.

The effect of the ruling is to enable depositors to go to bank and sign a receipt for any sum they desire paid over to them from their deposit account and be relieved of the necessity of stamping the receipt.

National Affairs.

War Department officials, replying to criticisms, allege that the condition of the troops in camps was due to the negligence of their officers.

The Spanish have only a few ships available as transports to take the troops in Cuba to Spain when the evacuation begins, and will probably ask assistance from the United States, although it is not probable they will be aided by this government.

Rear-Admiral Schley was detached from the command of the second squadron of the North Atlantic fleet and ordered to Porto Rico as a member of the military commission. He will fly his flag on the New Orleans and will receive the highest pay of his rank.

Rent Receipts Must Be Stamped.

Collector Charles H. Treat, of the second New York internal revenue district, received Monday a ruling from Commissioner Scott affirming his decision that rent receipts must be stamped, as being the only evidence of contract between lessor and lessee.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and is especially adapted to restoring the nervous system to its normal condition under such circumstances. It soothes, heals and strengthens.

To Give us to Receive.

We must bless if we would receive a blessing. We must pour the water from the cup if we would have it filled again. Life is an exchange of bounties, a transfer from one hand to another.

In front of my door to-day I had to go to the rescue of a respectable white girl, who was attacked by one of these little coons, with all the daring and gravity of a lord over his slave, and, even without provocation, as I could see, struck the white girl, the daughter of a respectable, but helpless widow of our town.

Political Notes from Billville.

Only one office in town seeking the man. The man owes it \$500.

The candidates are mortgaging the mules, and the mules are kicking.

This is the season when the six-dollar man is after the sixty-dollar office.

The pain of a burn or scald is almost instantly relieved by applying Chamberlain's Pain Balm. It also heals the injured parts more quickly than any other treatment, and without the burn is very severe does not leave a scar.

White Men, Read This!

Editor Free Press:—It is doubtless best for a minister of the Gospel to be as non-partisan in his politics as possible. This policy I have heretofore and will continue to pursue, but it has come to a pretty pass in our town when our white daughters can't walk the streets, free from the insults that a stripling negro girl, as black as the ace of spades, much younger than themselves, is to heap upon them.

I will state to you that I have taken eight bottles of your Pe-r-u-na and two of Man-a-lin and rejoice to say, "God bless Dr. Hartman and Pe-r-u-na." And I earnestly assure you that it has done me more good than any medicine I have ever taken in my life.

I must confess that it made my very soul sick.

Died at the Age of 101.

Mrs. Demarius Woodell died at her home in Fayetteville, Monday afternoon, at the advanced age of 101 years. Born in the latter part of the last century in Duplin county, Mrs. Woodell retained with great vividness memories of her childhood and loved to recount little incidents connected with the war of 1812, at which time she was in her young womanhood.

The Navy Department will proceed slowly in the matter of reducing the navy before the peace commission has concluded its negotiations.

The customs duties collected at Santiago amount to \$102,663 and after paying all expenses, including city government, \$90,000 remain in the treasury.
