(Catholic), in Maryland, were killed by lightning on the 5th inst. They were all from the North.

The chewing gum business may be vulgar but it is profitable to the makers of the stuff chewed. In five years the clear profits have been \$655,735.

The Crematory.

A reporter gleaned, in a conversar tion with Mayor Ricaud, who has just returned from Savannah, some points anent the crematory in that city for burning garbage, &c.

The Savannah plant cost \$11,000 is very expensive to operate, though it does the work effectively. The chief objection seems to lie in

the fact that con-combustible matter gets in the garbage and obstructs the working of the retort. The stench arising in the vapor,

Mayor Ricaud says, is intolerable. Mayor Ricaud and Alderman Post will make their report to the Board of Aldermen and the whole matter will be upon which to be reinstated. fully discussed.

Good Prospect For the Alumn Scholarship Fund-The New President.

GREENSBORO, N. C., July 9 .- [SPE CIAL |- Mr. Charles D. McIver, presider t-elect of the industrial school to be established in Greensboro, is here today in the interest of the North Carolina University Alumni Scholarship fund, provided for at the last commencement. He is having good success, and the plan of founding scholarship by the alumni promises to be a

It is generally known that Dr. George T. Winston was elected president of Cornell Alumni Association; it is not generally known, however, that in addition to this great honor, he was the lever of the day at the Cornell commencement, and to-day your corresponlearned by means of persons who attended the Harvard University commencemencement, that at that great Institution President Winston was also and most popular speech of the day at the commencement banquet. Great good will doubtless result to the University from President Winston's northern

[Communicated.] Over-Production of Cotton.

Editor Messenger: It is somewhat notorious that Southerners are, with a few exceptions, on the bull side of the produce market. No one is more sensible of this or more closely allied to the producing element than the factor or commission merchant Fraders in all wares are exuberant and spirited when quotations are firm, and down hearted and morbid when prices are dull and downward. We all lose our equipoise, but the shipper stands pre-eminent as being nervy and plucky to hold for a price. "Hope springs eternal in the human breast," and the more close the contract with nature the stronger it springs. 7 Not once in a season does the middle man get instruction, "Sell for the best price you can," but more usually, "If you don'think the market will do better," or "hold for nine cents; the ginner said

mine was the best cotton he had ginned this season." The man who crosses his legs over the table at the Exchange and says to the incomer as he scans the late postings, "How you like 'em?" Has the benefit of association to bolster him up and the bank to back him? But the tiller of the soil from the time he burns blackjack to make ashes to fertilize his have all dropped, follows his own thoughts as well as his mule to the end of summer, cogitating on what price he is going to get, and is not to blame for being opinionated and firm in the belief that prices will be good. At least he feels that they ought to be, and has little else to cheer him than the neighbor whom he always manages to get to his end of the row to see, if he has to give his mule an extra slap with his

plow line to get there in time. Of late it is a lamentable fact that the farmer goes along down hill with prices, down in the fall, up in the The Alliance has been of advantage to the people who stirs the soil to cre-ate the basis for all our trading. The producer never thinks that prices are growing lower, he holds for a rise, for a fall, never. They should always be

satisfied to produce and let the specuator speculate. With the stiff sea breeze puffing up the murkey Cape Fear, our commission men fight away at checkers in the evening, their morning hours occupied in shipping the material which makes the brain and muscle of man and beast as they till the mother earth.

Cotton is no longer king, the weight of its empire is crushing the life out of Legislation is our only bope. Can't the law say only cultivate cotton half of each week, and cut down the crop twothirds. Is the Alliance equal to a solution of the problem! We think not. The sub treasury bill just now would'nt

be very popular—prices are not always low in the fall and high in the spring. Farmers, statesmen, heroes, poets, solve the problem of over production if you can and let us know the remedy. Transportation may glory in big crops,

Ayer's Pills possess the curative virtues of the best known medicinal plants. These Pills sale for young and old. They are invaluable for regulating the bowels, and for the relief and cure of stomach troubles.

The pending sale of the Durham Tobacco Works to the American Tobacco Trust is off.

Marvelous Endurance. The vast amount of labor performed by the heart in keeping all portions of the body supplied with blood is not generall known. It beats 100,000 times, and forces the blood at the rate of 168 miles a day, which is 3,000,000,000 times and 5,150,880 miles in a life time. No wonder there are so many heart failures. The first symptoms are shortness of breath when exercising, pain in the side or stomach, fluttering, choking in throat, oppression, then follow weak, hungry or smothering spells, swollen ankles, etc. Dr. Franklin Miles 'New Heart Cure is the only reliable remedy. SAVED FOR THIS STATE.

THE ERROR IN THE DIRECT TAX LIST AMOUNTS TO \$26,218.

The Chillian Steamer Itata Seized-Agents Appointed to Secure Information About the Seal Fisheries in Alaska for the United States-Other News from Washington.

WASHINGTON, July 9 .- The investi-

ation instituted by First Comptroller

fathews has resulted in the discovery

that the State of North Carolina i- en-

titled to \$26,218 more than was origin-

ally allowed on account of the Direct Tax act. The mistake was the result of an error in the calculation made nearly twenty years ago when the question of the refunding of this tax was first considered by Congress. A committee report was prepared giving the amount each State would receive through such legislation. According to this report, which until now has never been corrected, North Carolina was given a credit of \$377,-836.43, and about a month ago the claim of the Governor of the State for that amount was allowed by the accounting officers. At that time, however, one of the clerks in the Fifth Auditor's office, where the accounts are kept, reported that a part of the tax collected from individuals had appa-

Investigation showed this to be the case and that the State's proper quoto was \$404,054. Judge Matthews says steps will be taken to pay the balance as soon as the necessary formalities shall have been complied with.

SAN DIEGO, CAL, July 9. - The penalty of \$500 which the Treasury depart ment has demanded of the steamer Itata for leaving port without clearance papers, has not been paid yet, but will probably be paid soon. Marshal Gard seized the Itata yesterday and placed an officer in charge. This act was necessary in connection with the libel proceedings commenced by the United States District Attorney. It is now understood here that the attorneys had advised Captains Mauzen and Tejeda to pay the fine at once in order to get the vessel released from the cusndy of the custom officers, and before Marshal Gard could seize the Itata, to get out of San Diego harbor as quick as steam would carry her. Upon receiving this advice it is reported Mauzen returned from Los Angelos and telegraphed to Tejeda, who returned at noon yesterday. Meantime Mauzen and other officers of the Itata had returned to the vessel, none of her crew had been allowed ashore. At 10:80 in the morning, however, Marshal Gard and a Deputy stepped aboard the Itata and seized the vessel for violation of the neutrality laws and carrying off United States officers. Mauzen is said to have been crestfalled upon the appearance of the Marsail and awaited Teieda, who hastened to the ship immediately upon the arrival of the train and held a consultation with Mauzen. No further steps were taken in regard to leaving the harbor. Had the Itata

way to chase her again and by that time the Itata possibly could have WASHINGTON, July 9 .- Alonzo A. Hinton has been appointed United States Gauger at Greensboro, N. C. In order that the Government of the United States may be fully prepared with all the necessary technical information respecting the actual state of the Behring Sea seal fisheries, and the effect of poaching in the probable event of any arbitration, the President has decided to send two agents to Alaska to gather the necessary information. He has named Professor Mendenhall, Chief of the Coast and Geodetic Survey, and Professor Merriam, ornithologist of the Department of Agriculture, as agents of the United States. Professor Mendenhall has accepted but Professor Merriam is now out in the field in Southern California and the Department of State has been unable to communicate with him. Their mission will be similar to that with which Sir Geo. Baden Powell is charged in benalf of the British Government. As sealing in season is already so far advanced the utmost expedition will be required on the part of the agents to serve the purpose of their appoint-

got away before the reseizure much

delay would probably have resulted be-

fore the Charleston could get under

Special Actices.
