Subject : "Defense of Young Men." TEXT. "And the Lord opened the eyes of the young man."-II. Kings vi., 17. One morning in Dothan a young theologi-cal student was scared by finding himself and Elisha, the prophet, upon whom he waited, surrounded by a whole army of enemies. But vcherable Elisha was not scared at all, be-cause he saw the mountains full of defense-for him in charies. for him, in chariots made out of fire, wheels of fire, dashboard of fire and cushions of fire, drawn by horses with nostrils of fire, and manes of fire, and haunches of fire, and hoofs manes of fire, and haunches of fire, and hoofs of fire—a supernatural appearance that could not be seen with the natural eye. So the old minister prayed that the young minister might see them also, and the prayer was an-swered, and the Lord opened the eyes of the young man and he also saw the fiory proces-s'on, looking somewhat, I suppose, like the Adirondacks or the Alleghanies in this au-tunnal resplendence. tumnal resplendence. Many young men, standing among the most tremendous realities, have their eyes half shut or entirely closed. May God grant that my sermon may open wide your eyes to your safety, your opportunity and your des-tiny.

of a lifetime of usefulness, but the coming step of eternal joys of heaven yet millions of miles away. There are magnificent possibilities before each of you young men of the stout heart, and the buoyant step and the bounding spirit. I would marshal you for grand achievement. God now provides for you the fleet and the armor and the fortifications. Who is on the Lord's side? The captain of the zouaves in ancient times, to encourage them against the immense odds on the side of their enemies, said: "Come, my men, ook these fellows in the face. They are 6,000, you are 300. Surely the match is even." That speech gave them the victory Be not, my h-arer, dismayed at any time by what seems an immense odds against you. Is fortune, is want of education, are men, are devi's against you? Though themultitudes of earth and hell confro t you, stand up to the charge. With 1,003,000 against you the match is just even. Nay, you have a decided advantage. If God be for us, who can be against us? Thus protected, you need not spend much time in answering your assa r-ants. A mighty defense for a young man is a good home. Some of my hearers look back with tender satisfaction to their early home. It may have been rude and rustic, hidden among the hills, and architect or up holsterer haver planned or adorned it. But all the fresco on princely walls never looked so en-ticing to you as those rough hewn rafters. You can think of no park or arbor of trees planted on fashionable country seat so at-tractive as the plain brook that ran in front the weeping willows. No barred gateway, adorned with statue of bronze, and swung open by obsequious porter in full dress, has half the glory of the swing gate. Many of you have a second dwelling place, your adopted home, that also is sacred forever. There you built the first family altar. There your children were born. All those trees you planted. That room is solemn, because once in it over the bet millow dow of the once

Many years ago word came to me that two impostors, as temperance lecturers, had been speaking in Ohio in various places and giv-ing their experience, and they told their audience that they had long been intimate with me and had become drunkards by duning at my table, where I always had liquors of all sorts. Indignant to the last degree I went down to Patrick Campbell, chief of Brooklyn police, saying I was going to start that night to Ohio to have those vilby the late James Barron Hope. your children were born. All those trees you planted. That room is solemn, because once in it, over the hot pillow, flapped the wing of death. Under that roof you expect when your work is done to lie down and die. You try with many words to tell the excellency of the place, but you fail. There is only one word in the language that can describe your and said: "Do not waste your time by chasing these men. Go home and do your work, and they can do you no harm." I took his ounsel and all was well. Long ago I made up my mind that if one will put his trust in God and be faithful to duty he need n t fear any evil. Have God on your side, young man, and all the combined forces of earth and hell can do no damage. And this leads me to say that the mightiest of all defense for a young man is the posses-sion of thorough religious principle. Nothing can take the place of it He may have man ners that would put to shame the gracefulness and courtesy of a Lord Chesterfield. For eign languages may drop from his tongue, He may be able to discuss literatures and laws and foreign customs. He may wield a pen of unequaled polish and power. His quick-ness and tact may qualify him for the highness and tact may qualify him for the high-est salary of the counting house. He may be as sharp as Herod and as strong as Samson, with as fine locks as those which hung Absa-lom, still he is not safe from contamina-tion. The more elegant his manner, and the more fascinating his dress, the more peril. Satan does not care much for the allegiance of a coward and illiterate being. He cannot bring him into efficient service. But he loves to storm that castle of character which has in it the most spoils and treasures. It was in it the most spoils and treasures. It was not some crazy craft creeping along the coast with a valueless cargo that the pirite at-tacked, but the ship, full winged and flagged. plying between great ports, carrying its million of specie. The more your natural and acquired accomplishments, the more need of the religion of Jesus. That does not cut in upon or hack up any smoothness of disposition or behavior. It gives symmetry it arrests that in the soul which ought to be arrested, and propels that which ought to be arrested, and propels that which ought to be propelled. It fills up the gulleys. It elevates and transforms. When the Holy Spirit impresses the image of God on the heart he does not spoil the capvas. If in a l the multitudes of young men on whom re-ligion has acted you could find one nature that had been the least damaged, I would yield this proposition, You may now have enough strength of character to repel the which assail you, but I do not know in what strait you may be thrust at sine future time. Nothing short of the grace of he cross may then be able to deliver you from the lions. You are not meeker than Moses, nor holier than David, nor more pa-tient than Job, and you ought not to consider yourself invulnerable. You may have some veak point of character that you have neve discovered, and in some hour when you are assaulted the Philistines will be upon thee, Samson. Trust not in your good habits, or your early training, or your pride of chara-ter; nothing stort of the arm of Almighty God will be sufficient to uphold you. You look forward to the world sometimes with a chilling despondency. Cheer up! I will tell you how you all may make a fortune. "Seek first the kingdom of God and his righteousness and all other things God and his righteousness and all other things will be added unto you." I know you do not want to be mean in this matter. Give God the freshness of your life. You will not have the heart to drink down the brimming cup of life and then pour the dreg's on God's altar. To a Saviour so infinitely generous you have not the heart to act like that. That is not brave, that is not honorable, that is not manly. Your greatest want in all the world is a new heart. In God's want in all the world is a new heart. In God's name I tell you that. And the Blessed Spirit presses through the solemnities and privi-leges of this holy hour. Put the cup of li<sup>7</sup>2 eternal to your thirsty lips. Thrust it not back. Mercy offers it, bleeding mercy, long suffering mercy. Reject all other friend-ships; be ungrateful for all other kindness, prove recreant to all other bargains, but despise God's love for your immortal soulspise God's love for your immortal souldon't you do that. I would like to see some of you this hour press out of the ranks of the world and lay your conquered spirit at the fect of Jesus. This hour is no wandering vagabond staggering over the earth; it is a winged messenger of the skies whispering mercy to thy soul. Life is smooth now, but after a while it may be rough, wild and precipitate. There comes a crisis in the history of every man. We

es often as that, or they will run down. Failure must come sooner or later to the man who breaks the Sabbath. Inspiration has valled it the Lord's day, and he who devotes it to the world is guilty of robbery. God will not let the sin go unpunished, either in this world or the world to come. While the divine frown must rest upon him who tramples upon this statute, God's special favor will be upon that young m n who scrupu'ously observes it. This day, properly observed, will throw a hallowed in-fuence over all the week. The song and ser-mon and sanctuary will hold back f o n pre-sumptuous sins. That young man who begins the duties of life with either secret or open disrespect of the holy day, I venture to prophesy, will meet with no permanent sup, his store, his office, his studio, his body and his soul. The way of the wicked he turneth upside down. In one of the old fables it was EIGHT State tickets in all were nominated in New York. HENRY M. DEVELOPMENT OF SHEEP BAISING AND WOOLEN MANUFACTURES.

Interesting Figures From the Bureau of Statistics.

The report makes with its appendix a volume of three hundred pages. It

The report shows that the number of sheep in the United States rose from 19,000,-000 in 1840 to 51,000,000 in 1884, but declined to 45,000,000 in 1887. This marked decline oc urred mainly in the Southern and West-ern States, notably in Texas, and is attributed in great part to the decline in the price of wool since 1884. wool since 1884.

wool since 1884. Great Britain, being the leading wool market of the world, has always been, the report says, the principal market for pur-chases of wool. Turkey and Russia have also been important sources of direct supply, but the Argentine Republic is now, next to Great Britain, the foreign source of supply, followed by Aus-tralasia. The imports of wool rose from 1,-715,699 pounds in 1823 to 114,038,030 pounds ing 1887. The increase in wool imports has about kept pace with the growth of Ameri-can wool products, both having about doubled since 1860. A series of tables illustrates the increase in products and in importations and the relations between the two, as for example, from 1864 to 1868, 161,-000,000 pounds were produced and 43,000,000 imported; from 1874 to 1878, 195,000,000 pro-duced and 45,000,000 imported; from 1882 to 1886, 297,00,000 were produced and 92,000,-000 imported. From 1822 to 1831 the annual imports of wool in manufactures averaged over \$9,000,000 in value, or more than sev-enty-one cents per capita; while from 1832 to enty-one cents per capita; while from 1832 to to 1841, they reached over \$14,000,000, or

In 1880, the product had grown to \$164,000,000, here the second and imports were valued at \$31,000,00), be-Thus, while the product of woolens in the United States has increased since 1850 nearly seven-fold, the imports have increased about sixty-two per cent, but the consumption per capita has doubled, which the statistician Leany's at Marinette. In a few days the Cassidy woman appeared with a little girl named Blanche. She did not seem to be more than thirteen years old. She cried all the time for her mother and all the beatings that Leany could give her could not make her yield to the life he wanted her to lead. She may loaded up it a course and only fed says indicates in a striking manner the adancement of wealth and comfort in the style vancement of wealth and comfort in the style of living among the people of this country. The statistics of imports and exports of woolens in the trade of foreign countries show that the United Kingdom is foremost in the foreign trade in woolens, the imports during 1885 amouning in value to \$49,000,000 and the exports to \$115,000,000. France comes She was locked up it a garret and only fed on scraps every other day. The Cassidy woman and others of her kind were continually bringing young girls to the dives. Most of them had been kidnapped from re-spectable homes. The lives they were forced to lead killed most of them in a year or two, next with imports of \$49,000,000 and exports next with imports of \$49,000,000 and exports amounting to \$78,000,000; Germany next, with imports of \$25,000,000, and exports of \$51,000,000. There has been a large decline in the woolen trade of Great Britain since 1874. This decline, the Royal Commission on the Depression of Trade attributes in part to the high foreign tariffs which, it is claimed, shut out the manufac-turers of Great Britain from foreign markets. #### Story of Another Young Girl Who was A NORTH MICHIGAN PROPELLER Abducted from Chicago.

Blanche Bonneville, the fifteen-year-old girl who has been a prisoner in the Wisconsin dives for more than a year, reached her home at Chicago. Officers were sent to rescue her and bring her as a witness against the Cassidy woman, who is to be tried for abduction. Before the officers reached Marinette, however, Mike Leahy; the keepen and released his prisoners. Blanche is still a pretty girl, in spite of the terrible experien. she suffered in the dives. She is the daugh ter of a respectable carpenter. She says she was abducted in July, 1886. She was out on the street in front of her father's house when a woman, who she afterwards found out was Florence Ripley, an alleged procuress, came by with a pitcher and asked Blanche where she could buy some milk. Blanche showed her and the womau struck up a conversation. her and the woman struck up a conversation. She found out that Blanche's father was poor and the girl anxious to earn her own living. Then she said she kept an intelli-gence office and could get her a place where she would earn \$12 a week and her board. She was to work at a hotel table at Green Bay, Wis, Blanche got her father's consent to go. Instead of taking her to Green Bay the Ripley woman carried her to Marinette, where she was taken in a close carriage to Leeb's place. She has been a close prisoner where she was taken in a close carriage to Leahy's place. She has been a close prisoner ever since. COMPLETELY WRECKED. A Passing Steamship Sees men Clinging to Rafts But is Unable Owing to the Rough Weather, to Reach Them-Upward of a Score Drowned. The steamship Superior, arriving at Milaukee, Wis., brought the first news of the total wreck of a large passenger propeller off Manitowoo, Wis. That the wreck is that of

the propeller Vernon, of the Northern Michigan line, is established almost beyond a doubt. She was due, and from the description of fragments seen by the crew of the Superior, her owners consider her identify fully established. She had on board a crew of twenty-two men and several passengers, the exact number not being known, and it is supposed that all hands perished. Captain Moran, of the Superior, saw three or four rafts with men clinging to them, and also a sailboat containing a women and three men. Although he made an effort to rescue them, the high sea prevented the rendering of any assistance, the Superior being herself dis-abled, and requiring the crew's best efforts. It was about ten o'clock in the morning when the first signs of the wreck in the shape of floating cargo and furniture were seen. About an hour later the rafts were sighted.

On some the occupants were almost gone, while others signalled the Superior. P. J. Klein, of Klein & Kirk, who charter-ed the Vernon to replace the Champlain, burned early in the season, received the first information from a reporter. After hearing the account as reported by Captain Moran, he felt sure that the vessel was the Vernon. He did not know what passengers were on board, an i of the crew could give only the following names: Captain George Thorpe, of Ogdensburg,

# A CONFLICT AVERTED.

#### Troops Withdrawn in California Pending a Decision by the Courts.

The threatened conflict between the civil and military forces at the Round Valley (Cal.) reservation, has been averted, by i -structions sent by the Secretary of War to General Howard, to withdraw the United States troops now on the reservation, pend-ing a judical settlement of the matter. It is learned at the War department that a com pany of soldiers, under command of Captain Shaw, was ordered to eject a number of squatters from the reservation, at the request of the Interior Department. An injunc ion was obtained by the squatters from a staty court, and as the captain of the United States forces refused to obey it, the state militia was called upon to enforce the courts order. At this juncture, the attorney gen-eral appealed the case to the United States Court, and at his suggestion Captain Shaw was directed to discontinue further proceedings. It was while this appeal was pending that the sheriff began his movement looking to the arrest of the military force. The order sent to 'leneral Howard to withdraw the military force is expected to prevent an immediate conflict, but the question of juris-diction involved is regarded at the department as one of the gravest importance. It has cropped out in one shape or another in all of the Indian outbreaks of the last few years, whenever the state or territorial authorities have attempted to make arrests on Indian or military reservations, and a final settlement of the conflicting rights of state and federal authorities over govern-ment reservations is earnestly desired by military officers.

The latter is propriet r of the Post and the Commercial, both of which have been making editorial and local assaults upon Judge Fleming. The climax was reached when the Commercial published an article stating that Fleming and a number of other prominent citizens had raised money to spend during the Guber-igal in Scripture would ever have been reand a number of other prominent citizens had raised money to spend during the Guber-natorial campaign for Gov. Buckner. They did this it stated, by negotiating a one thou-sand dollar note, which is now due, and which, it is alleged, they are trying to induce the Governor to pay, on the ground that the money was for legitimate campaign expenses. The article proves to have been a falsehood and was resented accordingly by Judge Flem-ing. In a conversation some days ago Dupont had intimated to Fleming that no more assaults upon the latter should be printed. They met, and the judge upbraided the pub-lisher for his want of faith. Dupont made an evasive reply, and becoming infurated, Fleming struck him twice over the head with a cane, after which they clinched and had a short struggle. When separated Du-pont had two black eyes, but Fleming was not hurt. not hurt. Both the men are prominent, Judge Flem-ing having recently declined President Cleva-land's appointment to the Chief Justiceship of Arizona. Duponet: vary wealthy and is and's appointment to the Chief Justiceship of Arizona. Duponet: very wealthy and is largely engaged in manufactures. The story that Gov. If is no new fangled notion of a wild brained reformer, but an institution established at the begin-ning. God has made natural and moral laws so harmonious that the body as well as the soul demands this institution. Our bedies are seven day clocks, that must be wound up

It is home. Now, I declare that a young man is com-paratively safe who goes out into the world with a charm like this upon him. The mem-ory of parental solicitude, watching, plan-ning and praying, will be to him a shield and a shelter. I never knew a man faithful both to his early and adopted home, who at the same time was given over to any gross form of dissipation or wickelmss. He who seeks his enjoyment chiefly from outside associa-tion, rather than 1. om the more quiet and unp esuming pleasures of which I have spoken, may be suspected to be on the broad road to ruin. Absalom despised his father's house, and you know his history of sin and his death of shame. If you seem unneces-sarily isolated from ycar kindred and former associates, is there not some room that you can call your own! Into it gather books and pictures and a harp. Have a portrait over the mantel. Make ungodly mirth stand back from the thresholl. Consecrate some spot with the knee of prayer. By the memory of other days, a father's counsel and a mother's love, and a sister s confidence, call it home. Another defense for a young man is indus-trious babit. Another defense for a young man is indus-trious habit. Many young men, in starting upon life in this age, expect to make their way through the world by the use of their wits rather than the toil of their hands. A child now goes to the city and fails twice be-fore he is as old as his father was when he first saw the spires of the great town. Sit-ting in some office rented at \$1,000 a year, he is waiting for the bank to declare its dividend, or goes into the market expecting ba-fore night to be made rich by the rushing up of the stocks. But luck seeme i so dull he re-solved on some other tack. Perhaps he borrows from his employer's money drawer, and forgets to put it back, or for merely the purpose of improving his penmanship makes a copy plate of a merchant's signature. Never mind, all is right in trade. In some dark night there may come in his dreams a vision of Blackwell's Isla: d, or of Sing Sing, but it soon vanishes. In a short the back well it soon vanishes. In a short time he will be ready to retire from the busy world, and amid his flocks and herds culture the domestic virtues. Then those young men who once were his schoolmates, and knew no better than to angage in honest med in should pour into his cup of life a draught that would thrill him with unberrable agony. I should not wonder if his children should become to him a hving curse, making his home a pest and a disgrace. I should not wonder if he goes to a riserable grave, and beyond it into the gnashing of teeth. The way of the ungodly shall perish. My young friends, there is no way to genu-ine success except through toil either of the head or hand. At the battle of Crecy in 1345 the Prince of Wales, finding himself heavily pressed by the enemy, sent word to 1345 the Prince of Wales, finding himself heavily pressed by the enemy, sent word to his father for help. The father, watching the battle from a windmill and seeing that his son was not wounded and could gain the day if he would, sent word: "No; I will not come. Let the boy win his spurs, for, if God will, I desire that this day be his with all its honors." Young man, fight your own battle all through and you shall have the without the sent worth fighting victory. Oh, it is a battle worth fighting. Two monarchs of old fought a duel, Charles V. and Francis, and the stakes were king-doms-Milan and Burgundy. You fight with sin and the stakes are heaven and hell. . Do not get the fatal idea that you are a genius, and that therefore there is no need of close application. It is here where multi-tudes fail. The great curse of this age is the

geniuses, men with enormous self conceit and egotism, and nothing else. I had rather be an ox than an eagle; plain, an 1 ploiding, ard useful, rather than high flying and good for nothing but to pick out the eyes of carcasses. Extraordinary capacity without use is extra-ordinary failure. There is no hope for that person who begins his life resolved to live by ens the Publishers Eyes, A personal encounter took place at Louis-ville, Ky., between Judge William B. #### Castaways Living Four Months on an Uninhabited Island.

On March 20th last, the iron bark Derry Castle, belonging to Limerick, Ireland, left Geelong for Falmouth with wheat. No trace of her could be found at any port, and she was posted at Lloyds as missing. On September 22 eight survivors of the Derry Castle's crew reached Melbourae on the sealer Awarsa. They stated that the missing bark had been cast away on Enderby Island, one of the Aukland group, eight days after commencing the homeward voyage.
The Captain, both mates, and twelve seamen were drowned in trying to reach the reef. Seven of the crew and the only passenger, James McGhie, endured for five months a series of privations and ad-ventures which seldom occur in real sealer Awarsa. They stated that the missing

By its means efforts were made to con-struct a boat or oblong box. Calking was done with odds and on is of rope, and yarn was driv-en into the seams with a piece of hoop iron. The boat was eventually launched. Two of the party pushed off from the shore in hope of reaching Port Ross. The effort Ross told that help was at hand. On July 19 the shipwrecked men were transferred to the mainland and their sufferings were at an end.

Many years ago I stood on the anniversary platform with a minister of Christ who made this remarkable statement: "Thirty years ago two young men started out in the evening to attend the Park Theatre, New York, where a play was to be acted in which the cause of religion was to be placed in a ridiculous and hypocritical light. They came to the steps. The consciences of both smote them. One started to go home, but returned again to the door, and yet had not courage to enter, and finally do-parted. But the other young man entered the pit of the theatre. It was the turning point in the history of those two young men. The man who entered was caught in the whirl of temptation. He sank deeper and deeper in infamy. He was lost. The other young man was saved, and he now stands this remarkable statement:
