No further outbreak is anticipated Number of Dead Unknown.

The bodies of those killed have been seemingly good authority that several bodies have been taken away for burial and it is equally probable that some deaths have not been reported to the police or other authorities.

Sixteen companies of the State militia are now on duty and will be kept for some days. The entire city is be ing patrolled, even the limits of the residence sections.

The situation at noon seems more favorable than at any time since Sat urday night. The authorities have dismissed and sent home all outside militia companies excepting those be-longing to the Fifth Regiment leaving one full regiment in charge. The troops have been withdrawn from the streets until the night, excepting that the guards have been posted at hardware stores to protect them from possible raids for firearms and ammunition. The sale of fire arms and ammunition has been ordered stopped. All the saloons are closed until fur-

The lynching of Zeb Long, a negro, at East Point, has been the only event of excitement to-day.

Long was heavily armed when arrested and made a hard fight. Particulars of the affair have not been ascertained as no one will admit having been connected with the lynching. Long, so far as known, was not suspected of having assaulted any white

The feature of the situation is the scarcity of negroes usually employed about the city. The telegraph companies are advertising for white delivery clerks. The postoffice is experiencing difficulty in sending out spec ial delivery mail. Although negro drivers are seen on many wagons, many such vehicles are handled by whites Domestic servants are frightened and an exodus of large proportions of these negroes from the city is reported. SYSTEM OF EFFICIENCY.

Public Printer Stillings Inaugurates New System of Efficiency in Government Work.

Washington, Sept. 24.—Public Printer Stillings inaugurated a system of efficiency as applied to government work. By it he hopes to be able at any time to give an exact statement as to the cost of any government job. He declares the new system will not impose extra work on printers, book binders or others, but on the contrary will secure to them proper credit for the work they individually

It is believed the new order will call forth bitter opposition from labor unions. Assistant Secretary of the Navy Newberry's attempt to break into the union rules prescribing certain stints of work at the Washingion navy yard recently failed, owing to the opposition of the unions, who vigorously protested against the competitive system which, they ascerted, was sought to be imposed upon the workmen.

Several sensational reports have been sent from Durham lately regarding the binding over of J. A. King, colored, charged with perjury, who has conferred upon himself the title of Reverend. It seems that King is some kind of a spokesman for the negroes and travels on the missionary style, but whether he is a preacher or not remains to be identified.

Work is rapidly progressing on the new Baptist church, on West Chapel Hill street, and the beautiful new structure will be completed within the course of two months. The congregation has been working diligently for several years, earning money for the rection of this new church, which will stand as a monument to the present body. The old church has been moved in the rear of the present one, and services are being conducted in this as usual.

Preparations are also being made for the erection of a new Methodist church in this city, also on West Chapel Hill street. This church will take the place of Main Street Methodist church which prepared for burial. It is reported on is located on West Main street. The members recently purchased a beautiful plot of ground, and the new one will have a splendid center location. Rev. T. A. Smoot, the pastor, and Rev. W. H. Thomas says: "I feel it is the duty of every good citizen to endeavor in every shape and way to make it plain that he regards the uniform of the United States army or navy just as much when worn by an enlisted man as when worn by an officer, as the badge of honor and therefore entitling the wearer to honor so long as he behaves decently. There is no finer body of men in all our country than the enlisted men of the army and navy of the United States, and cannot sufficiently express my inlignation and contempt for any man who treats his uniform save with the respect to which it is entitled."

MANY KILLED IN

Atlanta, Georgia, September 24.-Twenty-four hours have passed since a race war of no mean proportions began in Atlanta. In that period at least ten lives have been sacrificed, and the number of injuried will be at ing Police Still Mystified as to least 40, several of whom cannot recover. At ten o'clock to-night the city is controlled by the police aided by nearly a thousand of the State militia. Every part of town is patrolled by the soldier and the authorities seem to have the situation well in hand. Governor Terrell, who ordered seven companies of the State military service from points outside of Atlanta to aid the eight local companies, stands ready to-night to declare the city under martial law, if the scenes of last night are repeated. He has declared within an hour that he sees no necessity at present to take these extreme measures.

Numerous and persistent rumors are reaching the city of negroes attacking white persons and stoning the street cars in the suburbs and outskirts of the city, Most of these reports doubtless are false, but several street cars arriving from their runs broken windows, while their crews are refusing to go out to-night.

The larger part of the military is concentrated in the downtown district. Marietta and Decatur streets, both frequented by negroes, are crowded with white men. The troops are marching through these crowds conthe mayor that the streets shall be cleared. The efforts to clear the streets, however, so far seem to be meeting with only fair success. Very few of the better class of citizens who are not called out by necessity are on the streets to-night.

Up to this evening more than 50 arrests have been made of members of last night's mob, charging incite ment of riot. Five hundred dollar bond has been required in each case

Flaring headlines in the special editions cipated and contributions of money or of the afternoon papers wrought the populace to a high pitch of excitement.

About ten o'clock a negro man shovtown. Almost simultaneously a negro woman made an insulting remark to and he administered what he considered due punishment. From this start the excited crowd, which had become a mob began its work of destruction Five thousand men and boys thronged the down-town streets looking for nebrought thousands more from their nomes in the suburbs and residence districts, until fully 10,000 men thronged the down-town section. They made attacks on the incoming street cars. Each car was scanned for negroes. The trolleys were pulled from wires and in the semi-darkness of the unlighted cars negroes were beaten, cut and stamped upon in an unreasoning, mad frenzy. If a negro ventured resistance or remonstrated, it meant practically sure death. One car half filled with negroes approached from an outside run. The mob dashed for the car. Resistance was made by the negroes, who had not been apprised of trouble. Three negroes lay dead aged property. The crowd, after pull-on the floor of the car when it was ing the negro porters from the Pullpermitted to move on, and two more mans of the Western and Atlantic Railwere seriously beaten and unconscious.

When the crowds seemed to be getting beyond control, at about 10:00 the day coaches and mail and baggage o'clock, Mayor Woodward mounted a cars. They then crossed to the Kimcar platform on Peachtree and Mariet- ball House, and continued the windowta streets and urged the crowd to disperse, declaring that the assailants of he white women would be adequately and promptly punished by due process of the law. Mayor Woodward was given a respectful hearing, but when he finished the work of destruction was resumed. He made another appeal a few minutes later, but without result, Then he turned in a general fire alarm, calling the entire department to the scene. To Chief Joyner, he gave the lamonic order: "Clear the streets.'

The result was to stop the mob in ts work in that immediate section and to drive it to other streets. situation became so threatening at 11 o'clock that Governor Terrell was anpealed to, to order out the State troops.
