## ON THE FARM.

### HOW NATURE PROVIDES FOR US.

The most independent man on earth is the farmer, for he makes the earth yield him almost everything needed for life. He knows that as he sows so will he reap. He usually keeps strong and healthy from constant strife with Nature—sunshine and pure air. At night when work is done, he finds most refreshing sleep, such as only a tired man knows. In the same way that the earth yields food for man, so does it provide remedies for human ills. Thousands of households throughout the farming districts of the United States know the value of Dr. Pierce's Golden Medical Discovery. It is Nature's most valuable and health-giving agent—made without the use of alcohol. It contains native medicinal roots, and is the concentration of Nature's vitality as found in the American forests. This remedy has a history given to the public for it because it was first made public by Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., nearly forty years ago and has since been sold by druggists in ever increasing quantities.

Dr. Pierce found that the bark of the Black Cherry-tree, the root of the Mandrake, the root of Queen's root, Bloodroot and Golden Seal root, made into a scientific, non-alcoholic extract by the use of a special process, made the best alternative and tonic. The refreshing influence of this extract is at once apparent in the recovered strength of the patient—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which otherwise may poison the system. This alternative and tonic extract has been found to stand alone as a safe, invigorating tonic, as it does not depend on alcohol for a false stimulation, but is Nature's own method of strengthening and cleansing the system. It tones up the stomach and purifies the blood in Nature's own way. It is well known all over the world as Dr. Pierce's Golden Medical Discovery. The name was given to this vegetable compound because one of the important ingredients was Golden Seal root. \* \* \* Such an authority as Dr. Roberts Bartholow, of Jefferson Medical College, says of Golden Seal root, "very useful as a stomachic tonic. Cures catarrh of the stomach and headaches accompanying the same." Dr. Grover Coe, in his book Organic Medicines, speaking of Golden Seal root, says that "as a liver invigorator it has few equals." Further he says, "in chronic inflammation of the bladder and in some of the most reliable agents of cure. As a tonic in the convalescing stages of fevers, pneumonia, dysentery and other acute diseases Hydrastis (Golden Seal root) is peculiarly appropriate." Dr. Coe continues: "We would here add that our experience has demonstrated the Hydrastis or Golden Seal root to be a valuable remedy in bronchitis, laryngitis, and other affections of the respiratory organs." Prof. Robert A. Hare, M. D. University of Pennsylvania, says of Golden Seal: "Of service in chronic catarrh of the stomach and bowels following abuse of alcohol, a tonic after malarial fever. Has a distinct anti-malarial influence. Good in all catarrhal conditions, as uterine catarrh, leucorrhoea, etc. Is a curative agent in chronic dyspepsia." Prof. John M. Scudder in Specific Medication says of Golden Seal: "It stimulates the digestive processes, and increases the assimilation of food. By these means the blood is enriched, and a firm basis for the muscular system. I mention the muscular system because I believe it first feels the increased power imparted by the stimulation of increased nutrition. The consequent improvement on the nervous and glandular systems are natural results." "In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states." Dr. Pierce's Favorite Prescription specially put up for women's ills—for those distressing—dragging down ailments—peculiar to women—also a temperance remedy that is best known by its cures. With Dr. Pierce's medicines, their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

## The Looker-on.

"The fool hath said in his heart, there is no God, but the fool hath not said 'there is no sorrow.'"

The Looker-on was at the station. There was a little group of faithful friends, the heart of the gathering being a haggard husband, and a young wife who looked as though she had no tears left to shed; the face of the desolate mother was hers. And behind came a hearse, and in it, oh, so small, so lonely looking—a little white coffin. These little coffins, these pitiful, pitiful white coffins! A friend whispered "It is the third baby they have lost, and there is no other one." Who but those who have suffered knew what that meant? A young man at the other end of the station had not seen the sorrowing sight. He was with several other young people, and was in high glee. His young face was bright with fun, the laugh was on his lip. But a gentleman touched him on the arm "Help me lift this, Frank. We must take it (oh me to call "Mother's Baby IT—) to the baggage car." The young face sobered in an instant. He saw the mother, he saw the little white coffin, all his fun was gone. He raised his hat, he walked with solemn step to the hearse, he lifted that light weight as gently, tenderly, as though it had been flesh of his, bone of his bone. Yea, there is sorrow, and in that sorrow, all men are one.

The weather of the days from the 10th to the fifteenth was about as uncertain as Theodore Roosevelt himself. Thunder storms and all day snow-storms do not generally come quite so close together. But, as they did come, they put the crossings on our streets into a condition that makes us wonder what they will be by Christmas. If some improvement is not made, it will be a problem to know how we are going to get about on foot. The crossings in the main part of town are about as bad as they can possibly be, especially the one from the First National Bank to the Park. And, if you don't believe the ones this side of the old Presbyterian church, and beyond the Standard Oil Tank (Dear spot! Beloved sight!) are worse than they can be, just come down and try 'em. The Looker-on has to be a wader-on when it comes to these Black Seas.

And talking about Theodore Roosevelt, is there anything he don't consider himself called upon to set right? It does look as though the issue of his spelling reform (save the mark) would have quieted him for a breathing-space. But no. You can't keep him "sot." He has tackled the coinage, and set right what the fathers considered their declaration of our faith and belief to the world. In those words "In God we trust" stamped upon our gold, the wide world knew on what we build as a nation. A more beautiful and simple creed no people ever sent out. But Theodore knows better. Of course. Honestly, it does seem sometimes as though the man is mad with sheer egotism. And nothing disgusts some folks with him. But this is—is—"The English language can't do justice to the subject."

Mrs. T. J. Presson, of Norfolk, who has been with her mother, Mrs. Sloop, returned to her home in Norfolk Friday. Mrs. Sloop expects to go to Norfolk on a visit as soon as she has somewhat recovered from the terrible shock of her son's death.

## YOUNG MAN HAS NEW THEORY

Human Life Seems Centered in Stomach. All Else is Secondary.

The immense success which has followed L. T. Cooper during the past year with his new preparation has excited anything of the kind ever before witnessed in most of the leading cities where the young man has introduced the medicine. Cooper has a novel theory. He believes that the human stomach is directly responsible for most disease. To quote his own words from an interview upon his arrival in an eastern city: "The average man or woman cannot be sick if the stomach is working properly. To be sure, there are diseases of a virulent nature, such as cancer, tuberculosis, diabetes, etc., which are organic, and are not traceable to the stomach, but even fevers can, in nine cases out of ten, be traced to something taken into the stomach. All of this half-sick, nervous exhaustion that is now so common, is caused by the stomachic conditions, and it is because my remedy will and does regulate the stomach that I am meeting with such success." "To sum the matter up, sound digestive apparatus that is doing its full duty, getting every particle of vitality out of all food by transferring it to the bowels in a perfectly digested state—this above all else brings health." Mr. A. C. Brock, chef of the Brock Restaurant, Market District, Boston, Mass., who is a staunch believer in Mr. Cooper's theory and medicine, has this to say: "I had chronic indigestion for over three years. I suffered terribly, and lost about thirty pounds. I was a physical wreck when I started this Cooper medicine, a month or so ago. Today I am as well as I ever was in my life. I am no longer nervous, my food does not distress me in the least, and I have a splendid appetite. I am gaining flesh very rapidly—in fact, at the rate of a pound a day. I would not believe any medicine on earth could have done for me what this has done. It is a remarkable preparation, and Mr. Cooper deserves all his success." We recommend the Cooper preparations as being remarkable medicines. —E. B. Menzies.
