Rid Your Children of Worms

You can change fretful, ill-tempered children into healthy, happy youngsters, by ridding them of worms. Tossing, rolling, grinding of teeth, crying out while asleep, accompanied with intense thirst, pains in the stomach and bowels, feverishness and bad breath, are symptoms that indicate worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. Brishub, of Elgin, Ill., says: "I have used Kickapoo Worm Killer for years, and entirely rid my children of worms. I would not be without it." Guaranteed. All druggists, or by mail, Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.

A Good Investment.

Children Cry FOR FLETCHER'S CASTORIA

The Hickory Auxiliary Branch of the Southern National Highway Association is the name of a new organization which was perfected Monday morning in the Chamber of Commerce rooms. Secretary Joy nominated J. D. Elliott for president; K. C. Menzies, vice president; Geo. W. Hall, secretary. These were elected as the officers of the association. Governor Craig and members of the Central Highway Association were making a tour of the Central Highway from the Tennessee line to the coast and were expected to spend Sunday here on account of rains near Morganton were compelled to abandon the trip. However, at the meeting Mr. Del M. Potter, of Clifton, Ariz., president Southern National Highway Association and Dr. Joseph Hyde Pratt, of the North Carolina Geological Survey, were present and aided in the organization. Mr. Cranfield, State organizer of the Central Highway was also present and stated that the Catawba county roads were the best the party had traveled over since the beginning of the tour. Dr. Pratt, in speaking of the highway, stated that the Central Highway was all provided for except Burke and Davidson counties. Morganton in Burke, however, has voted bonds for a part of the highway through that county. He said that unless Davidson made some arrangements to provide for the road that a ten-mile detour would be made and thus leave them out of the highway altogether. Mr. Potter is a wealthy man and is giving his time and money freely and gratuitously in the interest of the Southern National Highway and is working hard to get the road to go through this State.

Mrs. O. M. Royster and Miss Ada Schenck arrived July 19 at Delta, Col., on a visit to Mr. Herbert Chase, formerly of Hickory. As their many friends will be glad to hear from them, we quote from an interesting letter which Mrs. N. W. Clarke has recently received from Mrs. Royster:

"We were four days and four nights on the way. One night we spent at Salida so as to make the trip over Marshall Pass by daylight. We had a fine trip all the way out and met very pleasant people from all parts of the globe. When we said we were from N. C. they looked at us as if they thought we were strange animals! Coming through Kansas was like coming through a fiery furnace, the hottest wind I ever felt. The mercury was 105 in the coolest place in the car, everything was hot to the touch, and we felt parched. At Kansas City the altitude was 700 ft., temp 100°; at Denver alt. 5000 ft., 70°; Salida is 7000 ft., 60°; Marshall Pass, the highest point, 10,856 ft. mercury down to freezing, had snowed the day before and we could see patches of snow in several places on the mountains.

Delta is a small place, about 3000, altitude 4000 ft. The sun is very hot, but the nights are cold, last night it dropped to 60°, mountains in sight. It is a peculiar looking country. The mesas or table-lands look like old fortifications one behind another. Very few trees, and they depend on irrigation entirely. This makes the mosquitoes bad, the piazzas are all screened. Mr. Chase told us it was very dry and dusty, here and rarely ever rained, but Friday they had a real cloud burst and rain for two days, and when we got here there was a regular flood. Our train was delayed by a washout, we came to a dead stop, the creek was rushing over the track. There was too much water to go through the culvert, and the track was covered with rocks and mud. The section hands struck and we were delayed a few hours. I've never seen such angry-looking water, it was like liquid mud and carried everything before it. The mud here is like putty.

Mrs. Chase and Edwin, their ten-year-old son, met us at the station. In their beautiful and convenient home, they have a Jap boy for servant and he is a treasure. He does everything, is a fine cook, serves the meals beautifully, his kitchen is spotless, he cleans the house, does the laundry and keeps up the lawns.

We are having the most delicious raspberries and vegetables, of all kinds. "I wish I could write you a description of the Royal Gorge and the canon; it was grand. We followed the Arkansas River almost to its source between mountains, one and two thousand feet. These mountains are mostly rock, but the coloring is wonderful; there are few trees on them and they are very scrubby ones. On this side of Marshall Pass we come down the Gunnison River and the scenery is grand and such a variety of flowers, just like a large flower garden, it was beautiful. When I came this way before everything was white with snow.

"It tires me to write and I don't know when I can write to anyone else, so please you tell my friends."

Surprising Cure of Stomach Trouble.

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Stenge, Plainfield, N. J., writes, "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three-fourths of a package of them and can now eat all most everything that I want." For sale by Moser & Lutz and Grimes Drug Store. adv.
