## THE STORM IN BEAUFORT COUNTY

**JUDGE CLINE'S CHARGE TO GRAND JURY**

News from Washington says that the loss to Beaufort county alone will amount to upwards of two million dollars, while the loss from other sections will amount to a million more. The wind attained a velocity of 90 to 100 miles an hour, uprooting trees and telegraph poles and piling up debris in the streets of Washington.

### BRIDGES WASHED AWAY.

The streams, swollen from the heavy rainfall, washed away bridges and flooded cellars all over the city. The city of Washington was in total darkness all night, scarcely a pole being left standing, while household goods and merchandise were scattered through the streets. The Norfolk Southern railroad bridge spanning the Pamlico river on the main line from Washington to Norfolk was swept away. The railway officials estimate their loss from the washing away of bridges, damage to warehouses, on water front, and damage to tracks at least \$150,000. The Atlantic Coast Line railway is also a heavy loser, the bridge across Tar river being washed away, as was the trestle running several miles into Chocowinity swamp. The entire roadbed for a distance of thirty miles is torn up. The company places its loss at \$100,000. A new steel bridge recently erected over the Pamlico river by Beaufort county has been swept away.

### BOATS SWEEP AWAY.

Tugs and barges broke from their moorings and were swept away and the damage to the water front cannot now be estimated. Washington's new opera house is practically ruined, as the entire end has caved in and it will have to be razed. A large number of houses in which negroes resided were under water and the occupants were forced to flee. Both the Postal and Western Union Telegraph companies were put out of commission, and for the past twenty-four hours the fire department has been engaged in pumping the water out of the basements of the stores and warehouses in the business section of the city.

Wreathed City, Oriental, Bayboro and numbers of smaller towns felt the fury of the gale and considerable damage was done. Communication was effected with Morehead City and Beaufort today and the damage at those places was not so great as was feared. The report that the Atlantic hotel, Morehead City, had collapsed proved to be untrue. At New Bern several streets were inundated for several hours, leaving the thoroughfares lined with debris. The damage in that city will amount to something like \$50,000. Bridges were destroyed, vessels sunk, lumber plants damaged and a number of small houses were swept away. Fire broke out and it is estimated the damage to this source will amount to \$10,000. Two railroad bridges, one of them a mile long, is gone. The storm penetrated as far inland as Kinston, where the loss will amount to \$10,000, in addition to that suffered by growing crops, which is incalculable. A three-story building at a negro college in a suburb of the city was blown down. Washington seems to have been in the center of the storm, suffering the heaviest of any place so far heard from.

### In Memoriam.

Whereas, it has pleased Almighty God in his providence to remove from our midst Virgie Powell, a faithful member of the Young People's Mission Band of Zion Lutheran church, R-1, Hickory, N. C. It is resolved 1. That we bow in submission to Him who doeth all things well. 2. That the vacant place of our faithful sister will be filled by the entire Mission band.

3. That a copy of these resolutions be recorded in our minutes and others sent to the bereaved family and the local papers.

PEARL SETZER, GARLEN DAVIS, SADIE SETZER, GUY YODER, Committee.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio. Sold to all Druggists, 75c.

To Take Hall's Family Pills for constipation.

### Killed by Current.

Greenville, N. C., Sept. 5.—Joseph Harris sawyer at a mill here walked into the grocery store of Messrs. Kittrell and McLawhon yesterday morning, called for a drink of coca cola, and as he was about ready to be served, exclaimed: "I'm gone," and fell over backwards. He was dead in a few minutes.

An inquest was held and the verdict was that he died from unknown causes. It is the common opinion that he died from an electric current, caused by the contact of a live wire with some parts of the building. Some others who entered the place earlier felt shocks. It seems the floor had become charged with electricity and fell over backwards. He was dead in a few minutes.

A coroner's inquest was held and the verdict was that he died from unknown causes. It is the common opinion that he died from an electric current, caused by the contact of a live wire with some parts of the building. Some others who entered the place earlier felt shocks. It seems the floor had become charged with electricity and fell over backwards. He was dead in a few minutes.

Many small crafts in Beaufort harbor, sized or were smashed against warships or the breakwater. The steamer M. M. Marks had her rudder and propeller damaged.

There has been no news from the sea, the wireless station being out of commission.

### Presbyterian Church Notes.

The pastor will preach at both services next Sunday. Special services will be made for our public schools, in union with all the churches of our land.

## SHERIFF OF CALDWELL COUNTY HAS RESIGNED

Court convened at the appointed hour last Monday, with Judge E. B. Cline presiding. His Honor's charge to the grand jury occupied an hour and forty minutes, but it was volume in food for thought. A clearer exposition of the laws of the State was never heard in Boone. Judge Cline was at times brilliant in his sentences, many of them being well rounded. He laid great stress upon investigation as to all the criminal laws and minor offenses and see if they were being violated in Watauga county. He asked the grand jury to investigate the magistrates of the county and find out if they are doing their duty, and settling cases according to law, and he laid down the law governing the case. He spoke like a patriot that he is, and with wisdom. There was more pure blood to be found in North Carolina than any other State in the Union, and a higher standard of morality, courage and manhood. We have suffered for lack of education. But the laws and march of the State to a better education of her children are a source of pride in my heart, and a song of triumph. All honor to the last legislature for its acts in this matter.

He explained the Habitability act, and made it as plain as reading from a book. It granted to women the right to become trustees of school boards. This was wise. But it was done cautiously and well. Judge Cline said the time will come when women will be recognized in counties and State. I do not fear the coming of that day. The ballot in the hands of women is a mere incident to suffrage. Coming out of their civic clubs, and leagues and recognizing their ability and wisdom, will cause a higher standard of civic life, and a stronger and higher life to all the people. The search and seizure law was fully explained. It was not to oppress citizens, but was intended to support the prohibition laws, and take away from the "blind terrors" the illicit sale of liquor—such a judge talk from the bench. It is a pleasure and a delight to hear such a judge talk from the bench. It is really a judicial education to the people.—Watauga Democrat.

### Doctors Said He Had Dropsy

Some time ago I had an attack of dropsy which finally settled in my kidneys and bladder. I consulted with the doctors and they claimed I had dropsy. I tried other remedies and got no relief from any of them. My condition was such that I was unable to work for about two months and the annoying symptoms caused me a great deal of trouble and pain. I was hardly able to turn over in bed. Seeing one of your Almanacs, I decided to give Dr. Kilmer's Swamp Root a trial and after taking several bottles was able to resume my work again. I cannot say too much in praise of your Swamp Root as the results in my case were truly wonderful.

Yours very truly,

ROBERT BALLARD,  
Mansfield, Pa.  
Sworn and subscribed before me, this 7th day of May, 1912.

Letter to Dr. Kilmer & Co.,  
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention the Hickory Democrat. Regular fifty-cent and one-dollar size bottles for sale at all drugstores. (adv.)

### NEWS BREVITIES

#### Items of Interest Gathered Here and There.

Fire destroyed the plant of the Nels Lumber Company at Statesville late Saturday afternoon entailing a loss of several thousand dollars.

Hon. Josephus Daniels, Secretary of the Navy, was in Raleigh for a few days this week on business connected with his newspaper, The News and Observer.

W. T. McKenzie of Scotland county, who killed his wife's brother, Peter Jones, was last week found guilty of murder in the first degree. Judge Lyon sentenced the prisoner to be electrocuted Wednesday, October 29th.

### What's in the Paper?

The paper tells of wedding bells and bridal wreaths and damsels bushing; of men who waste their lives in haste, upon their foolish errands trifling; of politics and ringsters' tricks, of Windy Jims with schemes unending; of griefs and cares and sighs and prayers, and mothers o'er sick children bending.

The paper tells of prison cells where human junk is safely herded; of church and pew where I and you hear helpful sermons, aptly worked; describes the den where broken men have heard the doors of hope shut, clanging; describes the hall, where on the wall a hundred priceless prints are hanging. The paper speaks of ugly leeks discovered in the nation's coffers; of noble schemes an' rosy dreams, and of the sneers of ribald scoffers, of queens and kings, of all the things that chance on earth, in prose or verse; of plain, relief, of joy and grief, and farewell tours in sable hearse. We read is all—the stories tel' of native stunt and foreign caper—with brooding eye, and fiercely cry: "Great Scott! There's nothing in the paper!"

Cures Old Sores, Other Remedies Won't Cure

The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00.

## HICKORY'S VOLUNTEER FIRE COMPANY

### CHARGED WITH STEALING BICYCLE

Lenoir, Sept. 9.—After making a satisfactory settlement with the county commissioners this morning at a special session held in the courthouse, Sheriff J. P. Icard, who has been sheriff for about three years and has given entire satisfaction in every particular, resigned. The only reason for resigning the office of sheriff was due to the fact that Mr. Icard has other business interests that need his attention, and after thinking over the matter for some months decided within the past few days to tender his resignation to the county commissioners at their special session. In resigning Mr. Icard asked that Jerome A. Triplett be named to fill the unexpired term. After due deliberation on the part of the commissioners they decided to name Mr. Triplett to fill the unexpired term as sheriff of Caldwell county. Within a short space of time the matter was settled, the bond of the new sheriff secured and the oath of office taken and Sheriff Icard relieved of all responsibility.

This is the second time in the history of the county that the office of sheriff has been made vacant by resignation.

### Dr. and Mrs. Brown Return.

Dr. R. Wood Brown and wife returned Sunday from an extended pleasure trip to the Pacific coast. They visited the State of Washington, Portland, Oregon, Salt Lake City, Utah, and Dr. Brown's old home, Kansas City, Mo. They made two visits to Washington, D. C., where they had a very pleasant call from Mr. H. A. Banks late of this city. The Secretary of the Navy, Daniels, told Dr. Brown that he was well pleased with Mr. Banks, also making the remark that he (Daniels) was "well pleased with Banks." We welcome Dr. Brown and his lady back to Hickory and feel quite sure they will remain here permanently.

### Doctors Said He Had Dropsy

### Granite Falls Church Dedicated.

Granite Falls, Sept. 7.—The new Lutheran church of Granite Falls was dedicated today by the Rev. J. P. Price, the pastor, assisted by Rev. J. H. Wannamacher, of Holy Trinity church, and Rev. R. L. Fritz, president of Lenoir college. At 12 o'clock a basket dinner in a nearby grove was enjoyed by all.

### Physicians Discuss Cause of Pellagra.

By Associated Press.

Spartanburg, S. C., Sept. 3.—Pellagra, its agencies of dissemination and possible preventatives formed the subject of a conference of southern physicians here today. Nearly two hundred students of the disease, coming from practically every southern state were present. Dr. Louis W. Samson, head of the school of tropical medicine, London, was the principal speaker.

Dr. Samson who is chief exponent of the insect theory of dissemination, declared that pellagra is rapidly becoming a subject of world wide concern. Fifty three cases, he said, had been discovered in the British Isles. Hundreds of others, he added, probably existed but had been unidentified because of the general ignorance of physicians in regard to the disease.

Although extensive research work had convinced him, Dr. Samson said that pellagra is transmitted by an insect, he has reached no definite conclusion as to the identity of the transmitting agent. He suggested that the Buffalo gnat seemed a likely suspect, drawing his inference from the fact that the disease spreads most rapidly along flowing streams.

Dr. Samson urged thorough and immediate investigation of the whole pellagra problem, whose magnitude, he said, has not been generally recognized. He declared that many cases of insanity, in his opinion, had their origin in pellagra infection.

Today's conference was held under the auspices of the Thompson McFadden pellagra commission of the New York post graduate school of medicine and the local medical society.
