the late Senator Vance, was very well received here, where Senati r Jarvis has many personal friends, among the warmest of whom is President Cleveland. The North Carolina delegation in Congress have nothing but good words for the new Senator.

The democratic party at large will hear some good news from the Senate in the near future. More cannot be said without violating confidence, but it can be stated that it relates to the harmonious passing of a tariff bill by the vote of every democratic Senator. The Pennsylvania manufactur-

ers who paid out good money to send seven or eight hundred people, under the high sounding title of Delegates from the National Workmen's Protective Tariff League, to Washington to protect against the tariff bill, made a very poor investment. The protest was very tame indeed and did not create even a ripple at the Capitol. If sent by mail it would have been equally effective. Half of the "delegates" showed their interest in the widely advertised street parape by not taking part in it, pre. ferring to spending their time in sight-seeing, not knowing when they would again have an opporfunity to come to Washington without cost to themselves.

The new quorum counting rule having deprived the republicans of the House of their favorite ocsupation-filbustering by refusng to vote when there was no democratic quorum present-they have now started a new way of retarding business, by trying to stir up bittor political discussion over unimportant items in the regular appropriation biels. They wish to prevent an early adjourn-

S. P. SMITH, of Towanda, Pa., whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

" For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsapariila to be the best in the market to-day."
