SICK-HEADACHE

Makes life miserable. All other ailments are as nothing in comparison. Women especially know its suffering, and few escape its torture.

THE RELIEF AND CURE IS

Many people take pills, which gripe and purge, weakening the body. More take Simmons' Liver Regulator, liquid or powder, because more pleasant to take, does not gripe, and is a mild laxative, that also tones up the system. The relief is quick. It is Nature's own remedy, purely vegetable.

"I never found anything to do me any good until I used Simmons' Liver Regulator. It has been three years since I first used it and I have not had Sick Headache since. I sent my sister (who had from one week to another of Sick Headache every week) one-half of a package, and she has not had it since."—C. E. Mott, Brownsville, W. Va.

What Congress Did for Us.

When one makes the assertion that the late Congress did nothing for the good of the people, he is either ignorant of the facts, or is wilfully misrepresenting them. Before we make a wholesale condemnation of anything we should look into the matter carefully and see if the facts justify the conclusions. And especially before we get huffed up and leave the party which has always been our friend we should see whether or not that party has made proper efforts to keep faith with us. Let us notice what Congress did at its last session which is of special interest to the tax-payers of the country.

It repealed the federal election law which was so objectionable as to call forth the condemnation of the entire press of the South.

It has made all money equally taxable, by giving the States the power to tax green backs and other United States currency. This is an important measure, as will be seen from the following words of Mr. McMillin, of Tennessee:

"Authorizing the issue of greenbacks and the treasury warrants under the Sherman act exempting them from the State, county and municipal taxation. Hundreds of millions thereby escape all taxation. Individuals escape it by having their funds in bank nominally invested in greenbacks or United States treasury warrants on the day for assessment. Banks accomplished the same object in the same way.

Under the new law this vast amount of money must bear its burden of taxation.

It has imposed an income tax, thereby shifting great burdens of taxation off of poverty and putting it on wealth.

It has passed a tariff bill which shatters the "protected trusts of McKinleyism," and thereby giving to all the opportunity of living cheaper, and better.

It has greatly reduced the expenditures of the government. It has cut off the fiscally pension appropriations and saved nearly \$30,000,000 to the people in that respect alone.

It reclaimed 50,000,000 acres of public lands given by Republican congresses to various corporations. For one solid year it has maintained an unrelenting fight against the trusts and monopolies, which protection had created.

Representative McCrory, of Kentucky, says this House "passed more good bills and enacted more important legislation than any of its predecessors in ten years, or any with which I am familiar, and have been watching the course of legislation for twenty years."

The Democratic party goes into the campaign with his record behind it, and upon it will the party make a vigorous and aggressive fight, rejoicing in the strength of its cause. Speaker Crisp and Secretary Smith opened the campaign in Georgia last Friday, and the former closed his speech with the following words, which put the whole matter in a nutshell:

"The Democratic party enters upon its contest with Republicanism and every other temporary issue which may present itself, with courage and confidence. While we have not done all we hoped to do, we have done more in the past year to redress the wrongs of the people, we have done more for their relief, than was ever done by any party, in the same length of time in any country under the sun. These are bold words, yet I hold myself at all times ready to defend them. Coming into power at a time of panic, when business was at a stand still, when labor was unemployed, when our treasury was empty, with courage and fidelity we entered upon a struggle with the enemies of the people, we emerged from that struggle victorious in this; We have repealed the McKinley law; we have greatly reduced taxation; we have made

living cheaper; we have made all money taxable; we have taxed surplus incomes; we have restored freedom of elections; we have reduced public expenditures, and we have declared undying hostility to all trusts and monopolies, organized for the oppression of the people. On these foundations we "build our house."

His Threat.

"What do you mean by threatening me as you have? I hear that you swore if I cut across your field again you would shoot me as you would a dog."

"Oh, that's all right. I never shoot dogs."—Boss's Transcript.

As to Hanging.

An English Methodist preacher of much fame, Mr. Price, wants the Methodists in this country to take a hand in suppressing lynchings. He ought to read Bishop Haygood's powerful article. He will perhaps come to the conclusion that if black devils roam and devour, despoil and murder at will, that there will not be much chance to suppress shootings and hangings in retaliation any more than there is to stop shootings among nations on a big scale and known as wars. The English always have a war or two on hand and they shoot promptly. If Mr. Price and his people saw thows, and of brutes, white or black roaming England to seize and assault the wives and daughters of the better classes, they would shoot, hang, burn, quarter or would give the lie to all that is known of John Bull and his folks. Fine sentiment at long law condemnations sweeping the hanging of a devil who deflower a helpless woman and then murders her, but they have no curses for the scoundrel who doer the devilish deed. Let rapes and murders stop and hangings shootings will stop.

The Northern people who say much as to hanging brutes never have a word in denunciation of the hellish crimes for which the devils die. All the Governors in all the States, with courts constructed as they are, will never stop regiments by shooting and hangings so long as the persons of the mothers, wives and daughters are not as safe as the wives and daughters of the royal and noble families of England. Let the churches if they can put down the awful brutalities that provoke resentment and retaliation and the hangings by mobs will practically cease.

There must not only be swift trial but unerring and conviction. There must not only be no laws delay, but there must be no acquittals of pain cases of murder. People lose all confidence in and patience with criminal courts that fail to convict and punish scoundrels of whose guilt ninety-five men in a hundred feel positively assured.

With such criminal laws as exist—all leaning toward the criminal—and with such juries to try there is not much else in court trials now than a broad travesty of justice.

The Governor at Raleigh thinks the Legislature should do something, and that rapists should be taken to the penitentiary at once to prevent them from being hanged by mobs. He also favors that all hangings be had at the penitentiary. That or something else should be done to prevent public exhibitions called hangings.

John G. Manger, Editor of the Sunbeam, Seligman, Mo., who succeeded Grover Cleveland for the Presidency in Nov., 1882, while he was Mayor of Buffalo, N. Y., is enthusiastic in his praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says: "I have used it for the past five years and consider it the best preparation of the kind in market. It is as staple as sugar and coffee in this section. It is an article of merit and should be used in every household. For sale by Dr. W. I. Crouse Drugist

Stop and Think of This.

We trust that all who have read the accounts of the Southern Railway and other reorganizations' the many important investments of outside capital and the marked increase in trade throughout the last few weeks will stop and think what it all means. This combination of good fortune is too great to be appreciated at once. It requires time to estimate its magnitude, and the great benefit which will result from it cannot be at present calculated.

Perhaps never in the history of the States south of the Potomac have so many events occurred to help them as at present. The abundant crops in themselves would be a great source of prosperity, coming as they do when drouth has depleted the great Western granaries, but the crops form only one phase of the situation. Not only the Southern has been reorganized, but several other systems are soon to be, while three important railroads on which work was stopped during the general depression, leaving them with no terms of any importance, are to be completed. Then, we must add the quickness of the South to respond to the revival of business, just as the Man's Record predicted it would always. It has been so noticeable as to be commented on generally in the Northern press. Some newspapers, ignorant of the true condition of affairs, have been astonished at the volume of business already being transacted at Southern trade centres. Others that have been watching these cities with keen interest began concurring with the Manufacturers Record months ago in its predictions, and now have the satisfaction of knowing that they were right.

Here we have three important points: Abundant crops; the railroads which were weak financially placed on a sound basis by the investment of millions of outside capital, and an activity in business circles almost without parallel. They will be truly memorable events in the year 1894, and there is ample food for thought on what they are going to do for the Southern country.—Manufacturers Record.

Pimples AND Blotches

ARE EVIDENCE that the blood is wrong, and that nature is endeavoring to throw off the impurities. Nothing is so beneficial in assisting nature as Swift's Specific (S. S. S.) It is a simple vegetable compound. It is harmless to the most delicate child, yet it forces the poison to the surface and eliminates it from the blood.

I contracted a severe case of blood poison that afflicted me for business for four years. A few bottles of Swift's Specific (S. S. S.) cured me. J. C. JONES, City Marshal, Fulton, Arkansas.

A Russian Charm.

The Russian method for young girls to find when they will be married is for a party of them to assemble and take off their rings and drop them in a basket of corn, stirring the grain meantime till all the rings are hidden and then a hen is brought in an invited to partake of the corn and the owner of the first ring uncovered will be the first to enter matrimony.

Investigation Invited. Of course it is proper to inquire about what any man says, is it true?

The most rigid investigation is invited into the testimonials published in behalf of Hood's Sarsaparilla. Special attention is called to the high character of the persons whose testimonials are published by the proprietors of this medicine as evidenced by their occupations or endorsements. In fact, no matter where a testimonial in behalf of Hood's Sarsaparilla may be from, it is reliable and as worthy of confidence as if it came from your most trusted neighbor.

State Fair Notes.

Col. J. H. Holt, Chief Marshal of the State Fair, has appointed a corps of 160 assistants from every section of the State, all of whom have accepted the appointment and have notified him that they will be present at the fair.

Among the greatest attractions engaged to be on the Fair grounds in Hurd & Berry's World Museum, embodying numerous novelties and curiosities.

The race programme this year has excited more attention than ever before. The purses offered aggregate \$2,600. The fields of running horses will be larger and better than ever seen in North Carolina. Mr. W. J. Carter, the turf editor of the Richmond Times, has been engaged to act as Starting Judge in all races.

More than 300 prominent farmers in the State have expressed by letter their intention of making exhibits at the Fair in all the departments.

The poultry exhibit this year will be a special feature. The Society has over 300 new and improved wire covered exhibition coops, all of which have already been engaged. Besides these a number of exhibitors will supply their own coops. The exhibition of game fowls will be superb, and the display of pet stock will be something that will please and delight every body.

Numerous additions and improvements are being made at the Fair grounds to supply accommodations and space applied for by exhibitors.

A new feature of the Fair this year will be practical lectures and essays on economical subjects by competent speakers in Common Hall at night.

Arrangements are being perfected for good theatrical attractions during the week. Social features will be lively and exhilarating, including gormans and balls every night, elegant receptions &c. &c.

The dates of the fair are October 23 to the 26th, and the R. R. rate is one fare for the round trip.

Farm Philosophy.

Theory is not equal to corn as a hog fatterer.

When the plowman counts the clouds he neglects the corn.

The man with a grievance is often a grievance to his friends. Don't scold the cook about the victuals for which you have thanked God.

It is impossible to cultivate a good disposition in a horse by swearing at him.

That effect of a mule's kick does not depend upon the soundness of his brain.

It is hard for some church people to learn that shouting will not pay debts.

The still-house worm destroys more corn than all the cut-worms put together.

Many men, if they possessed a "title clear to mansion in the skies," would mortgage it.

Stealing a horse is not a much greater sin than working one hand on starvation rations.

It looks to me like an attempted swindle to try to get plenty of milk from a poorly fed cow.

If the weather would go out of business the corner loader would go out of business, too, from lack of an excuse.

B. B. B. BOTANIC BLOOD BALM.

Concord Standard: The cow disease is doing damage in Rowan and Mecklenburg counties.

Mr. James T. Barris, who lives near Locust, has a hog trough which has been in constant use ever since 1855. It is made of rich pine wood.

We were shown a letter the other day written by the Populist candidate for Clerk of the Superior Court of Stanley county to a good Democrat, soliciting the vote of the Democrat in the coming election. The letter contained just 119 words, and 16 mistakes. It is candidate stated before the Populist convention that nominated him that he was incompetent to discharge the duties of a Clerk of the Superior Court, and his letter proves it.

IT MAY DO AS MUCH FOR YOU. Mr. Fred Miller, of Irving, Ga., writes that he had a severe kidney trouble many years, with severe pain in his back and also that his bladder was filled. He tried many so-called kidney cures, but without any good result. About a year ago he began using Electric Bitters, and found relief at once. Electric Bitters is especially adapted for cases of kidney trouble in adults and often gives a permanent relief. One trial will prove its statement. Price only 50c. For full particulars, Dr. J. M. Lewings Drug Store.

Make a Big Difference.

Mr. Timmud—How would a girl feel if she received a proposal by letter?

Friend—If she didn't care for you, she'd feel insulted.

"Um—well—er—suppose she did care for me?"

"She'd say 'yes' by telegraph."

Irving W. Larimore, physician, director of Y. M. C. A., Des Moines, Iowa, says he can conscientiously recommend Chamberlain's Pain Balm to athletes, gymnasts, bicyclists, foot ball players and the profession in general for bruises, sprains and dislocations; also to soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one half the time and is required. For sale by Dr. W. J. Crouse Drugist.
