DR. FRANK L. REID DEAD.

Our hearts are saddened by the announcement of the death of Dr Frank L. Reid which sad event occurred at Greensboro, N. C., ou last Monday morning. He was rick two weeks but did not take his bed until Saturday before his death. He died of gastritis. We know of no can that was held in higher esteem than was Dr. Reid. Why should he be snatched from us just in the prime of numbood The ways of Providence are mysterious and past finding out. The doctor was 43 years of age and had been in charge of Greensboro Female College only a short while and under his wise management that noble institution was fast forging to the front in every partienlar. Many hearts have been made sad by this announcement-This should be a warning to all others to be in readinss as was Dr Reid. In the midst of life we are in death Prof. Dred Peacock has been put in charge of the college,

impending political crisis. It was also perfectly natural that Senator Faulkner, chamman of the Demoeratic Congressional Campaign Committee, should call upon Secretary Carlisle before he left LINGOLNTON AS SECOND CLASS MAIL Washington, to give him all the information in possession of the committee concerning the present status of the campaign and the outlook for democratic success No man can be more deeply interested in the campaign than is Mr! Cleveland. Only a man who draws Two inches, one time, \$1.50; 50 a salary for doing so would pretend and anything sensational in all Three inches, one time, \$2.00 this and no one else is doing so.

Representative Tarsney, of Missouri, who has been renominated and who is now in Washington, reports his State as being all right. and his own re election he regards as certain. Speaking of the campaign generally in Missouri, he said: "I attended a democratic meeting last Tuesday at Lexington, and I never saw a more enthusiastic gathering in any previous campaign, Reports from all over the State indicate the same geeling everywhere. I do not think there is a possibility of loosing more than one democratic Congressman, and even that is not a certainty. I refer to the St. Louis district now represented by O'-Neil. Situation there is very much avolved at present. No nomination has been made yet by the democrats, and it is difficult to make a prophesy of the outcome."

Before leaving Washington Secretary Carlisle accepted the resignation of Supervising Architect O'Rourke, which was requested early last week. There are already a number of applicants for the vacancy, but it is understood that no appointment will be made until the architect office has been completely re-organized. Under the reorganization all of the business relating to the letting of contracts and kindred matters will be looked after by the Secretary, leaving the architect in charge of that portion is by his profession especially fitted. This will doubtless be a relief to the new architect, whoever he may be. Wrangling with contractors has hitherto occupied a good portion of his time.

Secretary Herbert has gained varm spot in the hearts of the scientists by his reorganization of the Naval observatory, placing it under the direction of a civilian instead of a Naval officer. Secreary Hernets long service on the Navel committee of the House had been familarized him with the subject, which has been agitated for years. His action has given general satisfaction and there is little doubt that it will add largely to the usefulness of the observa-

The party of distinguished demerats who went from Washington to attend the State Convention of Democratic clubs at Raleigh N. C., brought back nothing but good words for this condition and hospitality of the North Carolina Democracy. They also brought the assurances of those who know that there was not the slightest danger from the alleged combine between the republicans and populists to control the legislature and elect a republican and a populist Senator. The democratic managers in the State are certain that the next legislature will be democratic, regardless of any combing-President Cleveland and Secretary tion that can possibly be made to prevent it, and that North Carolina will continue to be represented tion, must enjoy the wild guesses in the U. Cotring Silver.

Secretary Carlisle's recent letter to Hon. J. T. Heard, of Missouri, months, 3,970, 727 sitver dollars have been coined from bullion which was purchased under the Sherman act. This money has been used to redeem treasury notes which have been retired and canceled, and silver is being substituted for paper dollars.

The Secretary was authorized to coin this silver by that part of the Sherman act which was not repealed, and yet we hear some extreme free silverites assert that if congress had executed the intention of the National Democratic Convention, it would have repealed the entire Sherman act and not simply its purchasing clause.

If the advice of these free silver extremists had heen followed, Secretary Carlisle could not have authorized the coinage of nearly four million silver dollars which he has put into circulation in the last eleven months.

The free silver extremists are hard to please,-Atlanta Journal-

The Populists and Republicans take great pleasure in saying that the Democratic party has stopped the comage of silver. This is false. The Secretary of the Treasury is having coined every month many millions of dollars of the bullion now on hand. In our collections Saturday the Sun received in payment for its bills several pieces of silver coined this year, and this new coinage is going out all over the country. Everybody who is informed on the subject knows that the Secretary of the Treasury is coining the seigniorage and using it for the country. Only the enemies of the administration and those who wish to fool the people assert that he is not doing so. We want you to bear this in mind, when you hear that argument used again .- Durham

In a large sense every question of fluance and commerce, which flgares from time to time in the politics of a free poeple, are incidental to the deeper and wider question which always and everywhere separates Toryism and Democracy. Toryism stands for the creation of a privileged class who in turn for their privileges are to discharge the duties of parents toward the mass of people who are to be considered as the children of Commonwealth This experiment has been tried for centuries and never with a result satisfactory to anybody but the privileged classes. As long as human nature remains what if always has been and is now, it can have no other result. Democracy, recognizing the truth of history and experience, aims at a government which will leave every man free to work out his own destiny under equal conditions with all men without creating any class to act as a guardian of all other classes,-Sun.

Bob Peak's Letter.

Politics are growing very warm: and if all the parties keep stirring at the fire, by November things will reach burning heat. Happy to see the Democrats organizing themselves into clubs for the fight. A good club was organized at Cherryville a few days since. Can't | 75 . old Mother Lincoln's boys do likewise; we think the short majority of two years ago is warning to them to keep their lamps trimmed and burning, and now is the time to run bullets for when the enemy charges which the signs of the times indicate, it will then be too late. Will be much better to organize and charge them first as two charging armies never occupy the same ground but the army charging first takes and holds the ground. Our 3rd party friends have a full ticket in Gaston and also have the Republicans; but

our people have not yet forgotten The third party Republican fusion trick is one of the grandest displays of the day. It appears to the same time. I advise to drop one or the other and come at once in solid mass, and still Democracy will stand unshaken and eternal as the Rock of Ages.

nee for the House, addressed the Cherryville club on last Friday night, and most nobly acquitted himself. Referring to the fusion humbug he characterized the Republican and Third Parties as a conglomerated mass suspended between two party platforms, and clinging to neither but claiming both. Would it not be funny it this mass of ignorance is found dead, lynched between the two scaffolds erected by their own suicidal hands for their own destruction? Will the thinking masses of both parties submit to be battered off by the hungry office hunters of both parties and jointly conspire to defeat the eternal principles of democracy; the principles that has always come to the rescue and saved States and the nation from ruin and everlasting degradation? If so, why? Ruin yourselves, your neighbor, your county, state and nation to please a few office hunting demogogues, whose hearts are as practically black as the smoky caverns of the infernal pit of destructions to which they are hastening as fast as moments can flit away. Cast anchor before entering the boistrous and bottomless sea with a sinking rotten ship.

Greensboro Record: A correspondens at Franklinsville ser.ds us an account of a most distressing accident near that place.

Mr. D. D. Short, a white man whose home is in Franklinsville, left there yesterday morning on his cart, and his mule ran away, killing him instantly. His body was mangled by being dragged for some distance. He was about fifty years old and leaves a wife and several children.

A revival meeting is in progress at the Methodist church here. The deceased was at church drunk Wednesday night and special peayer was offered for him and he sat up and laughed while the prayer was being offered. He had a young daughter at the altar seeking salvation at the time. He was drinking heaving when he left home.

performed by Ayer's Sarsaparilla, one in particular being that of a little daughter of a Church of England minister. The child was literally covered from head to foot with a red and exceedingly troublesome rash, from which she had suffered for two or three years, in spite of the best medical treatment available. Her father was in great distress about the case, and, at my recommendation, at last began to auminister Ayer's Sarsaparilla, two bottles of which effected a complete cure, much to her relief and her father's delight.
