----THE ELECTION.

A regular land slids for the republicans is the result of the election in this state on last Tuesday. We are subject to the "powers that be", but we will venture the assertion that within two years the majority will be ready for a change. The cause of the defeat, we think, was the slowness of our recent Congress to act upon important matters. The people lived under Republican rule for about 30 years and were reduced to almost abject poverty by unwise legislation. The Democrats took charge of the government less than two years ago and because they did not in that short period bring about former prosperity they are asked to step down and ont. The Populists are no more. They have been melted and poured into the Republican caldron. and all run into one body and the child has no resemblance of Ponulism. Some defective democrate were thrown in as a kind of seas ring and they will spoil the whole mixture before two years

A Bad State of Affairs,

The people of the South are being deceived in the jurchase of imitation melicines. It's poor consolation to a sick man to be told that the medicine offered him cerainly wont do him any harm. Wroug; it will do great harm. It allows the disease to progress instead of stopping it, and this is most dangerous because the disease will, soon be beyond cure. This is the best resaon why you should be sure to get the right medicine. Dont risk your health in trying any of the many idver Melcines which have sprung up in the South to be s ld n place of Simmons Liver Regulator put up by J H Zellin & Co., with the ited Z on every package, this was the medicine of your fathers, and they lived long. Have nothing to do with anything else, or any druggist or dealer who would persuade you that the many imitations under dilferent names are just as good It's not true. Tue people who bay them beap up their miseries. Beware 1

Why is He So Irritable?"

This question is often heard and early as often ananswered. It is not always rememored, as it should be that the occasion of ille emper and irritability is often to be found in the physical conditi ofon the persons effected. What is the ase of trying to "harmonize" a man whose liver has goue back on him? If a man is tortured with rheuma. tism, how can he be expected to be affable and agreeable ? Can a contirmed dyspeptio be expected to be cheerful and always ready to tell a fauny story ? The only way to remeve the difficulty is to get at the cause. Dyspepsia, Rhenmatism, impure blood and liver troubles yield to Hood's Sarsaparilla ; this is why it is an effective tranquilizer a peaceful messenger' and a preventive of domestic quarrels.
