

The Damage Fly.

(Address by Dr. Woods Hutchinson.)
A fly in a house is as dangerous as a rattlesnake, as a filthy as a louse, as disgraceful as a bedbug. The time will come when any modern, cleanly home will feel itself ashamed and disgraced by the presence of a fly, and when every household upon whose premises a brood of flies is detected will be fined heavily and sent to jail. The fly is a literal "eye of the Lord" because he is in every place beholding evil and the good, especially the evil, for he lives to lay eggs in it. You can't hide dirt from a fly. He is also the most intimate and domestic animal we breed and keep. An ounce of cleanliness is worth a ton of fly paper and wire screens. One-half the money wasted on fly traps and window screens, one-fifth the energy squandered in slapping and profanity would clean up the back yard and wipe out the fly.

Life Saved At Death's Door.

"I never felt so near my grave," writes W. R. Patterson, of Wellington Tex., as when a frightful cough and lung trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. My father, mother and two sisters died of consumption, and that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 187 pounds and have been well and strong for years." Quick, safe, sure, its best remedy on earth for coughs, colds, lagrippe, asthma, croup, and all throat and lung troubles. 50c & \$1.00. Trial bottle free. Guaranteed by Mebane, Drug Co.

Tariff Tolls And Taxes.

The Treasury Department at Washington boastfully announces that the "Payne-Aldrich law produced in its first year a revenue greater by seventy-five million dollars than the sum collected in any other year of our national life, except the year 1907." This, as the Philadelphia Record shows, is a case of juggling figures with a view to giving the new tariff measure credit as a revenue-producer which does not belong to it. The aggregate revenues of the Treasury were, it is true, greater by seventy-five million dollars during the first year of the present tariff than in any other year, except 1907, but a great deal more than customs receipts went to make up that aggregate. The fact is, that customs collections for the twelve months ended with August 5th were \$329,117,208. In 1907 the Dingley tariff yielded \$332,233,362—which is the record and behind which the new law ran a full three million dollars.

But even if the Treasury Department figures were not juggled, the fact would still remain that for ever dollar the new law put into the public purse, it placed at least seven in the coffers of the tariff-bred and tariff-nurtured trusts and monopolies which are its chief beneficiaries. Of course, the domestic consumer footed both bills, but it is the seven-dollar toll, not the one-dollar tax, that counts, burdens and oppresses.

Wife Got Tip Top Advice.

"My wife wanted me to take our boy to the doctor to cure an ugly boil," writes D. Frankel, of Stroud, Okla. "I said 'put Bucklen's Arrica Salve on it. She did so, and it cured the boil in a short time.' Quickest healer of Burns, Scalds, Cuts, Corns, Bruises Sprains, Swellings. Best Pile cure on earth. Try it. Only 25c at Mebane Drug Co.

If Love Were Always Laughter

If love were always laughter
And grief were always tears,
With nothing to come after
To mark the waiting years,
I'd pray a life of love to you,
Sent down from Heaven above to you,
And never grief come near to you,
To spread its shadow, dear to you,
If love were always laughter
And grief were always tears,
But grief brings often laughter,
And love, ah, love brings tears!
And both leave over after
Their blessings on the years;
So I, dear heart, would sue for you,
A mingling of the two for you,
That grief may lend its calm to you,
And love may send its balm to you—
For grief brings often laughter
And love brings often tears.
—Annie Jonston Grim. in Century.

The South's Contribution.

What a marvelous section is this that we live in—this South, which forty-three years ago was a barren waste as the heritage of war!
Then not a factory giving out smoke, business was paralyzed, agriculture was at a standstill, and the people of eleven States were in a condition of coma.

Now the whole world is wondering if we are ever going to call a halt in our march toward commercial supremacy. We have frequently quoted what the leading newspapers have to say along this line, but something new turns up nearly every day. For instance, we find in the Baltimore Manufacturers' Record this summary of what the South puts upon the markets each year:
\$2,690,000,000 from its factories.
\$2,600,000,000 from its farms.
\$440,000,000 from its forests
\$280,000,000 from its mines.
\$1,000,000,000 of cotton with seed.
\$730,000,000 of grain.
\$200,000,000 of live stock.
\$175,000,000 of dairy products.
\$170,000,000 of poultry products.
\$150,000,000 of fruit and vegetables.
\$69,000,000 of tobacco.
\$50,000,000 of sugar products.
\$628,000,000 of exports.
24,000,000,000 feet of lumber.
1,250,000,000 pounds of cotton goods.
1,104,000,000 bushels of cereals.
100,000,000 tons of coal.
25,000,000 barrels of petroleum.
9,000,000 tons of coke.
6,400,000 tons of iron ore.
3,200,000 tons of pig iron.
2,395,000 tones of phosphate rock.
350,000 tons of sulphur.

These are stupendous figures, indeed; but ten years from now we will look upon them with curiosity and wonder that such little things ever really excite comment.

Tortured For 15 Years

by a cure-defying stomach trouble that baffled doctors, and resisted all remedies he tried, John W. Modders, of Moddersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said, "he can't live much longer." "Whatever I ate distressed me," he wrote, "till I tried Electric Bitters, which worked such wonders for me that I can now eat things I could not take for years. It's surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at Mebane Drug Co.
