Japanese Advertising

From London Tit-Bits.

Some Japanese advertisements possess a wealth of imagery unknown to the Western advertiser. A Tokio draper announced that "Our goods are sent to customers' houses with the speed of a shot from a rifle."

A large store displayed a poster inscribed: "Why not visit our shaps? We can satisfy every possible want of yours. Every one of our assistants is as complaisant and obliging as a father who seeks to dispose of a dowerless daughter. You will be as welcome as a ray of sunshine coming after a day of ceareless rai 1."

Midnight In The Ozarks,

And yet sleepless Hiram Scranton. of Blay City, Ill., coughed and coughed. He was in the wountains on the advice of five doctors, who said he had consumption, but found no help in the climate, and started home. Hearing of Dr. King's New Discovery, he began to use it. "I belive it saved my life," he writes "for it made a new man of me, so that I can now do good work again." For all lung diseases, coughs, colds, a grippe, asthma, croup, whooping cough, hay fever, hemorrhages, hoarseness or quinsy, its the best known remedy. Price 50c and \$1,00. Trial bottle free. Guaranteed by Mebane Drug Co.

What Mrs. Cope Found.

Fiber and Fabric.

Hats off to Mrs. Clarinda Cope, a female reformer from Chicago, who has the distinction of being the first of her kind who has investigated the child labor question in the South and acknowledged the real conditions.

Mrs. Cope finds "the cotton mills of the South a blesssing to the poor people. I have found," she said, "that the so-called child labor is on the decrease and wages are as good as they are in the North, with a margin in favor of the young people."

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular madam, and you will escape many of ihe ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication. much distress and suffering may be avoided. Sold by. All Dealers.

BAD BREAK IN TENNESSEE.

Squad of Republicans and Independent Democrats Leave the State in Order to Defeat Certain Legislation

Twenty Republicans and fourteen independent Democratic members of the Tennessee Legislature have gone to Decatur, Ala., for the purpose of blocking further legislation in the matter of an amendment to the State election law passed Thursday last. At a meeting the regular Democrats of Eyes, Examined and glasses the lower house decided to remain in fitted. session for the next two years, meeting and adjourning from day to day. A representative of the absent lawmakers issued a statement in which it was declared that the missing legislators left the State in order to nullify the election bill passed and because they believe the regulars would attempt to repeal the liquor law now on the statute books of the State.

Saved His Mother's Life.

"Four doctors had given me up," writes Mrs, Laura Gaines, of Avoca, La., "and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good. I will always praise them. Electric Bitters is a priceless blessing to women troubled with fainting and dizzy spells, backache, headache, weakness, debility, constipation or kidney disorders. Use them and gain new health, strength and vigor. They're guaranteed to satisfy or money refunded. Only 50c at Mebane

In Washington, N. C.. a nine-months road sentence has just been imposed for pistol toting. That the force of the example so made will go far towards putting an end in that particular community to a practice dangerous to the public peace and safety and all too common in all sections of the country, goes without saying. If detection in pistol-toting were made to mean invariably use of the pick and shovel on the public roads for a considerable period, the habit would soon become conspicus by its absence.—Va Pılot.

Kicked By A Mad Horse

Samuel Birch, of Beetown, Wis., had a most narrow escape from losing his leg, as no doctor could heal the frightful sore that developed, but at last Bucklen's Arnica Salve cured it completely. Its the greatest healer of ulcers, burns, boils, eczema, scalds, cuts, corns, cold-sores, bruises and piles on earth. Tary it. 25c at Mebane Drug Co.

A Possible Reason.

From the Pittsburg Post.

"What are you reading?" "A poem called the 'Deserted Village.

Why was the village deserted?" "I haven't gotton that far yet, but I presume the inhabitants had gone to Washington after jobs."

Fifty Years of Achievement.

Fifty years ago this week the south was on the eve of a great war. Wrought up to a state of tension by the prospect of a conflict with the north, which however it ended, it was recognized, would involve the expenditure of millions of treasure and the sacrifice of thousand of lives, business was at a standstill. The pall of commercial stagnation had spread its panoply over both sides of the Potomac and men without employ ment roamed the streets, hungry and anxious. For four years the hands on the clock of industry stopped moving. When they resumed, half a million brave fellows had been laid away beneath the sod and ten billion dollars had been consumed in powder and

No fifty years in the world's history have seen greater changes anywhere than have been wrought since then in the south, which rising from the smouldering embers of industrial prostration has taken her place among the most progressive, and most enterprising sections of the nation. Unaided by the rest of the country it has solved the tremendous problems thrust upon it at the close of the war with an intelligence initiative and courage in keeping with its best traditions. Beset with discouragements on every side, handicapped by lack of capital, and encompassed by difficulties that called for the exercise of extraordinary firmness, tact, industry and judgment, it has optomistically kept its face to the rising sun and succeeded where pessimism suggested failure. It has stimulated agriculture and given a new impetus to manufacture. It has encouraged the extension of the railroads through undeveloped communities, promoted irrigation for the arid wastes and fostered drainage for the lowlands. It has infused new life into the cotton industry now worth \$900,000,000 a year to it and vies with the west in its ambition to wrest from England, through the help of the Oxford processess, which do here in two days that which requires thirty weeks to accomplish abroad, that country's centuries old control of the world's linen market.

Comparatively a new comer in the textile field, its mills already challenge those of New England and 8,000,000 of the 24,000.000 spindles in the United States hum their song of industry within its borders. Its factories boast of 838,710 horse power, employ a capital of \$1,287,921,084 and annually produce goods of value of \$1,500,000,000. Barely explored yet, with only their surface deposits touched, its coal mines richer and more extended than those of Pennsylvania, yield 83,596,302 tons a year and apaco with its development in other directions its railroads provide transportation over 66,387,36 miles of its territory, with an aggregate wealth of \$7,331,929,808 and yearly accretions of many millions, it is stronger and commercially more formidable than at any time in its whole history. Looking unceasing constructive effort, the south pausing to review its accomplishments in the various fields of human service to which it has applied its energies, can feel proud of its superb record. For if the fifty years that have rolled by have been years of distinguished achievement and steady progression. They have been years worth the while. -By Francies Philips.
