It is always good trade with Prigdin and Jones of Durham. They meet two conditions, they carry a splendid line of shoes, and then they keep the people fully advised of this fact. They meet you with a smile, give you the right shoes at the right price.

Schiffman Brothers of Greensboro places a quarter of a page advertisement in this weeks Leader. This firm is closing out, and are throwing on the market a splendid stock of dry goods. They will go for a song. It will pay you to see them.

The old reliable, the House that sells more, shoes, and gives better satisfaction than any house in Greensboro. The house that wants the people of this section to know they carry good shoes and would be glad to have their trade, is the J. M. Hendrix and Co. They will treat you right all the time.

The Leader is doing its duty for this section, are you doing your duty by the Leader? or trying to imitate some of the small minded selfish crowd by kicking at the Leader. Well there are some donkeys that kick at the moon, but it still shines on just the same.

Ellis-Stone and Co. change their advertisement for this issue. They carry big stock of the best for ladies. One of the best selected stock of goods in the state. Don't forget that they pay your fair from any point East of Haw River when you purchase \$15 worth or more of goods at one time, you can save money, see them.

There should be a material improvement in trade in Mebane owing to the employment and pay of a large force of hands here, and it is to be hoped that it will be so distributed that all of our merchants can participate in its benefits. This is what is reasonable expected.

The Leader was requested to publish a program for the fourth of July, it done so with reluctance because it doubted the possibility to carry out the programme. There was nothing doing here on that day, possibly some came who was disappointed, if so the Leader regrets it, because it will never intentionally mislead any one.

The Great Highway Via Mebane.

Our people have been advised that it has been definitely decided to run the Central Highway from Morehead to the mountains via Mebane. This is gratifying in view of the fact that for a while it was seriously contemplated to run it via Chapel Hill, and parallel the Southern South of here to Graham. The Leader took a strong position opposing this move to go South of Mebane.

Between fifty and sixty members of the North Carolina Rural Letter Carriers' Association were present at the opening session in the Trad assembly hall Monday morning in Winston. Nearing Durham.

The Southern Power Company's wires leading into Durham have reached Hillsboro now and are headed so rapidly that way as to make it practically certain that they will be in Durham within three weeks. The company's work of stringing these ornamented towers has gone on with the greatest dispatch, though it has not reached Durham quite so quickly as had been expected.

Contract Let For Big Tobacco Warehouse at Durham.

The Durham Tobacco Storage Company has let the contract for the rebuilding of the big house which was blown down in May. The contract calls for early completion of the warehouse and it will be ready for the new crop of tobacco. It is being built by Mr. S. W. Venable, who is the chief owner of the business.

Congress May Close August 1.

Democratic Leader Underwood announces that the ways and means committee would begin drafting a revised cotton tariff schedule this week. Statistics on which a sub-committee has been at work for a month will be ready then. Mr. Underwood added that there now was a prospect that the extra session might end August 1.

May Be They Can.

The near beer dealers of Raleigh took down their signs on the first of July as the law prescribed, but as a matter of precaution they took out government beer license. This is a mild suggestion that there may yet be something doing in the near or far beer business, even though the state says "thou shall not." If they are caught red handed with the goods may be they can do as the Standard Oil Company did find another Judge Stronach to settle the matter for them.

Does it Fit?

There is no better proof of ill breeding, inferior minds, and depraved souls than that exhibited by a class who enjoy peddling the poisonous filth emanating from the diseased liar, a hired libeler. There is no distinction except in the color of their skins, and the character of their clothes. The originator and the persistent perpetrator of a libel is on a par. One is good as the other, and no better, and they ought to be branded by names as such.

A. & M. Catalogue.

We have lately received the catalogue of the A. and M. College at Raleigh. This technical institution is doing a most valuable work for our State.

Men trained there are certainly making good as farmers, as engineers, as textile workers, indeed in all forms of skilled enterprise. Young men who want to enter life equipped for success in all industrial occupations will do well to consider the A. & M. Last year 630 students were enrolled. Its faculty this year will include 51 teachers.

Look out For Your Poultry

The Legislature of 1901 passed a specific law to prevent the depredation of domestic fowls. This law applies to a number of counties among them Alamance. It applies to turkeys, geese, chickens, ducks, and other domestic fowls. After being notified you must not permit fowls to run upon any land that may be cultivated for grains, feed stuff, or for a vegetable, or ornamental gardens. That a violation of this law is a misdemeanor, with a penalty of \$5, or imprisonment of 5 days. If these fail of relief a justice of the peace may order an officer to kill said fowls.

Tobacco Crop Prospects Bad.

From all sections of the state have come reports of a poor tobacco crop this year due to a large extent to the poor stand obtained in the spring. It is estimated that there will be about half a crop according to estimates of the department of agriculture.

Even where a fairly good stand was obtained the dry weather has prevented proper development. The indications are that tobacco will bring a good price this fall. The cotton crop is in much better condition and in many sections is looking very fine. Corn seems to be in a good condition.

Plans on Foot to Build \$300,000 Hotel and Sanitarium.

Plans are maturing for a \$300,000 hotel and sanitarium in Thomasville, with a prospective increase in capital stock to \$500,000. The hotel will be on the property of Mr. S. C. Thomas, near his fine mineral springs. The Thomas springs are quite well known in this section and many people use the water for indigestion and kidney and other troubles.

Farmers Institute.

The Farmers Institute committee met in Graham Monday with a large enthusiastic attendance and made arrangements for the County Institute to be held at.

Mebane Tuesday July Twenty-fifth. Elon College Wednesday July 26th. Friendship High School Aug. 23rd.

A committee was appointed for each institute to look after the interest and pleasure of those in attendance.

Messrs. E. C. Turner, J. F. Howard, and J. B. Gerringer was appointed committees to get up a list of prizes on the best yield of wheat on one acre and the best average yield on entire crop of not less than ten acres.

Rules and conditions under which the awards will be made will be announced at the Institute.

The committee was also instructed to ask the cooperation of the merchants, the millers and the business interest in general in getting up this line of prizes.

Mr. E. C. Turner was elected Sec. and Treas. of the County Institute.

This office was created to put the management of these meetings on a business basis.

A vigorous effort will be made to get all the farmers in attendance.

Every body is invited to attend these meetings and urged to get their neighbors to do likewise.

These meetings combine pleasure with profit. They are both a school of instruction and a basket picnic. Come to each of them. Go tell all of them. Send every body else.

TO SIFT EXPRESS RATES

Inquiry Will Be Sweeping

A sweeping investigation of all the express companies in the United States affected by the Interstate Commerce laws was ordered by the Interstate Commerce Commission on its own motion.

Evidently in anticipation of this action by the commission, practically all of the express companies, with the exception of the Long Island, filed new tariffs, effective August 1, which are believed to be material reductions in rates. It was said that it would require several months to compare these rates with those now in existence.

AFTER NEAR-BEER.

Georgia Anti-Saloon League Inaugurates a Campaign For the Repeal of the Clause and Abolition of Locker Clubs.

A Statewide movement for its object the repeal of the near-beer clause and the abolition of locker clubs, was launched throughout Georgia today by the Georgia Anti-Saloon League.

Letters had been sent to the pastors of all the churches in the State and these were read at Sunday's services. Resolutions accompanying the letters also were presented to the congregations. These approved the proposed near-beer bill and called upon the several Senators and Representatives to work and vote for its passage.

THIRTY SPINNING MILLS CLOSE DOWN

Many Thousands of Operatives Thrown Out of Employment For Ten Days or Longer.

Thirty or more spinning mills in Gaston county will be closed down for the next ten days, or two weeks, and as a consequence many thousands of mill operatives will be idle for that period. This number represents 75 per cent or more of the spinning mills and even larger percentage of spindles in that county.

At Morehead City.

The guests at the Atlantic Hotel Morehead City are not limited to any one section but hail from every part of the South and particularly from Virginia and the Old North State, with a generous sprinkling of Northern pleasure seekers.

For the balls this season Manager Baxter expects to have as his guests more men and women of state-wide prominence than ever before and the generous bookings now assures him that his surmise will be fulfilled. Morehead City has always been popular and this season is expected to eclipse all former years in point of attendance and variety of social functions.

Life at the hotel this year is teeming with interest and it is hard to find time for a dull moment. The weather is always pleasant there, out door sports are at their greatest popularity. During each day there are countless fishing parties, at night either sailing on Bogue Sound or dancing in the Hotel ball room. Canoe and sailing trips to the various islands and inlets and various other amusements about the big hotel extend every opportunity to the pleasure seeker "for a good old time at a good old place."

For July reservations the applicant must be early in making his request. Manager Baxter's slate is being rapidly filled. Those who were there last year are coming again and will bring their friends.

Against High Shoes.

A nation-wide movement against wearing high heel shoes was the plan inaugurated by Justice Howard, of the New York Supreme Court, in addressing an audience of women. Justice Howard said: "Wearing high heel shoes is as barbarous and torturing, destructive to health as the Chinese wooden shoes. It is as nose or tattooing the face. It breeds an ungainly, deformed race. Have courage to speak out against this silly fashion—fashion as destructive as rum and as deadly as opium."

Of all the senseless innovations of dress the high heel shoe takes the cake. How otherwise sensible women can become victims of this barbarous practice is past our understanding. The harem skirt, and the director skirt are evidences of a high civilization in comparison to the idiotic high heels shoe.

FORERUNNERS OF HAPPINESS

"It takes five years for a man and his wife to learn to adapt themselves to one another, but the five years of learning well spent are the forerunners of a lifetime of happiness."

And it is true, too, for fully two-thirds of the divorces, the legal separations, the quarrels and the unhappiness of married couples come in those first five years the years when the two personalities are clashing because they have not yet learned to make one perfect whole; years when youth with its freedom and little joys seems very far away and full of happiness; years when a woman must put forth all her tact, her charm and her tenderness to help the man, just as he must put forth all his efforts in trying to understand the never ending mystery of a woman's moods.

And all the pretty June brides are now facing the beginning of those years. How many, do you suppose, will win the sheltered harbor that lies across the stormy sea—the harbor of peace and the wonderful happiness of married life when the real and the ripper love has won over the passing storms of emotions?

We would like for our correspondents to be a little more prompt. Send in your communication on Monday then they will reach us on time.
