A special December sale is what I. J. Mazer of Burlington directs attention to. He quotes in this issue of the Leader on third page a large list of seasonable and attractive goods. See ad.

Mr. J. E. Mattock went to Greensboro Monday to take charge of the Armour Fertilizer company offices there. This will be the head office for distribution of the products of the Armour Fertilizer people.

The Juniors held a Thanksgiving service in the M. E. church Sunday afternoon at 3 o'clock, conducted by Messrs Ed Farrell, A. M. Cook, Jeff Fowler, and John Amick. They all made a good talk.

Mr. J. B. McMullen of Corbett was in Mebane Saturday and called at the Leader office and renewed his subscription to the Leader for another year. Mr. McMullen was enroute for Greensboro where he went to serve as a jury on the United States court.

The man who is able to pay his subscription to his newspaper, and deliberately beats the Editor out of the price of it, is a pitiful pin headed mockery of a man, and like the redeeming element of honesty, a character of infinitesimal littleness, that is all.

Through the courtesy of Mr. Will Murray we had the pleasure of a very pleasant ride a few miles out of town in his handsome touring car Sunday afternoon. Mr. Murray is quite an adept in manipulating the steering of his machine.

Lost a pointer dog answer to name of Ike, black and white spotted, had sore on left side of head. Return and be rewarded.

Mr. J. E. Mattock, representing the Armour Fertilizer Co., spent a few days the past week with his friend, Mr. Will Murray. They both went out hunting Saturday, bagging twelve birds. Mr. Murray killed a rabbit, and also fell in the creek, and of course got wet.

Prof. Walter Crawford had a couple of fine hogs to take sick the past week, fearing he would lose them he sent for a Veterinary surgeon of Burlington, who diagnosed the trouble as resulting from being fed on corn that had undergone chemical changes that effected its character. How much humans suffer from this class of diet the members of the Legislature of North Carolina does not know, or care, so they can fix some soft place in the Kerosene examining board for friends.

Southern Power Co. May Spend Million Dollars.

The Southern Power company made public plans for a \$1,000,000 development project at Lookout Shoals on the Catawba river some miles west of Statesville. The proposition is a mammoth one and will add to the already great electric power facilities and development of the company along the Catawba. The fall at Lookout Shoals has 51 feet available and the development promises to yield 16,000 horsepower.

Holding on to The Jobs

It was decided last week by a number of Representatives in Washington to oppose the confirmation of all nominations for federal positions sent to the senate by President Taft after Congress convenes, Representative Webb said he heartily approved of the action said to have been taken at the conference of Democratic senators.

"I am heartily in favor of holding up the confirmation of all nominations for federal jobs until after March 4," said Mr. Webb, "President Taft has just put some 35,000 postmasters under the protecting hand of the civil service. I am in favor of keeping every position possible for the Democrats who have served the party."

What Constitutes Loyalty

What is a loyal Democrat? We have received letters from two newspaper editors in the fifth district asking that we recommend them to Congressman Stedman for postoffice jobs on account of their party service and loyalty. Yet less than a month ago both of these editors were bitterly assailing the Democratic organization in North Carolina. We have serious doubts whether their loyalty is now entitled to a postoffice apiece.—Yanceyville Sentinel

A corn crop of over 51,000,000 bushels for North Carolina this year is a great crop but it should be 100,000,000 bushels within the next five years if our farmers will pay attention to diversity of crops, proper fertilization and careful scientific cultivation. The grain of 1,500,000 bushels over last year shows that these methods are bearing fruit.—Greensboro News.

Rewarded his Life Preserver.

Ex-President Theodore Roosevelt has presented to his farmer private secretary a \$200 gold watch.

On the inner side of the watch case is inscribed: "To Elbert E. Martin, from Theodore Roosevelt, in remembrance of October 14, 1912."

A LARGE FURNITURE ORDER

The White Furniture Co., Gets Contract For Furnishing The Grover Park Inn of Asheville, N. C.

Mr. D. A. White of the White Furniture Co., was successful in securing the contract for equipping with furniture the Groves Park Inn of Asheville, a handsome hostelry erected by the Famous Chill tonic man Groves, at a cost of a half million dollars. The White Company's contract was secured over fifteen competitors, large furniture manufacturers of the North. The contract will embrace an amount approximating thirty thousand dollars, and was awarded not because it was the lowest price, but because it was of superior make and better finished furniture.

Mebane scores again. It is possible there may be an other contract placed by the hotel company in Mebane.

Thanksgiving Dinner At The McAdoo.

The McAdoo hotels "chef-de cuisine" of Greensboro layed before the guest of that popular hostelry on thanks giving day a menu card whose general elaborateness, and delectability would have hardly been exceeded by some of the more expensive hotels of the larger cities. It was just such a spread as "mine host" Stern might well feel proud of. The fast, and appetites of the epicures, as well as the most substantial eaters was most generously and unsparringly considered and provided for in the preparation of the various dishes.

It was the pleasure of the Editor to sit at the McAdoo board on thanksgiving day. We had procured through the courtesy of that amiable, and affable gentleman Mr. Ham Adams, a menu card with the intention of publishing it in full, but the attractiveness of this particular piece of artistic printing was too tempting for some one who had access to our office, and lo it is gone, as to where, diligent search fails to reveal.

Civic Blindness.

With what moral and civic blindness must an Amelia correspondent of the Richmond Times-Dispatch have been stricken, when deliberately writing of what he believed to be the impending execution of Claude Allen he stamped it as "the judicial murder of that dear boy whose only offense was to have defied the life of a beloved father?" And with no feeling but that of indignation can any well regulated mind read in the Richmond newspapers that among the movers for clemency to the Allens a subscription has been set on foot to purchase a gold medal for Claude "to be worn on the breast of his convict garb if his sentence should be commuted to a term in prison." The dear boy thus to be decorated stands branded by a jury of his countrymen, be it remembered, not with having bravely defended the life of a dear father from lawless assailants, but with having aided and abetted that father in ruthless ruder of the officers of Justice in the very precincts of his sacred temple. If such be the language and acts which are to find countenance among the people of Virginia of what worth will be the Law or the edicts registered under it?—Va. Pilot.

Health And Hygiene.

Typhoid Fever and its Treatment

(Bulletin by the North Carolina State Board of Health.)

The treatment of typhoid fever consists of thoroughly cleansing the intestinal tract by purgatives and enemata. There are no ulcers early in the disease; the intestinal walls can stand the cleansing and in fact such cleansing will decrease the tendency to ulceration.

The next requirement is to give the patient as much simple, easily digested, absorbed food as he can take—such food as milk and preparations from milk, toast, a little meat, and maybe some fruit. On the one hand, the waste in his tissues must be made up for—and most typhoid deaths are from exhaustion—and, on the other, intestinal fermentation must be kept down.

As the bowels will not be of much service in getting rid of the waste, the kidneys must be kept active by giving plenty of water, and the skin must be kept clean.

The air of the sick room must be kept pure.

As every day draws on the patient's savings bank of vitality, he must be kept as quiet, composed, happy, and as much at peace with the world as possible.

Of twenty men who get typhoid, nineteen get well. When all patients are protected, nursed and cared for properly, the death rate will drop to one in fifty.

Typhoid bacilli are thrown off by patients in their bowel movements and urine. Therefore, these must be sterilized. Heat is the best means of doing this, heating to a temperature well below boiling. But this is inconvenient. A simple plan is to use plenty of bleaching powder and to let the mixture stand for half an hour. One part of bleaching powder to ten will kill bacteria as certainly as heat, if you give it time. Nor should the disinfection stop when the fever stops. It should be kept up for at least a month after the fever has gone, longer, still in some cases. In fact, the general opinion now is that carelessness after typhoid spreads more contagion than carelessness while the fever is on.—(Dr. W. A. Evans.)

We are glad to note Mrs. Richard Tapp who has been very sick is able to be up again.

Mr. Robert Sharp spent Saturday in Etland on business.

Mr. and Mrs. Joseph Mechem spent Sunday afternoon with Mr. and Mrs. T. Tapp.

Mrs. C. L. Smith went down to Raleigh last week to consult Dr. Lewis as regards her health.

We are sorry to note Mr. Jack Smith is on the sick list this week.

Guess I must ring off now and give some one else a chance, So Aurevoir. Paw-Paw-Queese.

War Is Growing In Europe.

Ominous shadow is spreading over Europe by the announcement in Vienna that Austria will refuse to consent to Servians having outlet to Adriatic sea. This is the dream Servians have held for years and their demands are upheld by other members of Balkan league. Italy and Germany are expected to support Austria. What allies get from Turkey is as follows: Montenegro annex vilayet of Scutria. San Jak of Novibaza revert to Austria. Russia insists that Dardanelles be opened and neutral Greek frontier extend to Servian line Bulgaria annex all Turkish territory between southern boundaries and Turkey, and Servia one or more sea port Adriatic. Rumanian exports reversed see remaining neutral.

Democratic Funds And Contributes

The statement that 91,000 persons contributed to the Wilson and Marshall campaign fund of \$1,100,000 is accompanied by the information that the number of contributors is the largest on record, while the fund itself is the smallest on which a successful campaign has been made in recent years. Here, then, are three interesting facts: An appeal to the people for campaign contributions is answered by less than 100,000 out of more than 6,000,000 voters belonging to the party; the amount is less than half what the corporations have given to the high-protection party in times past; yet it was enough for victory.

Money is needed in large sums to manage national campaigns. Socialists can obtain what they need by charging admission fees to their mass-meetings. The party of high protection can get money from protected interests. The Progressives can get it from monopolists that wish national incorporation and an Interstate-Business Commission. Democracy must look to the people for funds, even as the people must look to Democracy for justice and fair play.—New York World.

striking Changes in Jerusalem

(From The Churcman.)

The popularity of the Zionist movement has had the effect of causing a great expansion in the population in Jerusalem. Thousands of Jewish immigrants continue to arrive, and there is a large amount of new building going on outside the walls, because within the walls there are only 2,009 acres in the town, of which 35 acres are occupied by the Temple inclosure. On account of the increase in the extramural population, all the city gates are now left open at night. With this accession of new population, the Mohammedan element in the city is sinking to a subordinate place. Many improvements are contemplated, which will bring what is practically the new Jewish capital to modern standards of administration and hygiene. A French company is about to start a street car line, and an English company has applied for a concession to introduce a new water system. Proposals are at hand for paving the streets and conducting sewerage work. One of the best illustrations of the temper of the present municipal government was manifested by the arrival lately of a large American motor road roller. The new program includes also a telephone system and the introduction of modern fire-extinguishing apparatus. In order to make the city more accessible for international travel, a harbor will be provided for Jaffa, constructed by the Jaffa Jerusalem Railway Company, which has raised nearly \$5,000,000 for this purpose.

ATTENTION!

Mr. and Mrs. Consumer! Do You Realize

That the present high tariff on sugar is costing the American people two cents per pound, or over \$150,000,000 annually, according to Mr. C. A. Spreckels, President of the Federal Sugar Refining Company, a concern independent of the Trust?

That only \$52,000,000 of this amount is annually collected by the Government as revenue and the balance is tribute extorted by the Tariff-favored interests?

That practically no American labor is employed in the beet sugar fields of the Western States?

That the per capita consumption of the United States is 82 pounds, which means an exaction from each family of five persons of \$8.40 annually as a result of the Tariff?

That when a merchant pays \$1,700 for a carload of sugar \$510 of it is Tariff?

Fit His Case Exactly

"When father was sick about six years ago he read an advertisement of Chamberlain's Tablets in the papers that fit his case exactly," writes Miss Margaret Campbell of Ft. Smith, Ark. "He purchased a box of them and he has not been sick since. My sister had stomach trouble and was also benefited by them. For sale by all Dealers.

The Civil Service Order

Mr. Taft Wants To Protect His Friends.

The executive order of President Taft issued October 15, placing 36,000 fourth-class postmasters, most of them republicans appointed in his administration, under the operation of the civil service law, is being much discussed by southern congressmen who arrive in Washington from day to day. Growing out of numerous appeals that have reached these congressmen from their constituents, a sentiment in favor of the suspension of this order for a period after Wilson's inauguration has gained some ground.

A prominent southern congressman declared today that the President's order, "placing, as it does, this army of republicans to the express exclusion of democrats permanently in the office without examination and without regard to merit or efficiency, will make honest civil service a farce and will prove the greatest setback to its extension and progress within a generation."

It is recalled in this connection that a short time before the close of Cleveland's administration, that President issued an order placing railway mail clerks under the operation of the civil service law, and that within a week after his inauguration President Harrison suspended this order until the end of the following May by which time the republicans had largely displaced democrats in the service.

Those congressmen who have hearkened to the complaints that have reached them from their districts, suggest that the way is open for Governor Wilson to suspend this executive order and by so doing make it possible for democrats to secure at least a fair representation in the postal service. These congressmen declare that Taft's action in issuing this order on the eve of election when the result was not in doubt, amounts to nothing more than the pre-emption of 36,000 offices to republicans for life, and that it was direct violation of the spirit of the civil service laws.

Night Riders Destroy Much Georgia Tobacco

Investigation was instituted at Bainbridge, Ga., at a meeting of several prominent tobacco growers of the burning of \$20,000 worth of tobacco in Decatur county by night-riders. Three large barns were totally destroyed by fire in the Georgia county and two barns of tobacco were consumed by fire across the Florida state line, 20 miles distant. The loss sustained in the latter state is not now known.

All of the tobacco barns destroyed were owned by members of an association formed three years ago by large growers to hold the tobacco until a suitable price was offered for it by manufacturers.

Tennyson and Tobacco

(From Mrs. Walford's Recollections.)

Tennyson's devotion to his pipe is well known, but the following story of it will probably be fresh to most readers. A friend had driven him from Plymouth to visit an old lady who stood in no awe of the poet. The visitors were invited to remain for the night, but on Mr. Tennyson's stipulating that if he did he should be allowed to smoke in his bed-room the old lady bridled up. That she could not allow bed-room smoking was not only objectionable but dangerous, and for no one would she relax her prohibition rule. Mr. Tennyson proving equally obdurate the hostess' own carriage was ordered out and he was sent in, back to his hotel at Plymouth, whence however, he returned the next morning to breakfast.

A Young Man at 90

(From The Rutherfordton Sun.)

Mr. Devault Koon of Morgan Township spent several days here this and last week visiting relatives and friends. Mr. Koon is a most remarkable man for one of his years. He is 90 years old and is quite active, being able to work without the aid of a stick and read the finest print without glasses. He was born on Tuesday, November 5, 1822, voted the first time on Tuesday, Nov. 5th, 1844, and the last time on Tuesday, November 5, 1912. He is a staunch Democrat and is one of the best-posted men in Rutherford County. Mr. Koon is yet hale and hearty and has a clear and active mind and The Sun hopes that he will live to see many more years of usefulness.

How to Bankrupt the Doctors.

A prominent New York physician says, "If it were not for the thin stockings and thin soled shoes worn by women the doctors would probably be bankrupt." When you contract a cold do not wait for it to develop into pneumonia but treat it once. Chamberlain's Cough Remedy is intended especially for coughs and colds, and has won a wide reputation by its cures of these diseases. It is most effectual and is pleasant and safe to take. For sale by all Dealers.
