Breaking the Alabaster

Box. (Mark 14:3 (b)

In considering Mary's breaking the alabaster box of ointment on the head and feet of Jesus there are four things more desireable class of people than to be observed, and these are: Her

1. Her gift. This was her best; it was the best possible in a twofold sense: (1) Alabaster was the finest material used in making boxes. The appearance was best possible, therefore. She did not put the costly material in a cheap box. (2) The spikenard was the finest to be obtained. She did not put a cheap ointment in a fine box. The inside material was the best possible. We should give our best in (a) time, (b) money, (c) effort, and (d) children. Do not insult God by offering him only the time you can not use at anything else than His ser vice; or the money for which you have no use; or the runt among the children.

Church suppers, bazaars, sales, festivals and such things are a poor way to finance the church. Those who patronize these things usually think more about satisfying themselves in the stuff served them, than about serving

2. Mary's motive. She felt (1) Gratitude to Jesus for what he had done for her and hers. Common gratitude to God for His goodness, mercy and love should prompt us too serve Him. Then Mary had (2) love for Jesus. We should love Him because He first loved us, And our love should show itself in our service for Him.

3. Mary's work. She did what she culd. She did not wait till Jesus died, but she arointed Him with precious ointment while alive. We should make people glad and happy by ministering to them while alive and not wait till they are dead to put flowers on them. All can do something. The case of Dorcas making coats, Mary pouring at home the first of the week, leaving precious ointment on Christ, (which He Wednesday for Charlotte where he has said was anointing Him for his burial), Solomon building the splendid temple the martyrs giving their lives for the other and work for the church this R. W. Cates of Southern Alamance faith are all splendid examples of doing the best. Not the size of the thing done but how well we do it is the thing that counts in God's sight. For doing is the only satisfactory evidence J. Teer and Mr. Heber King and little of our acceptance with God, Faith,

daughter are all improving, but very nope and love all lead us to do. 4. Mary's reward. (1) Criticism. The disciples were the ones to criticise annual picnic at Mr. Apples pond on ointment in anointing the head and gard to religion. And many so-called christians will say this. (2) Lasting passages, fame. Wherever the Gospel is preach-

to guide her.

SIMMONS PRESENTS ADVANTAGES OF NEW BILL FRAMED BY DEM-**OCRATS**

North Carolina Senator ness as Answer to Demand for Revision.

Debate on the tariff in the senate egan in earnest last Saturday with Chairman Simmons of the finance committee proclaming the new bill as satisfactory answer to the demand for a downward revision and Senator Cummins, speaking from a Progressive-Republican standpoint, predicted that it would carry the Democratic party to defeat

Senator Simmons replied to contennons that the bill discriminated against the farmer. Senator Cummins asserted that the Democratic party had treated the farmer as an outlaw and vigorously assailed President Wilson for his participation in framing the bill. This he characterized an abuse of power "that had been coercive."

LESSION OF CAMPAIGN. "In the national campaign of 1912." said Senator Simmons, "the Republican party nominated Mr. Taft for president and the Democratic party nomitated Mr. Wilson. In that campaign the tariff and the record of the these schedule bills and of President paramount issue. Out of the 531 votes n the electoral college President Taft received only eight, and Mr. Wilson received 435. The Republican party in the senate was superseded by a Democratic majority of six, while the Democratic majority in the house was increased from 68 to 148.

"The bill now presented to the senate, it is confidently believed, is a fair interpretation of the will of the people and is an honest compliance with

"The conditions under which the schedule bills of 1911 and 1912 were drawn and submitted to congress were L. R. Gilbert, Superintendent radically different in many respects Caraleigh Cotton Mills, Raleigh, N. C. from those which now obtain. These J. S Stroud, Superintendent Lauder-schedule bills were submitted as individual pieces of legislation and only as a part of a general system of customs taxation. Moreover, at that time, on account of constitutional limitations upon the power of congress with deut Holt-Granite Mills, Haw River, respect to taxing incomes, revenue from this source, except from incomes of corporations, was not available. The extension of the power of congress with respect to taxing incomes, as well as the enlargement of the scope of the J. C. Cosby, Designer, Brogon proposed revision, has made it possible under this bill to make further reductions in the rates in the present law than was possible under the conditions. under which these schedule bills were framed and presented.
