When Speed Becomes Dangerous.

Mrs. Rose Pastor Stokes, speaking at the first annual conference of the American Museum of Safety in New York, says that speed is the real problem of labor. It is not that machinery is so dangerous, she says, but what is called industrial efficiency keeps the workers up to a pitch that means in time mental and physical exhaustion. She says that up to a certain point a worker can increase speed, and that after that it begins to decline. Business compels the attitude of the owners of factories, she says, and they do not realize how they grind down the girls in their seeking for efficiency.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Wonderful Human Stomach.

The human stomach as diagrammed in the encyclopedia resembles the map of South America, and as a potentiality exercises the revolutionary characteristics of that realm. It varies in size; in youth being longer than thick, and reaching from the chin to the heels; in ripe maturity being thicker than long, and reaching from the back two feet beyond the natural plumb line.—American Magazine.

Andy Decided He Needed No Help.

Andy Lewis, a negro in Manhattan, had a "possum" given to him this week and a friend asked him: "Andy, don't you want somebody to help you eat that 'possum'?" And Andy replied: "I tell you how it is, boss. De las' time ah 'vited a white man to help me eat a 'possum, de mighty near done et dat air 'possum all by hisself, and I only got de pickin's; yes, suh, dat's what dat white man did. I like pow'ful we to hab yo' company, but dat 'possum he's only jist so big, and you-all know how it is. Yes, suh, dat las' time, I only got de pickin's."—Kansas City Star.

His Idea of Music's Use.

He was a lover of music who had just been to hear one of the great operas, and he was expatiating upon its beauties to an unresponsive friend, whom he observed to yawn. The music lover was hurt. "Look here, John," he protested, "don't you think music is of some practical benefit in life?" "Oh, yes," said the unresponsive one. "Why, judging from the portraits I have seen of eminent musicians, especially pianists, I should say that music is great to keep the hair from falling out."

"Is it true that both your husband and the man who lives next door to you have failed in business?" "Yes, but Ned's failure isn't nearly so bad as Mr. Naylor's. He failed for fifty cents on the dollar, while my husband failed for only ten cents on the dollar."—Boston Transcript.

Headache and Nervousness Cured.

"Chamberlain's Tablets are entitled to all the praise I can give them," writes Mrs. Richard Oip, Spencerport, N. Y. They have cured me of headache and nervousness and restored me to my normal health." For sale by Mebane Drug Co.

Cling to Primitive Customs.

The tendency of the human mind to revert to primitive customs is every day made manifest in the games of children, for the Swiss youngsters still play at making fire by rubbing sticks, and the bow and arrow are common toys among the budding men of all civilized nations, few of whom have any such fund of Indian stories and traditions to fire their youthful imaginations, as have those of our own land.

Cured of Indigestion

Mrs. Sadie P. Clawson, Indiana, Pa was bothered with indigestion. "My stomach pained me night and day," she writes. "I would feel bloated and have headache and belching after eating. I also suffered from constipation. My daughter had used Chamberlain's Tablets and they did her so much good that she gave me a few doses of them and insisted upon my trying them. They helped me as nothing else had done." For sale by Mebane Drug Co.

Using Peat in Germany.

Peat coke in Germany is proving serviceable in many ways. It is not only valuable for generating electricity at moorland stations, but is much used by blacksmiths and for various metallurgical purposes, especially as a substitute for charcoal in producing high-grade iron. A new turf-cooking plant at Elizabeth Fohn, Oldenburg, converts 39 tons of peat into nine of coke, with gas and tar as by-product. Specially-designed ovens are used and the gas generated is made to heat the retorts and to generate electric current to drive the peat dredging machines. The tar yields creosote oil, gas oil, paraffin, sulphuric acid and ammonia.

Varying Color of the Eye.

Eyes, as we know, are apt to vary considerably in shades of color in the same individual from time to time—a fact that explains why Wordsworth's familiar description of Coleridge as a noticeable man with large gray eyes does not quite agree with Carlyle's impression that his eyes were of a light hazel, nor this again with the writer who found them "light gray, prominent and of liquid brilliancy, as though the orb itself retreated to the innermost recesses of the brain."

Severe Attack of Colic Cured.

E. E. Cross, who travels in Virginia and other Southern States, was taken suddenly and severely ill with colic. At the first store he came to the merchant recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. Two doses of it cured him. No one should leave home on a journey without a bottle of this preparation. For sale by Mebane Drug Company.

Bemoaning His Youth.

Fontenelle, when nearly a hundred years old, stumbled when trying to pick up the fan of a young and pretty lady, says the Pall Mall Gazette. While she helped him to reach it, "Ah!" he cried, "if only I was eighty again!"

Best Diarrhoea Remedy

If you have used Chamberlain's Colic, Cholera and Diarrhoea Remedy you know that it is a success. Sam P. Guin, Whatley, Ala., writes, "I had measles and got caught out in the rain, and it settled in my stomach and bowels. I had an awful time, and had it not been for Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not possibly have lived but a few hours longer, but thanks to this remedy, I am now well and strong. For sale by Mebane Drug Co.

New Shell Bursts in Air.

A French army man has invented a shell which, when fired from a 75-caliber cannon, will explode in the air instead of having to come in contact with something before bursting. The invention was devised by Commandant Malandin of the general staff of Paris. It is said that the new shell increases the range of effectiveness in aiming at the enemy's fortress or in the field of battle. French artillery authorities state that the new invention practically doubles the value of the 75-caliber cannon. The missile will undoubtedly be standardized and used by all of the French army men.
