Do People Ever Forget Anything?

The brain of mankind has been defined as a kind of phonographic cylinder, which retains impressions made upon it through the medium of the senses, particularly through the eyes and ears. It is true, memory must depend for its intensity or retentive qualities upon the degree of observation with which the record is made.

Nor is this all. If memory's record is kept in the shape of indentations upon the folds of the brain matter, are they ever entirely effaced? In other words, do we really ever forget anything? May it not be that the inner depths of the brain memory have stored up recollections of things which are never again purposely turned to, perhaps, but which instantly spring into being and flash through the mind whenever we hear or see something which recalls them.

There are several well known mental phenomena which strengthen this theory. We know that memory often brightens during the last moments of life, and there are cases on record where German, French, Spanish and other, who falling ill in this country years after having entirely forgotten their native language, recovered and used them upon their death beds.

John Brennan's Joke.

Mrs. Ellen Brennan of 224 Forty-eighth street, Brooklyn, was both surprised and delighted when her husband, John Brennan, came home from work on Saturday night and presented her with a \$50 bill. It was the biggest weekly stipend she had ever received from her husband and although he told her to put it away in her trunk she hurried out directly after supper to make some purchases, which under ordinary circumstances she would have dispensed with. A fancy store was the first place Mrs. Brennan visited, and she got involved in trouble just as soon as she presented the \$50 bill in payment for the numerous fancy articles which she had purchased. The bill was a well-preserved promise to pay of the Confederacy, and Mrs. Brennan had to go to the police station to explain how she came to be starting it in circulation when her husband came and said he had given it to her as a joke. She was released.—New York Sun.

A Georgia editor is responsible for the following: "The editor sat in his office cold, whence all but him had fled, but he wished that every last dead beat was in his grave, stone dead. His mind then wandered far away to the time when he should die, and his loyal editorial soul got soaring to the sky; when he'd roam the fields of paradise and sell 'em 'em paper, soap, and all things glorious would combine, his every sense to please. He thought how, when he'd look across the great gulf dark and drowsy, that yawned between his happy soul and those who scintillated here; and then for water they should call and in agony they'd caper, he'd shout to them: 'Just moisten your tongue with the dew that's on your paper!'"

A Million Gold Dollars
Would not bring happiness to the person suffering with dyspepsia, but Hood's Sarsaparilla has cured many thousands of cases of this disease. It tones the stomach, regulates the bowels and puts all the machinery of the system in good working order. It creates a good appetite and gives health, strength and happiness.

Hood's Pills act harmoniously with Hood's Sarsaparilla. Cure all liver ills. 25 cents.

The bolt of the Republican silver Senators at St. Louis reduces the Republican representation in the Senate to forty regulars out of a total of ninety members, and will obligate the Republicans to gain six seats if they expect to secure control over the next Senate, of which they expect, Hobart of New Jersey will be the presiding officer. Present indications point to the election of Democrats to existing vacancies in the Senate from Delaware and Kentucky.

Mrs. Anna Gage, wife of Ex-Deputy U. S. Marshal, Columbus, Kan., says:

"I was delivered of TWINS in less than 30 minutes and with scarcely any pain after using only two bottles of 'MOTHERS' FRIEND'."

DID NOT SUFFER AFTERWARD.

Prepared by Dr. J. C. Wright, of Mt. Airy, N. C. Sold by all druggists.

Back by Dr. J. C. Wright's Nerve Plaster.

QUESTIONS FOR TEACHERS.

LET EVERYBODY GIVE THE FOLLOWING A FEW HOURS STUDY. IT IS WORTH WHILE.

The following will interest the readers of THE NEWS, especially public school teachers and others who are interested in the education of the masses. The questions used in examination of applicants are as follows:

NORTH CAROLINA HISTORY.
1. Who first attempted to settle North Carolina? Where and what was the result?
2. Was North Carolina prosperous under the rule of the Lords Proprietors? Give reasons for your answer.

3. Mention (a) the three most important tribes of Indians in the state when settled; (b) which gave the settlers most trouble and (c) what became of this tribe?
4. What led to the battle of Alamance? How did it result?
5. Give circumstances that led to the battle of Moore's Creek Bridge and result of the battle.

6. When was the public school system of North Carolina established? 7. What stand did North Carolina take in the civil war? How many troops did she furnish?
8. Mention a general from North Carolina that assisted in the battle of Gettysburg and how did our troops rank in that battle?
9. What is the most important occupation of the people of North Carolina and name five of the most valuable productions of the state?
10. Give reasons why North Carolina has been and is behind her sister states in education and general prosperity?

THEORY AND PRACTICE OF TEACHING.
1. What should be taken in consideration in making preparations for the school?
2. How should a school room be ventilated?
3. With what apparatus should schools be supplied?
4. Give an outline of work preliminary to the organization of a school.
5. What are the objects of education?
6. What preparation should the teacher make before the recitation?
7. Define discipline.
8. What may be considered as (a) proper penalties (b) improper penalties?
9. (a) What is teaching? (b) What is learning?
10. "The school is no place for a man without principle." State briefly Page's reason for this statement.

UNITED STATES HISTORY.
1. What parts of North America were explored by (a) Ponce de Leon; (b) Henry Hudson; (c) De Soto?
2. Which one of the thirteen colonies is specially noted as having been a refuge (a) for members of the Church of England; (b) for Roman Catholics; (c) for Puritans; (d) for Friends or Quakers?
3. (a) What was the object of Washington's journey to the head waters of the Ohio river in 1753? (b) What followed as a result of the expedition?
4. (a) Who commanded the American forces at the siege of Yorktown? (b) What fleet assisted in the siege?
5. (a) Name the presidents who served two terms? (b) the ones who died in office.
6. Give an account of the treason of Benedict Arnold. In what way was Major Andre connected with it?
7. (a) Name the states that formed the Southern Confederacy; (b) the President and Vice President of the Confederacy; (c) the capital.
8. (a) Name four important battles won by the confederates; (b) four by the federals?
9. Name four of our most eminent inventors? State what each invented?
10. (a) What territory has the United States acquired since the civil war? (b) Of what nation and by what means was that territory obtained?

11. Tell what you know (a) of the Cuban rebellion; (b) its probable result; (c) of the interest manifested by the United States and why?

PHYSIOLOGY.
1. Illustrate the value of physiological knowledge?
2. Give an example of an organ and its functions?
3. (a) Of what substances are the bones composed? (b) why do they have such different shapes?
4. Name the digestive organs?
5. (a) What are muscles? (b) How are they arranged and why?
6. (a) Mention two organs whose functional movements are produced by the operation of involuntary muscles; (b) State the necessity of involuntary muscles.
7. What is gained by the division of the spinal column into so many pieces?
8. Describe the greater and lesser circulations?
9. Why do surgeons when called upon to perform dangerous operations often inquire whether the subject is addicted to the use of alcoholic beverages?
10. Mention the common injurious effects of (a) alcohol; (b) tobacco.

GEOGRAPHY.
1. The latitude of New Orleans is 30° N. and the longitude 90° W; what are the latitude and longitude of a place 90° south and 100° west of New Orleans?
2. (a) What are isothermal lines?

QUESTIONS FOR TEACHERS.

(b) why do they not extend directly east and west?
3. What large commercial city near the mouth (a) of the Delaware river; (b) the Mississippi; (c) the Columbia; (d) the Sacramento river?
4. Mention three physical features upon which the successful development of a country largely depends.
5. Why are the rivers of Asia that flow into the Arctic ocean of less commercial importance than the Ganges and the Yang-tee-Kiang.
6. Compare the United States and Great Britain with reference to the value of their various manufactured exports.
7. Locate the following lakes: (a) Champlain; (b) Otaquo; (c) Great Salt Lake; (d) Winnipeg; (e) Lake Geneva.
8. Locate the following cities: New York, Chicago, Memphis, Key West, Rio, Rome, Naples, Constantinople, Moscow.
9. What waters do the following straits connect: Behring, Gibraltar, Dover, Magellan.
10. Why is it cold in winter and warm in summer?

GRAMMAR.
1. It is said that many an unskilful urchin is induced to run away from his family and betake himself to sea-faring life.
2. From reading the history of Robinson Crusoe, and I suspect, that, in like manner, many of those worthy gentlemen who are given to hunt the sides of pastoral streams with angle-rod in hand, may trace the origin of their passion to the seductive pages of honest Isaac Walton.
3. Classify according to their use in the sentence, as principal, adjective, adverbial or nonn clauses the following clauses: (a) It is said (line 1); (b) urchin is induced (line 1); (c) I suspect (line 3); (d) many may trace (lines 4-6); (e) who are given (lines 4-5).
4. Give (-) two modifiers of is induced (line 1); and (b) three modifiers of may trace (line 6).
5. Select (a) an infinitive; (b) a participle.
6. What part of speech is each of the following words: (a) many (line 1); (b) sides (line 5); (c) reading (line 3); (d) that (line 4); (e) their (line 6).
7. Give the syntax of (a) many (line 4); (b) sides (line 5); (c) pages (line 7).
8. Give principal parts of the following verbs: (a) fly; (b) flee; (c) get; (d) go.
9. Give a synopsis of the verb "write" in all the modes and tenses (first person, singular).
10. Define (a) proper noun; (b) a personal pronoun. Give an example of (a) an abstract noun; (b) a collective noun.

9. Write a sentence containing a verb in the active voice, re-write the sentence, changing the verb to passive voice.
10. Analyze and parse in full the following sentence: "Who steals my purse steals trash."

ARITHMETIC.
1. Define (a) multiple (b) discount (c) composite number.
2. (a) Write three composite numbers that are prime to each other, (b) Write an odd number that is composite, (c) an even number that is prime.
3. Find by cancellation the result of $\frac{32 \times 24 \times 7.5}{16 \times 8 \times 224 \times 25}$
4. Reduce 8 oz., 14 pwt., 15 gra. to the decimal of a p. and Troy.
5. My commission at 5 per cent. on a sale of hay at \$13.59 per ton was \$12.484. How many tons did I sell?
6. Find the exact interest on \$2150 from March 12th to April 5th, at 6 per cent. per annum.
7. The assessed valuation of a school district is \$78,750 and a tax of \$215 upon said district is voted at the annual school meeting. Find the tax on a farm assessed for \$3350 in said district.
8. If the interest on \$1.00 at 6 per cent. per annum is \$0.835 what is the time?
9. Find the square root of 1.6 raised to the third power. (Correct to 3 decimals places.)
10. A man having 1000 bushels of apples, sold 5 per cent. of them at \$1.25 per bushel; 5 per cent. of the remainder at \$1.00 per bushel; 50 per cent. of what was then left at 75 cents per bushel; and the rest at 60 cents per bushel, thus receiving 10 per cent. more than he paid; how much did he pay for all?

J. B. SPANNA,
County Examiner.

Intense heat prevails in Southern Great Britain, France and Germany as well as the United States.

Doctors Say:
Bilious and Intermittent Fevers which prevail in miasmatic districts are invariably accompanied by derangements of the Stomach Liver and Bowels. The liver is the great "driving wheel" in the mechanism of man, and when it is out of order, the whole system becomes deranged and disease is the result.

Tutt's Liver Pills
Cure all Liver Troubles.

Prepared and bottled by Dr. J. C. Wright, of Mt. Airy, N. C.

NORTH CAROLINA NEWS.

STATE ITEMS OF IMPORTANCE GATHERED FROM OUR MANY WIDE-AWAKE EXCHANGES.

Kinston is to vote next month on a proposition to issue bonds to establish an electric light plant.

The Herald says the contract has been let for the erection of one hundred dwelling houses at the new shops near Salisbury.

The Alliance shoe factory at Hillsboro has begun business. Its full capacity is 600 pairs of shoes per day and it requires 100 hides daily.

At a Sunday school picnic at Old Hundred, Richmond county, Saturday, Picket Taylor was shot and probably fatally injured by Arch Smith. Taylor provoked the shooting.

At Grover, Cleveland county, Thursday morning, Miss Jane Ertter, aged about 60 years, attempted to cross the railroad track in front of a moving train and was killed. She had on a sun-bonnet and it is supposed she did not see or hear the train.

The Elkin correspondent of the Charlotte Observer says Prof. J. E. Dehn, of Wake Forest College, will have charge of Ronda Academy, Wilkes county, next term, and that Miss Annie McElwee, of Statesville, will be his assistant. Miss McElwee taught there last year.

R. C. Triplett and family, who emigrated from Wilkes to Triplet last spring, have returned. Triplett says that when he left Florida he could ride in a boat all over the top of his corn. He is sufficiently aroused with Florida and says old North Carolina is good enough for him.

Some time ago Mrs. M. W. Biven, of Union county, dropped a pair of scissors which stuck in her foot. Later on erysipelas was contracted, from which she died. Meanwhile Mr. Biven had contracted the disease, having cut his leg with an adze. He is not expected to live.

Joe Myers, a young man for many years cashier of the Carolina Central railroad office in Charlotte, has gone wrong, having become intimated by a pretty woman, who influenced him from his devoted wife, little children and fond mother to the wicked paths of unrighteousness, drunkenness and theft, having absconded with \$5,200 of the railroad company's money.

Every county, along with its good name should have good roads. The shame of bad roads should be removed. The time has come when throwing fresh dirt in the middle of the road and pine poles in mud holes should cease. Bring engineering skill to bear on the work on our roads, and let the work have reference to ages rather than a season. Two many of our counties are in the mud.

The Record says that the statement in the Charlotte Observer that Mr. Thornton, of Greensboro, had "horoscoped the newly nominated candidate and he predicted Mr. Bryan will have a walk over in November is incorrect. Thornton is a Democrat and will vote for his party all right, but he says that he has not the data necessary to erect a horoscope—does not know the correct time of Mr. Bryan's nativity, hence could not have made the calculation necessary to predict his success or failure. He assures the Record, however, that the stars are all right for Democratic success in North Carolina.

Saturday morning Mr. J. K. McGowan, of Chicod township, was killing out a barn of tobacco. The tobacco took fire, but wonderful to relate, the barn was saved. Mr. McGowan kept a barrel of pickle sitting by the barn door. As soon as the tobacco took fire he threw several buckets full of pickle on the fire and shut up the barn. He hurried to the well for water, and by the time he got back to the barn the flames were cool enough for him to go inside and fight the fire which the pickle had partially quenched. He went to work in a hurry and thought most of the tobacco was ruined he saved his barn. You don't often hear of a tobacco barn being saved after fire has caught inside of it.—Greenville Reflector.

We sympathize with the movement for the free coinage of silver at the ratio of sixteen to one. We have given more thought to this question in the last three years than to any other. In a position where the literature on all sides is easily in reach, we have made good use of it. We have at times been doubtful of free coinage of silver. We have argued more than once from the standpoint of the opponents of free coinage; and it is not a difficult matter to make a good argument from that standpoint. But taken all in all, we believe that the United States can restore silver to its full and free use as money, and restore its value at the ratio of 16 to 1; and that this will be better for the people of the country. At the same time we are no more willing to call any one who disagrees with us a gold-bug than we are for him to say we are a fan-bled Liberal Recorder.

Nobody who reads Neutralize, Get Dr. King's Pain Expeller, or any of our other remedies, should be disappointed. They do their work.

I. O. O. F. COLUMN.

The Influence of Odd Fellowship Upon the Family.
(By Pa. Review.)
BY LAURA L. RANDOLPH, M. D.
BROTHERS AND SISTERS:

It has been deemed fitting that a woman should speak on the great, grand and far-reaching benefits that result from the influence of Odd Fellowship upon the family. This seems especially appropriate since, by experimentation in daily life, she is qualified to give rational and unconvertible testimony concerning it. As the brain is the central organ of the body, and receives impressions, either of pleasure or pain, from every part, so woman is the central figure in the household, to whom are transmitted all the impressions made upon its individual members, whether for weal or woe. This duty has been assigned to me, and I shall endeavor to perform it to the best of my ability.

Language is powerless to describe the extent of the influence our Order exerts upon its members and, indirectly, upon others with whom they come in contact. As it takes all men to know all truth, so it will require the aggregated experience of all Odd Fellows families, and of each one of the family of every Odd Fellow, (who has an adequate conception of the nature and principles of the Order), to furnish anything like a comprehensive summary of its influence for good in the boundaries of home life. The evidence, to be conclusive, must be obtained from those who are under the influence of its teachings, directly or indirectly.

Every man who has a family dependent upon him, feels not only the responsibility of supplying their immediate wants, but of providing for their future. He realizes fully the possible dangers that lurk about him, and he contemplates them with anxiety and dread. The wife shares in this feeling. By dint of strict economy and deprivation, they succeed in laying aside a little money, for that indefinite period of time known as "a rainy day." The first accident or misfortune that befalls them, not only necessitates the expenditure of their savings, but leaves them burdened with obligations that will require months to liquidate. Discouraging prospect! but it goes to prove that man is always at a disadvantage when, single-handed and alone, he strives to fight the battle of life.

We need the aid and sympathy of our fellow creatures, and they, in turn, need ours. Realizing this, he becomes a member of the Independent Order of Odd Fellows. As he takes upon himself the obligations of the Order, "to visit the sick, relieve the distressed, bury the dead and educate the orphan," he recognizes the fact, that all the members are bound by the same compact and, instead of apprehension and dread, a feeling of happiness pervades his mind and gives him comfort and peace. Bound together by the silken ties of friendship, love and truth, he feels that wherever he may go, brothers will be near to cheer and assist him in distress and minister to his needs. This affords consolation to the wife, and thus, much anxiety is averted and happiness and harmony promoted.

The material aid furnished a brother in time of adversity, is very gratifying—often essential to the well being of a family; but it is not to be compared to the kindly spoken words of sympathy and brotherly interest, manifested in the permanent prosperity and comfort of an afflicted household. They feel that they have friends and brothers who are using every available means to alleviate their condition. They regard Odd Fellows as benefactors and hail their approach with delight. To have eyes that were dimmed with tears grow bright at our coming, lists to forget their grief and become wreathed in smiles, to receive the comforting trust and sincere friendship of those whom we have been in some way able to assist and relieve; this is worth living for.

Greater than the influence of brotherly care and interest, previously referred to, and which is so cheering to the afflicted, is that permanent benefit, accruing to the individual members of our Order, which has a corresponding influence on the family, by which they are developed to a point where they can cheerfully extend their fraternal love and sympathy to a brother and his family, whom they have the power to aid and bless.

The teachings of Odd Fellowship tend to liberalize the mind, broaden the life, deepen the springs of action and give us a clearer conception of our duty to ourselves, to our fellow creatures, to our country and to our God; for the fundamental lesson of the Order is the universal brotherhood of man. Associated together for a common purpose, pledging to each other undying friendship, fraternal love and inviolable truth; there is promoted a spirit of charity and liberation. Widely as our opinions may differ on various subjects, we recognize the rights of others to differ from us, and yet believe them to be conscientious. This tolerant view of individual rights extends to the family. The husband, who is an Odd Fellow, no longer demands that his wife's opinions shall be the echo of his own. His speech and actions are always kind, temperate and thoughtful.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder
ABSOLUTELY PURE

A Bank President.
Mr. W. T. Nelson, president of the Second National Bank of Jackson, Tenn., says: "For indigestion and Nervous trouble, I would rather give up the use of any remedy I ever tried than King's Royal Germetuer. As a nerve tranquilizer and restorative, it is all that can be desired. It is not a narcotic in any sense, but produces the happiest effects upon the disordered nervous system. I consider it an invaluable remedy, and have for years been recommending it to my friends."

New package, large bottle, 108 doses, \$1. For sale by Taylor & Banner and D. A. Houston.

The Chatham (Va.) Tribune suggests that, instead of endowing colleges and institutions of learning, philanthropic millionaires might more effectively perpetuate their memories by selecting deserving young men and bequeathing to each of them \$1,000 with which to start in business.

Down on the Asheville & Spartanburg Railroad there is, for a few miles, a stretch of mountain road as steep, as wild and as grand as anything that the Switzerland of America holds out to the tourist. The particular part of the line referred to is that commonly termed the Saluda mountain, where the descent from the hills of North Carolina towards the plains of South Carolina is so rapid as to make the timid passenger hope for a quick, and yet not too speedy, trip. The trusty engineer, no matter how many times this run has been made by him, keeps closer watch upon the huge machine under him and grasps with firmer hand the lever that controls the air brakes. For in descending this unusual grade the slightest mistake might bring disastrous results to crew and passengers; once beyond control of the hand of the engineer there would be a wild race down the mountain, to end at the bottom of some gorge or when the train reached the level, if it should be so lucky as to stick to the rails.

It was on this short section of road an incident occurred recently that would have made the passengers catch their breath had they known it. A passenger train was descending the mountain at the ordinary speed. At a point where the mountain's side makes an almost sheer descent for hundreds of feet before the track is reached, a huge log, being cut for the mill, became dislodged and began a flying, bounding, crashing trip down the mountain. The slow moving passenger train was in its path and it seemed certain that it would be struck. But when near the track the log ran against an obstruction, turned edgewise and darted under the baggage car between the rear and forward trucks, and tearing off and taking with it the box under the car (called "the possum belly" by railroad men) kept on its way down the mountain.

The train was not interfered with. There was no perceptible shock, and as yet there are only a few who are aware of the occurrence of the incident.—Asheville Citizen.

What is meant by free coinage of silver at the ratio of sixteen to one? The question has often been asked and answered, but there are many who do not know. "Free coinage" means the coinage, by the government, of bullion into money free of charge. Our nation now has free coinage of gold; and one may take gold to the mint and have it coined into gold dollars, the only charge being made for the alloy (copper) put in the dollar to make it hard. "The ratio of sixteen to one" means that there shall be sixteen times as much silver in a silver dollar as there is gold in a gold dollar. The ratio is based upon the presumption that gold is sixteen times more valuable than silver; or would be if the nation adopted free coinage of silver, thus giving it an equal chance with gold.

Hood's Sarsaparilla purifies the blood, overcomes that tired feeling, creates an appetite, and gives refreshing sleep.

Liver Ills
Like biliousness, dyspepsia, headache, constipation, sour stomach, indigestion are promptly cured by Hood's Pills. They do their work.

Hood's Pills
easily and thoroughly.
Best after dinner pills.
Prepared by C. I. Hood & Co., Lowell, Mass.
