Speaker of the House is Conner. It is said that makes a good presiding officer perhaps the best since '60 was.

Governor Smith, of Vermont, has appointed Benjamin F. Fifield successor to the late Senator Justin S. Morrill of that State. Mr. Fifield is a lawyer.

The Legislature is at work on a new election law. There are many important matters that should receive attention, among others that of an early adjournment. Do your duty, men, and go home.

A feeling of nervousness throughout France, caused by the country's internal and external troubles is indicated by the withdrawal of deposits from banks, chiefly saving institutions. Thirty-five million dollars have been drawn within the last fortnight.

Senator Pritchard has introduced a bill directing the Secretary of the Interior to place on the pension roll the name of Margaret E. Shippy, widow of First Lieutenant William E. Shippy, late of the Tenth regiment United States cavalry, and pay her a pension of \$50 per month.

The Postoffice Department has issued an order providing for U. S. mails on steamers of the Florida East coast line, from Miami to Havana, Cuba. This with service already in operation on the Plant Line from Port Tampa will make at least five trips a week to Havana.

The War Department has finally decided to continue in force, for a time at least, the system of collecting taxes in Cuba practiced by the Spanish authorities, but with some important changes made in the plan, the direction of liberality toward the taxpayers and in the

Aginaldo Employed by the Powers.

A Washington special of Jan. 6 says: President McKinley and his Cabinet are still hopeful that the serious Philippine situation will yield to the diplomatic treatment of Major General Otis and Rear Admiral Dewey and Brigadier General Miller under the President's instruction, but they did not attempt to conceal at the regular Cabinet meeting the apprehension that Aginaldo may attack the American forces and compel them to use force in establishing American authority. It is believed that Aginaldo and his associates are being used by intriguing Spanish, German and perhaps French and Russian, who want to make the task of the United States in the Philippines as difficult and disagreeable as possible. The Administration has evidence of such interference, not only at Hongkong and Manila, but at Paris, where Aginaldo maintains a junta which is believed to be under the influence of the holders of the Philippine bonds, besides the Governmental influences. The Visayas have not hitherto followed Aginaldo, who is of a different race, but it is believed that his Filipino agents have been working among them to induce them to resist General Miller ever since it became known to the Spaniards and Aginaldo that General Otis was going to send an expedition to Iloilo.

Hongkong, Jan. 6.—Members of the Filipino Junta in this city say that the serious crisis in the Philippines is due to what they designate as "overt, unfair treatment of the Filipinos by the United States." According to representatives of the Junta, the Filipinos are determined to prevent the landing of the Americans at Iloilo, and, as a last resort, may destroy the city. They also state that hostilities are probable unless the Americans modify their policy.

Washington, Jan. 6.—Admiral Dewey cabled the Navy department yesterday that the gunboats Concord and Petrel had been sent from Manila to Iloilo, the Baltimore and Callao already being at that place. All four of these vessels are finely manned and equipped, and will be of great service to the American forces in case of trouble. General Miller has been instructed to land his expedition and occupy Iloilo. This statement has been confirmed by two Cabinet officers. Secretary Alger said last night: "The rebels can fight or run."

The re-inforcements of six regiments are being hastened to Gen. Otis as quickly as possible. In addition to the gunboats Helena and Castine, the Yorktown, Bennington and Princeton are under orders to re-inforce Rear Admiral Dewey, and the gunboat Machias may also be sent. The Solace has been ordered to take additional supplies to Dewey, while that formidable battleship, the Oregon, is nearing the Philippine islands.

Gen. Gomez and the Cuban Army.

Gen. Maximo Gomez has chosen to act the part of an intrinsigent, and his proclamation to the Cuban army advising against disbandment contains a covert threat against the American army of occupation, to be executed, probably, in the event of the United States troops remaining on the island longer than the insurgent generalissimo shall consider necessary. "While the soldiers are not paid," says the insurgent chief, "and our Government is not established, I will remain at the head of the army of liberation, which I deem my place." Very likely, however, General Gomez in the course of a short time will find himself in the position of a leader without followers. The Cuban forces in the province of Puerto Principe, which is the stamping ground of the old chief, have been disbanded; their commander, Gen. Lope Recio, has accepted office under General Carpenter, the Military Governor; Gomez's order for reorganization has not been heeded, and his call to arms has fallen flat. Gen. Mario Menocal, commanding the Cuban forces in the provinces of Havana and Matanzas, is a correspondent of the London Times that the disbandment of the Cuban army was proceeding steadily throughout the island, and that the insurgent generals would not entertain any prospect of friction with the Americans. The crucial point in the period of transition seems to have passed, the matters of irreconcilable to the contrary notwithstanding.—The Philadelphia Record.

Cleveland is Sarcastic. Ex-President Cleveland has lost none of his aptitude for phrasing. He gave the country many maxims in the treatment of public questions while in the White House. His latest expression on expansion will give the imperialists nuts to crack. Asked for an expression, Mr. Cleveland said: "I do not care to repeat my views concerning the prevailing epidemic of imperialism and territorial expansion. Assuming, however, that my ideas on this subject are antiquated and unsuited to these progressive days, it is a matter of surprise to me that a reformer of certain natives of our own possessions to acquire in the beneficence of subjecting them to our control and management should in the least disturb our expansionists. This phase of the situation ought not to have been anticipated, nor the incidents naturally growing out of it overlooked. The remedy is obvious and simple. The misguided inhabitants of our annexed territory, who prefer something different from the plan of their control which we propose or who oppose our designs in their behalf, should be slaughtered. The killing of natives has been a feature of expansion since expansion began and our imperialistic enthusiasm would not be checked by the

A Victim of Cigarettes.

A striking example of the effect of excessive cigarette smoking and the over indulgence of alcoholic stimulants was witnessed at the Union depot yesterday morning in the person of Harry A. Dobson, of Goldsboro. He had no control over his nerves whatever, and was in a continual muscular jerk and was suffering intense misery. He was being taken by his father, Mr. J. F. Dobson, postmaster at Goldsboro, to St. Elizabeth's, Washington, D. C., for treatment.

Young Dobson is a telegraph operator, and has held a number of responsible positions. At the age of 14 he was an operator at Charlotte; at 16 he held a position in press service at Atlanta, on the Constitution, and was one of the most brilliant operators in the country. He became, however, what is termed a cigarette fiend and a hard drinker. He took a course at Keeley, but returning to his habits, he had to be confined in the asylum for nine months. This, it seems, was not sufficient. It was a pitiable sight, indeed, yesterday morning.—Raleigh News and Observer.

Says He Blew Up the Maine. A late special from Havana says: "Senor Ricardo Arnaute y Hernandez, editor of El Reconcentrado, has issued a third attack upon his old enemy, Zacharias Brasens, whom, with three others, he accuses of blowing up the United States battleship Maine. Brasens, who is a lawyer and politician, sailed for Spain about two weeks ago.

Crushed by a Huge Door. Charlotte, N. C., Jan. 8.—Harry D. Watts, a prominent young society man of this city, was found dead this morning. He was lying beneath one of the huge doors of the Merchants and Farmers' Bonded Warehouse, which is not quite completed. His head was crushed and his back broken. He had evidently been dead several hours. The door was in place, but was not being, and it is supposed that in going home some time between two o'clock and day he ran against the door, knocking it down and crushing himself to death.

Prof. McClure Convicted of Murder. A special to the Evening Post from Mumfordsville, Ky., says: Professor J. W. McClure, who was indicted with the Rev. Gregory Doyle for the murder of Miss Lida Braeher, was today given a life sentence. The jury was out four hours. Doyle is a Baptist minister and it is alleged had betrayed Miss Braeher and while in that condition he is said to have induced Professor McClure, who is one of the most prominent educators in this section, to perform a criminal operation which resulted in the girl's death. Separate trials were demanded and McClure was tried first.

Fire in Charlotte. The Observer of Saturday says: The fiercest fire that Charlotte has known since the Sanders & Orr building was burned, on North College street, began at about 10 minutes to 12 o'clock last night. The large three-story brick building on West Fourth street owned by Mr. J. H. Carson and occupied by the Shaw-Howell Harness Co., and the one-story brick building, adjoining it on the east side, also owned by Mr. Carson, and occupied by Liddell & Co., as an up-town sample room, were consumed. Hardly one brick was left upon another of the large building. It was entirely destroyed. The walls of the small building remain, as they were between the large building on the west and another building on the east, but the interior was entirely consumed.

Wine of Cardui. For all women. In nature's provision for the regulation of the menstrual function, it cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.
