

TO THE WOMEN OF THE UNITED STATES. Successful Home Treatment.

Dr. Hartman's Cure for Female Diseases--A Generous Offer to Women.

Invalid Women are Applying by Thousands for Dr. Hartman's Free Home Treatment by Letter.

MRS. J. P. COADY, Treasurer of the Ivy Leaf Club, 1702 6th Avenue, Council Bluffs, Iowa, writes: "Peruna is no experimental medicine. I have used it off and on for three years. At that time I was cured of irregular and painful menstruation. Since that time I have taken it for indigestion or whenever I felt overworked and in need of a tonic, and I have always found that it was of great benefit to me. I am therefore pleased and happy to say a word in its praise and shall gladly endorse it to my friends."

drop of the abdomen, should apply at once and become registered as regular patients. All correspondence will be held strictly confidential. As is well known, Dr. Hartman is the president of The Hartman Sanitarium, an institution which has a department devoted exclusively to the treatment of female diseases. He is thus brought to see thousands of such cases every year, the most of whom return to their homes to be treated by correspondence. The principal remedy he relies upon in such cases is Peruna, which every woman should have who has any affection of this kind. Those wishing to become patients should address Dr. S. B. Hartman, Columbus, Ohio.

Mrs. J.P. Coady, Mrs. Hattie Grace, Mrs. Elizabeth Ferguson. "Peruna has changed me from a fretful, irritable, nervous woman into a healthy and a happy one. Nothing seems to worry and to fret me any more. Since early womanhood I suffered with beating down pains and nervousness. I was thin and worried, but Peruna restored me. Those who know me before cannot understand the change, but I can sum it all up in the blessed word, Peruna."--Hattie Grace. "I am pleased to tell what a blessing Peruna has been to me. Several years ago my constitution seemed broken down and I cared little whether I lived or died. I had taken so much medicine that the sight of a bottle made me sick. I had read about Peruna curing women, and I thought perhaps it would help me. I bought a bottle and before it was finished I felt better. I kept on taking it, and after three months' faithful use I was a well woman and able to do the work and undergo the strain of younger days."--Elizabeth Ferguson.

Veterans' Reunion.

A GREAT GATHERING AT NASHVILLE, TENN., JUNE 14-16, OF U. C. V.

The Reunion Committee sends the Southern Press the good news that all arrangements are perfected for entertaining the United Confederate Veterans at Nashville, June 14-16. The Camps of Veterans, the Sons of Veterans, and the three Chapters of the Daughters of the Confederacy are working in harmony with the business organizations of Nashville to furnish an entertainment as nearly faultless as possible.

The fact that these conventions had become so expensive to cities entertaining so deferred action that it was left for Nashville to become host again sooner than was expected. But the capital of the Volunteer State, aided by adjacent communities, is ready. All of the people are in hearty accord, and arrangements are such that this invitation, to Confederate Veterans everywhere, is extended without misgiving in any particular. Arrangements are far better than ever before for Veterans to meet in their old commands--on the campus of the Vanderbilt University.

The only variation from former rules of entertainment is that of giving the "old soldiers" preference. This action will be approved by every loyal, beautiful woman who comes to do them honor. While sponsors and their maids of honor will be entertained by their Department, Division, and Brigade Commanders, provision is being made for many of them in the homes of our best people, so the committee is confident of a perfectly delightful reunion as has ever been held. The orator of the occasion will be Rev. S. McKim, of Washington, D. C., who served in the Army of North Carolina, a most loyal Confederate and a very eloquent speaker.

The Confederate Southern Memorial Association--that of the "Mothers of the Confederacy" who never ceased their labors after caring for the sick and wounded, but went right on erecting monuments for the dead--will hold their annual convention. The United Sons of Confederate Veterans will also hold their annual convention, with promise of more active service and zeal than ever before, hence the importance of this reunion is second to none in the history of the organization.

Nearly Quarter Century.

We are winding up the 24th year of our newspaper experience as editor of THE NEWS. The writer thanks the Leader for the following kind words in this connection, but must say that we do not feel worthy--that we do not deserve such a notice. It is true that we have given to Mount Airy our very life's blood in an effort to help make the city what it is. But it was our duty:

On the 26 day of June next THE MOUNT AIRY NEWS completes its 24th volume. The paper was established by Mr. T. J. Lowry in the extremely young days of an obscure and isolated mountain village, that is now rapidly developing into one among the most important of North Carolina towns. To the newspaper fraternity of the State, to whom Mr. Lowry needs no introduction, it gives the Leader pleasure to say that differences in political persuasions have called from his pen no odious, unjust or untrue expressions, and the broad and liberal views to which he has ever held, identify him as foremost among the pioneers who carved out of the fastnesses of this wild region our beautiful "Granite City." Mr. Lowry is now in the evening of his newspaper career, and journeying to the west, with the shadows lengthening out, he merges deeper into the ever mellowing glow of the trust esteem of life long friends who value him for his intrinsic worth, and whatever may come to him as a reward before he lays down the burdens of life, none can be more valued than that sweet peace of mind that comes from a consciousness of having bravely met all adversities and courageously and unselfishly discharged every obligation in life to the best of his knowledge and ability.

The Report Filed.

THE ATLANTIC & NOTRI CAROLINA ROAD NOT SO VERY, VERY BAD OFF!

The long-looked for report of the committee examining the Atlantic road was made to Governor Aycock last week. It is lengthy, but summed up the Raleigh News and Observer gives it as-- 1. The service given by the road has been the best in its history. 2. The management has secured a steady and large increase in the business of the road. 3. The management, in most respects, has put the road in excellent condition--certainly better than ever before. In the expenditure of money to better the condition of the road, the management has made some unwise or unnecessary expenditures, as for example putting too much money in warehouses and too little money in cross-ties. 4. The president is criticized--and properly--for buying wood from his own land, though it seems that the price paid was not in excess of that charged by others. 5. There are other criticisms, most of which relate only to a difference of opinion. There are expenditures criticized which might have been approved by the committee if they had been in possession only of the information possessed by the management at the time action was taken. 6. There is no suggestion of any dishonesty, fraud or misappropriation of property or funds of the company by any employe or official. The widely heralded slander of defaulting officials had no foundation in fact and brought forth a re-primand to rest upon. 7. It is recommended that the road be leased, properly safeguarded and secured, but the suggestion of lease in leasing finds no favor in their report. 8. The report shows that there is no scientific reason upon which to ask for a receivership. The error pointed out--most of which were authorized by the stockholders and favored by the vote of Cuyler's stock--can and will be remedied by the owners of the property, without necessity of the drastic measure of a receivership.

St. Louis World's Fair.

The editor of The Times spent four days last week at the World's Fair at St. Louis. The Exposition is projected on the greatest scale ever before attempted, but it is a very unfinished state at present. Probably not more than one-third of the exhibits are in place, and several of the buildings are not yet open. The walks and grounds are in a very unsatisfactory condition, and during a rainy spell are almost impassable. The exhibit in the government building is the only one complete.

As we stated, the Louisiana Purchase Exposition is the greatest ever undertaken by any country. It is twice as large as the Columbian Exposition at Chicago, about three times as large as the Paris Exposition of 1900, ten times as large as the Pan-American Exposition at Buffalo, and twenty times larger than the exposition held at Omaha, Nashville, Atlanta, San Francisco or Charleston.

It commemorates the centennial of the purchase of the Louisiana Territory from France by the United States. The total area of the World's Fair grounds is 1,240 acres. The cost of the Exposition is over \$50,000,000. The Agricultural Palace is the largest building ever erected for an Exposition. It measures 546 by 1,600 feet, covers 23 acres and cost \$530,000. The Pike is the amusement district of the Exposition, corresponding to the Midway of other exhibitions. About three-fourths of the attractions are open, many of them costing large sums. Most of the attractions are excellent and well worth going to see.

We hope to give a somewhat extended account of our trip in our next issue.--Concord Times. A Task Before Him. Mayor Osborn has set himself a task in which all good citizens will wish him success--that of ridding the depot of loafers. Yesterday afternoon he fined two or three men \$2.00 and the cost for this offence said he was determined to break it up. There is just one way to do it, and that is by doing just like a man does who keeps his hands and face washed--by keeping right at it. If he does not poke it to them every day he will not succeed. The station officer should pull every one found there without business day and night--every minute--and then he can hardly do it. The difficulty in enforcing such laws is that sports are made, then it dies down. Don't sport; shoot at the time.--Greensboro Record. Talk about sports! That reminds me of the way we temperance folks go down after "johns," as Sister Nation calls them--that is the "sporty places," here and there. You sit down in sports and then no more is said or done until the next sporting time comes around.

Korean Houses.

The Korean style of architecture is suited to anything but an extreme climate such as prevails there. During the winter months it is very cold. The houses are made of bamboo frame-work, plastered within and without with adobe mud. The roof is thatched with rice straw, which is weather proof. The inside may be made into one room by the sliding back of a screenlike partition. Just why these were introduced it is impossible to say, for they are but rarely used, as privacy is never desired in Korea. This open space becomes the living room, and even when travelers are passing along and must halt for the night they are invited to share a common sleeping place on the floor with the entire family. The discomfort of such an experience is extreme during the summer. In the kitchen, which is just without the living room, there is located a most curious kind of stove. From this clay pipe extend under the floor to the living room. They warm the house summer and winter alike, for it has never entered their minds that some means could be devised whereby the heat could be turned off from the other quarters.--Housekeeper.

"Do It To-Day."

The time worn injunction, "Never put off till to-morrow what you can do to-day," is now generally presented in this form: "Do it to-day!" That is the terse advice we want to give you about that hacking cough or demoralizing cold which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day--and let that remedy be Dr. Boschee's German Syrup, which has been in use for over thirty five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure--as it has done before in thousands of apparently hopeless cases of lung trouble. MOFFETT--My Dear Sir: Justice to you demands that I should give you my experience with your medicinal medicine, TEETHINA. Our little girl, just thirteen months old, had had much trouble teething. Every remedy was exhausted in six days of prescriptions from family physicians. Her bowels became so relaxed that she vomited and died in a few days. Her life was almost despaired of until she was given TEETHINA, and in a day or two she was a good child--and her life had returned to her normal state. I have used TEETHINA, and it has been a great blessing to me. I have recommended it to many parents, and it has done good work. Very truly yours, Wm. W. MITCHELL, Father and Physician Tusculum (Chil.) Tenn.
