Nature Cures, the Doctor Takes the Fee.
There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

Alleged Spy Held By Sheriff At Albemarle.
Albemarle, April 11.—Sheriff Blacklock took into custody at a small village south of Albemarle this afternoon a suspicious character who is thought to be a German spy. The sheriff is holding the party on a charge for violation of the law for peddling without license pending instructions from the national authorities. The party had in his possession some maps and other papers. He was at Norwood inspecting the electrical apparatus of the Norwood Manufacturing company and otherwise acting in a rather suspicious way. The party is a rather old man and declares he is no spy but in fact is a soap peddler. He gave his name as Ed Berlin from Pennsylvania.

Regiment of Women for Every Fighting Regiment.
New Orleans, April 11.—"For every regiment of soldiers fighting for their country there should be a regiment of women conserving food, economizing and aiding in every way possible to solve the food problem," said Carl Vrooman, assistant secretary of agriculture, in the address delivered at the night session of the council meeting of the General Federation of Women's clubs.
During the session late this afternoon civil service, art, literature, and home economics were discussed by the chairman of those departments.

NEW ARMOR PLATE PLANT GOES TO WEST VIRGINIA
Charleston Selected as Site for \$12,700,000 Factory to Manufacture Armor Plate.
Washington, April 11.—The government's armor plate and projectile factories for which Congress appropriated \$12,700,000, will be built at Charleston, W. Va., a location recommended by a special navy board as offering an ideal combination of military safety and easy access to manufacturing materials.
In announcing the selection tonight, Secretary Daniels said construction work would begin at once and would be hurried to completion. He also made public the report of the board, which personally inspected facilities of 29 cities chosen out of more than 100 which offered sites.
For the armor plant an appropriation of \$11,000,000 is available, but a greater sum may be asked of Congress before construction is finished.
Charleston offered several acceptable sites free of cost to the government and one of these will be selected for the factories themselves, while one of the protected gorges nearby will be taken over as a proving field.

High Point Man Convicted For The Sale of "Bitters".
High Point, April 10.—J. E. Fletcher, white, was arraigned in Municipal court this morning charged with dealing in bitters containing alcohol in excessive quantities. Introduced as evidence was a case of "wild cherry bitters," labeled as containing 20 per cent alcohol, and it was alleged that bitters had been rather extensively disposed of by the defendant. He was adjudged guilty and ordered to pay a fine of \$25 and the costs and the evidence was confiscated and poured into the sewer. Judge Peacock, from the bench, instructed policemen to make arrests whenever a merchant was found dealing in bitters similar to those carried by Fletcher and added that the search and seizure law would work admirably well in such cases. The bitters were manufactured by a Baltimore concern and the label announces that the contents are guaranteed under the pure food and drug acts. Likewise did the labels testify that the bitters were good for almost anything.

Franklin-McGee.
Mr. J. W. Franklin and Miss Alice McGee of Mt. Airy R. F. D., were quietly married in the North Winston Presbyterian church at 5 o'clock last Sunday afternoon by the pastor Rev. George Lee, the only witnesses being the bride's sister Miss Maude McGee and Mr. George Simmons of Mt. Airy and the members of the church choir. Immediately after the ceremony the happy couple left for Greensboro for a short stay before returning to the home of the groom near this city. Both are splendid young people and belong to two of the best families in the county. The romance dates back to their school days and the best wishes of a host of friends follow them in their new relation.

Other South American Nations to Follow Brazil.
Rio Janeiro, April 11.—It is expected in diplomatic circles here that other South American nations will soon follow the example of Brazil in severing relations with Germany. The Chilean minister is continuing his conferences with Dr. Lauro Muller, the Brazilian foreign minister.
Dr. Muller today received Arthur Peel, the British minister, who subsequently conferred with President Braz.
Spain will take charge of German interests in Brazil.

Tax Notice.
All persons owing taxes will please take notice that I am forced to advertise and levy if not paid. The law has been amended so that the sheriff is required to levy after November the 1st. I have indulged the collection of Taxes since last November. I cannot hold the matter up longer. Take due notice that unless your taxes are paid that I will proceed to advertise. This is positively my last notice. This the 27th day of March 1917.
T. W. Davis, Ex-sheriff.

The World Needs Food!

Short Crops of food products, coupled with increased consumption throughout the world, calls for an increased production.

Americans must make extra efforts to feed not only themselves, but assist in feeding the world.

Let the people eliminated, as far as possible, all waste of food stuffs, and wherever practicable plant acres and small patches of cereals, vegetables and fruits, and give closer attention to the production of fowls, eggs, milk, butter, meats, etc.

Food will be scarce, and correspondingly high, by reason of the world's demands.
