

Fair! The Big Fair Will Soon Be Here! — Are You Ready? Fair!

If not come to our Store and let us fit you up in a new outfit

Our stock of Suits this season is by far the best and largest ever brought to this market. We have all the new popular weaves and leading colors. In Suits we have the fine Chiffon, Broadcloth, French Serges, Gaberdeens, Poptins, Burella Cloth and in fact everything that is used in making ladies nice suits.

The styles this season are more varied than ever before and every one will not have the same kind of suit. The trimmings are beautiful. Fur seems to be the leading thing in fine suits, still the crushed Plush, Velvet, Braid and numerous other things are used more or less.

There is a great deal said about high prices this season, and there is no use trying to deny the fact that goods are high, much higher than usual, still the price is not out of keeping with the raw material. By taking time by the forelock and spending over two weeks on the Northern markets we secured a nice line of goods at very reasonable prices. Some goods we can sell you just as cheap as you ever bought them, while others are considerably higher.

We have suits for small women, medium size women and the large or stout lady—just come in and give our line a "once over" and we can convince you that we have the goods you want.

COATS --- COATS

In this line we are strictly in it. We bought all our cheap and medium priced coats last spring even before the goods were made and the manufacturers made them up through the summer months when labor was cheap. I am selling these coats while they last for less money than I can buy them for now.

The styles this season are very snappy and stylish looking, still they are practical—all the new fall Coats have the large sailor collar with belt either in back or all around, but I can't describe them all so you will have to come and see for yourself.

Dresses! Dresses!

They are simply beautiful this season in Silks, Satins and Serges. We have them in all the leading colors and styles in popular prices. Our stock is not all in yet but the majority of them have been shipped and will be here in the next few days.

Woolen Dress Goods, Silks and Fancy Silks

Our line of all kinds of dress goods is complete in every department. Prices on serges are much higher than last year but still we bought our serges last spring and can sell them to you for less than they can be bought for at the factory. We have a big line in all the leading colors and a strong line of all kinds of plain and fancy silks.

Millinery! Millinery! Millinery!

This is one of our main lines and needs no mention at all still I want to call your attention to the fact that we still have the largest line of up-to-date Millinery in this country. Come in and let our Milliner fix you up a real pretty stylish hat. Will guarantee to please you. Be sure and call and see our line of Ladies Ready-to-wear Goods of all kinds before you buy. No trouble to show goods, whether you buy or not.

When you come to the Fair make our store your headquarters. We are always glad to see our friends and customers whether you buy one cent or not.. Very respectfully yours,

"The Ladies Store"

J. L. HARRISON.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.

FOR SALE!

Wood's Seeds

Rosen Rye

The most vigorous growing and productive of Seed Ryes. Stools out better, superior quality of grain, and destined, in our opinion, to take the place of all other Rye.

Wood's Fall Catalog

Gives full description and information, and also tells about the best SEED WHEAT, OATS, RYE, and Other Seeds for Fall Sowing. . . . Write for Catalog and prices of any Seeds required.

T. W. WOOD & SONS, SEEDSMEN, - Richmond, Va.

Increased Output of Vessels Being Urged.

London, July 20.—Admiral Jellicoe, first lord of the admiralty has sent a message to British iron and steel workers in factories and shipyards urging them to increase the output of warships for hunting submarines and new merchant ships. The statement, which also was signed by Sir Edward Carson, formerly first lord of the admiralty, asserts:

Every day merchant ships are being sunk, and we need to use all our resources to prevent our being threatened with starvation. The enemy knows this, and has staked everything upon it. If he succeeds, victory will rest with him, but if he fails his defeat is certain.

"There are only two weapons that we can use, and both can only be forged in the shipyards of the country. One is the class of warships that enables the navy to hunt and destroy the enemy's submarines. The other is every new merchant ship that takes the place of a ship that has been sunk. These weapons must both be used together, and upon the men of the shipyards and the engineering shops depends entirely on the output of these weapons.

"How this output can be increased is a question that concerns every one of us, and no measure that helps to make better use of our labor and our machinery can be neglected. We, who are secure in our homes, owe it to the brave men who are dying hourly for us on land and sea and in the air to spare no effort to give them weapons with which to win the war for us.

"The board of admiralty are confident that in the supreme crisis of our history the men of the shipyards and workshops will see to it that this appeal shall not fall on deaf ears."

It is no Time to Play Parties.

War in Europe will probably prove a victory for the allies, but indications are that it will not leave much of a Democratic party in America.—Winston Salem Republican.

Passing over the questionable propriety of mentioning politics or the fate of parties in connection with the

war, if the Republican really thinks the war is to destroy the Democratic party, that paper should be strong for the war—so strong that it would have neither time nor inclination to indulge in carping criticism, for political effect, when the fate of the country is at stake. Speaking in Raleigh a few days ago, Judge Prichard said in effect that men who played politics in connection with the war are traitors to their country—and Judge Prichard never spoke a greater truth in his life.—Statesville Landmark.

Over 1,000 Students At State University.

Chapel Hill, Sept. 22.—The University of North Carolina concludes its first week since its formal opening last Thursday with a registration of more than 1,000 students, thereby exceeding all previous predictions by several hundred. The fact that the university has been able to equal very nearly its enrollment record last year, at this time, in spite of the loss of students through the draft and the enlistment in training camps, has been highly gratifying to faculty and alumni.

A spirit of earnestness and serious effort pervades the atmosphere of the campus. The realization of the grave task that confronts the young men of America has cast a sober, but wholesome, shade over college activities.

In this change the introduction of military science into the curriculum has been an important cause. More than 450 students are now taking this course, which consists of six hours' training in the morning and six hours in the afternoons a week, including drill, trench work, lectures and other and other instruction in the elementary forms of warfare. The men enlisted for the training have been divided into four companies, which, in turn have been divided into platoons and squads commanded by provisional corporals.

The cancelling of the varsity football schedule has been a direct outcome of the introduction of military science. However, the committee on athletics announces that all other class and varsity contests will be continued.

Sell Your Tobacco

---With---

Haynes, Brown & Co.

Highest Prices and Best Accommodations

Now is the time to sell your primings. Not in the history of our business have we been able to sell primings as high as we are selling them now. For the past five years primings have sold better before the stalk cured tobacco began to sell than it did after, so we advise our customers and those who are not our customers to sell your first primings early as possible.

Have your tobacco in good keeping condition and come to see us and we will see that every pile of your tobacco brings the top of the market.

Our motto is: "Highest Prices and best Accommodations."

Your friends,

Haynes, Brown & Co.

**First Sale Days for September:
Mondays and Thursdays.**
