

LEGAL LAND ADVERTISEMENTS

NOTICE

By virtue of a deed of trust executed to me by J. S. Marshall and wife Joanna Marshall, to secure a debt of one hundred and fifty (\$150.00) dollars, due and payable to Thos. J. Byerly, conveying the lands hereinafter described, which deed of trust is registered in the office of the Register of Deeds of Surry County, Book 47, page 181, default having been made in the payment of said debt at maturity and on application of the holder of the note, I will sell for cash to the highest bidder in front of the McCargo Building in Mount Airy North Carolina, on

the 27th day of April 1918 at 2:00 o'clock P. M., the following real estate to-wit: lying and being in Surry County, North Carolina and bounded as follows:

Adjoining the lands of Harden Laffoon, S. E. Marshall and others, and beginning at a stake on the West side of the Mount Airy and Dobson road and S. E. Marshall's garden corner and runs with his line passing several corners to Harden Laffoon's line and corner; then with Laffoon's line passing several corners to Mrs. W. D. Rigg's line; then with said Rigg's line passing a corner to S. E. Marshall's line; then S. E. Marshall's line to corner of lot formerly owned by J. S. & S. E. Marshall and known as the shop lot on which is situated the wagon shops, saw mill and etc., then with the line of said shop lot to the Mount Airy and Dobson road; then with said road to the beginning, containing thirty-five acres, more or less, on which is situated said J. S. Marshall's dwelling, out houses and stables.

Sale made to satisfy said debt, interest and cost.

This March 25, 1918.

J. H. FOLGER, Trustee.

NOTICE

By virtue of an order made by the Clerk of the Superior Court in the case entitled "In Re: Mrs. M. B. Beard and others, ex parte," I will offer for sale on the premises on the

27th day of April 1918, at 3:00 o'clock P. M., the following real estate, to-wit:

All the lands lying on the Northwest side of the Old Hollow road near Banner Town owned by Mrs. L. E. Banner, including the home place, and also all the land lying on the South side of said road formerly owned by John Banner adjoining U. G. Belton and others.

The said land will be offered in lots and then as a whole, the Commissioner reporting the highest bid. Terms of sale: One-third cash, one-third in twelve months and one-third in two years. Bond with approved security for the deferred payments will be required. The sale will be made subject to confirmation by the Court.

This March 27th, 1918.

J. H. FOLGER, Com.

NOTICE

The undersigned, convicted February term 1918 of Surry Superior Court of unlawful manufacture of liquor and sentenced to a term of 15 months imprisonment, will on the 26th day of April 1918, apply to his Excellency, the Governor of North Carolina for Commutation of sentence or for pardon. All persons desiring to oppose the granting of pardon or commutation are notified to file their protests in writing with the Governor at Raleigh N. C. on or before said date.

This March 30, 1918.

J. P. JONES.

NOTICE

North Carolina, Surry County, In the Superior Court. April Term 1918

Elsie Davis Vs. T. E. Davis.

The defendant above named will take notice that an action entitled as above has been commenced in the Superior Court of Surry County by the plaintiff and against the defendant for the purpose of obtaining an absolute divorce from the bonds of matrimony; the said defendant will further take notice that he is required to appear at the next term of the Superior Court to be held on the 7th Monday after the First Monday in March 1918 at the Court House in Dobson in said county and state and answer or demur to the complaint in said action or the plaintiff will apply to the court for the relief demanded in said complaint.

This 18 day of March 1918.

J. A. JACKSON, Clerk of the Superior Court.

Cow Peas Wood's Seeds.

Velvet Beans

Save Fertilizer Bills, increase crop productivity, and make the best of Summer forage crops.

Will improve land wonderfully, even after using crop for forage or grazing purposes. Can be grown to excellent advantage in your Corn crop, increasing yield of Corn and making a wonderful improvement to the soil.

Write for prices and "WOOD'S CROP SPECIAL" giving information about all Seasonable Seeds. Mailed free on request.

T. W. WOOD & SONS, Seedsmen, Richmond, Va.

Notice of Summons and Warrant of Attachment in Superior Court.

North Carolina, Surry County. Nannie Jenkins (Formerly Nannie Dotson) against John Evans.

The defendant above named will take notice that a summons in the above-entitled action was issued against said defendant on the 7th day of March 1918 by the Clerk of the Superior Court of Surry County, North Carolina which summons is returnable to the April Term of the Superior Court of Surry County on the 22nd day of April, 1918. The defendant will also take notice that a warrant of attachment was issued by said clerk on the 7th day of March 1918 against the property of said defendant which warrant is returnable at the time and place above named for the return of the summons.

The defendant will further take notice that the above-entitled action is brought for the purpose of recovering a judgment against the defendant for the sum of \$500.00 with interest due thereon by notes executed to the plaintiff which are now due and unpaid, being the balance of purchase money due on real estate. And the defendant will further take notice that he is required to appear at the next term of the Superior Court of Surry County to be held on the 7th. Monday after the First Monday in March, it being the 22nd day of April 1918 at the Courthouse in said county in Dobson, N. C. and answer or demur to the complaint in said action or the plaintiff will apply to the court for the relief demanded in said complaint.

This 18 day of March 1918.

J. A. JACKSON, Clerk of the Superior Court.

What are you doing to Help Win the War.

If you think you are saving all that you can and that there's nothing else left for you to do to help your country win the war, you are advised to read the leaflet, "Help Win the War" that is now being sent out from State Headquarters for War Savings at Winston-Salem. If you "haven't seen your duty and done it," this little leaflet will let you know it. It makes its message direct and personal and asks questions the answers of which you can't evade. For instance, it asks:

"Do you put out all unnecessary lights at home and thus save coal?"

"Do you keep the temperature of your house down to 68 degrees which not only saves heat but improves health?"

"Do you save gasoline, rubber and skilled labor by cutting out all unnecessary use of motor cars? Gasoline is a most important factor in winning the war, so is rubber, and chauffeurs are needed on Government work."

"Are you cutting down on amusements? Recreation is necessary but not the amusements that cost so much money. So far as you can, get your amusements more out of doors and out of your brains and less out of your pocket book."

"Are you foregoing personal luxuries—things not essential to your health or efficiency—or that of your friends?"

"Are you wearing out your old clothes and buying only that which is necessary and will wear well? By so doing you will save labor and material that should be used in winning the war."

"Are you avoiding unnecessary travel? The Government has already asked you to take no unnecessary trips on the railroad that they may be used for war service?"

"Do you produce anything? If not, sure you are consuming as little as possible and releasing others who can produce, what is necessary to keep things from getting to pieces. Don't worry about shabbiness in war times."

"Do you employ servants who might aid you plant your War Garden or an extra acre to help win the war? Last year's gardens saved the food situation."

"Are you saving and investing your savings in Thrift and War Savings Stamps?"

"If you refuse to do any or all these put yourself in the same class with the healthy young man who refuses to serve his country."

Tells About Long Range gun.

Geneva, Switzerland, Saturday March 30.

Lieut. Gen. von Rohue, a German authority on ordnance and inspector of artillery gives in a magazine of which he is editor, additional details in regard to the long distance German gun with which Paris is being bombarded. He says they are 65 1/2 feet long. The empty shell weighs 330 pounds, and the charge weighs the same. The projectile attains a height of 18.6 miles and descends from the sky like a meteor on its target.

Gen. von Rohue says it requires about three minutes for the shell to reach its destination. The greatest difficulty in the way of increasing the range was overcome by sending the projectile high enough to reach the rarified air.

It appears the Germans are extremely proud of the bombardment of Paris.

Warning Issued the Public to be Careful.

New York 31.—Warning to the public "to be most careful in the future when eating bread, rolls, cakes and pastry" because "jagged bits of glass have been found in flour, bread and bread wrappers," was issued by the federal food board here today.

The warning added that "complaints of this character have been sufficiently frequent to warrant the board in publishing this warning, much as it dislikes to be put in the position of seeming to unduly alarm our public."

According to the board, no organized attempt to work injury by placing glass in bread has been found, but such acts are attributed to malicious persons engaged in the bakeries and factories affected.

"Housewives should examine bread after it has been cut and made ready for the table," says the warning.

Americans Sing on the Way to Battlefront.

With the American Army in France Saturday, March 30.—All the American troops have been turned over to the allies for such use as they see fit to make of them. American troops may soon be fighting side by side with their British and French allies in the battle which is raging in northern France.

It is enough to say that great activity of many sorts is in progress in the entire American zone. Miles of motor trucks loaded with Americans have passed through the towns, some going in one direction, some in another. Through a driving rain the motor trucks ploughed their way along muddy roads, the Americans singing. Many of the trucks had American flags fastened to their tailboards.

On other roads mile after mile of marching Americans splashed through the mud which came over their ankles. The horses were steaming from the work they had to do. All the men are working as hard as possible. With the realization that they are to be of service in the common cause and used in the present conflict.

Calomel Salivates and Makes you Sick

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone, ask for it, better than horrible calomel, your money is waiting for you.

FOOD PRODUCTION CAMPAIGN FOR N. C.

By B. W. Kilgore.

The National food situation is serious; the Southern food situation is most serious. For North Carolina not to at least feed herself would not be a reflection, but a national calamity. It might even mean much personal privation because of inability of transportation to bring food to us, no matter how plentiful elsewhere. North Carolina must feed herself and have some to spare so to be a national asset, and not a national liability as to food.

That there may be no serious privation in our homes; that transportation may be given first consideration in connection with our military needs and not in bringing food to us; and that the surplus produced elsewhere may go direct to the support of our Army and Navy, and those of our Allies and the needs of their civil population, are the strong reasons spurring us to do our part. To accomplish this will require careful thought, planning and action.

In connection with the program asking farmers to volunteer to do their part in this movement to "feed ourselves and have some to spare," the following suggestions are made covering the main crop and animals for the States.

Corn.

The production of corn must, by all means be kept up to last year, and increased ten or more per cent where possible, by increasing acreage, giving better preparation, cultivation, seed, and fertilization so as to increase acre yields, depending largely on increased yields; it does not pay to cultivate land producing less than 20 bushels of corn per acre. Last year was a specially favorable corn season. Extra care and effort will be needed this year to increase the total production of last year. An abundance of corn is essential for human food and for live stock.

Small Grains (Wheat, Oats and Rye.)

These crops for the spring are already out, and every means should be followed to make the yields as large as possible, and to harvest the crops in good condition and follow with peas or soja beans for forage or soil improvement.

Forage and Hay Crops.

Grass and clovers, soy beans, cow peas, velvet beans, etc., should be planned for to furnish a plentiful supply of roughage for all farm and town animals, and some to spare for sections that may be short and for the army. The live stock industry cannot be developed without an abundance of forage.

Peanuts and Soy Beans.

Soy beans and peanuts should be grown on larger acreages than heretofore because of their great value as human and stock foods and sources of urgently needed vegetable oils. The acreage of soy beans particularly should be increased ten to twenty per cent.

Sorghum.

The sorghum crop should be largely increased by the planting of small areas on many farms, for producing syrup for the family and for those who cannot grow or have syrup made, and for the people in the towns. The scarcity of sugar and other sweets will make this urgent and profitable. Sorghum is also a productive and valuable forage for stock.

Sweet Potatoes.

Sweet potatoes should be grown in as large quantity as possible and plans made in advance for storing so as to keep with as little loss from rotting as possible. Storage houses can be built for this purpose at little cost.

A home garden for not only every farm, but for every town family, with plenty of vegetables during the growing season and to be put up to meet the needs for the entire year should be provided.

The orchard should be handled to the limit for fruit for the family, for

sale, and for canning and drying. Don't forget to spray.

Hogs.

North Carolina is asked by the Government to increase its production of pork 15 per cent. This means an addition of 200,000 to the hog production. The increase last year was 38,087. Make plans to produce enough hogs to supply meat for the country and the towns, for our soldiers, and some to spare for our allies. Hog pastures and corn are necessary for this. Prepare for it in planning your crops this year.

Family Cows.

At least one good milk cow, and better two or more, should be provided for each farm family in addition to providing for the supply of milk and butter for the towns. Pasture, roughage, and by-products feeds are required for the successful handling of cattle.

Poultry.

The stock of poultry in the country is the smallest ever known because of the large demand and the high price of feeds. The stock of poultry must be increased and handled so as to get the most out of it. Preserve eggs now, while they are cheap, for use next winter. A good method is to put them up in waterglass solution. One part waterglass to 9 or ten water is a good proportion.

The men and women county agents and all the other workers in the various lines of the Agricultural Extension Service of the North Carolina

State College of Agriculture and Engineering, and the State and Federal Departments of Agriculture are putting all their efforts into this movement and will give assistance wherever needed.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."

—Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

Teach Children to Beware of Flies

Explain to them how flies are hatched in filth. How, after crawling around in outhouses, privies, manure piles and over dead animals and decayed matter, they come into the home and wipe their nasty feet on the family food, leaving a trail of disease germs everywhere.

Flies Cause Infantile Paralysis, Typhoid and Other Fevers

The best doctors in the world will tell you that flies are the cause of a great deal of sickness, especially summer complaint, infantile paralysis, dysentery, typhoid and other fevers. Don't let flies bring sickness into your home.

RED DEVIL LYE KILLS FLIES

Keep a can of RED DEVIL LYE in your out-house and sprinkle it on the filth freely, once or twice a week. It consumes the filth, destroys the fly eggs and prevents odors and sickness.

FOR SALE AT ALL GROCERS Write for Free Booklet "PREVENT"

WM. SCHIELD MFG. CO., ST. LOUIS, MO.

Notice to Timber Men

We have orders for 20,000 No. 1. cross ties from White Oak, Post, and Chestnut oak, standard specifications of 7"X8"X8 feet and 6 inches long, when sawed and 7"X7" hewed, same length as sawed.

We also have order for 5,000 No. 2 cross ties, to be any size under the above sizes, down to 6"X7" and length to be the same as for No. ones, also to be from above kinds of oak timber.

Almost all timber haulers already know the specification and we mention this for those who will be getting out timber this year who have not made ties before.

Also all this timber must be sound, all knots smoothed off with the tie and all bark peeled off when either sawed or hewed.

A great many haulers lose their grade by measuring with their axe handles and we would ask that you cut a pole exactly eight and one half feet long and make all ties according to this length, and notch it for 7 inches to get face and thickness.

At this time we also wish to thank the hundreds of people who sold their timber to us last year and beg to assure them of the same fair and courteous treatment for the coming season.

The price, effective February 1st is 60 cents each for No. 1 ties and 50 cents for second class.

For Red Oak, Spanish Oak, and all other kinds of oak (except the above mentioned kinds,) also Hickory and Ash we will pay 50 cents for No. 1's, and 40 cents for No. 2's, same specifications as above.

Your Friends,

Shelton & Miller
