**AMERICAN NAVY ELIMINATES WASTE**

**SLICING BACON ON BATTLESHIP**

ACKIES in the American navy are classed as the best fed body of men in the world. In the ship's galleys every effort is made to eliminate waste. In the upper photo one of the cooks on the North Dakota is operating a meat slicer that cuts bacon with the least possible waste. Fat is fuel for fighters. Bacon is badly needed in the allied armies and navies. The allied needs in pork products are 150,000,000 pounds monthly, three times as much as before the war. Another waste eliminator on the North Dakota is the potato peeler, shown in the lower photo. Nothing is lost except the actual potato skin. There is a sufficient quantity of potatoes in America for greater use in every home and for all needs of army and navy. Eat more potatoes, eat less wheat.

**Plan Your War Garden Now; Save Time and Money.**

**HELP INCREASE OUR EXPORT FOOD STOCKS**

**EVERYONE MUST HELP.**

Wars cannot be fought without money, and upon the Treasury centers every financial demand upon the Nation. The rich of this country cannot alone meet the needs of the Nation; the men of the country cannot do it alone; the women of the country cannot do it alone; but all of us, the people of the United States, disregarding partisanship, forgetting selfish interests, thinking only of the supremacy of right and determining to vindicate the majesty of American ideals and secure the safety of America and civilization, can do the great and splendid work which God has called upon us to do.

W. G. McADOO,  
Secretary of the Treasury.

**Lone U-boat Said to be Making Raid**

London, England—Discussing the submarine cruiser activities off the American coast with American press representatives this afternoon, a naval authority expressed the opinion that the probability was that only one submarine was operating and that she was the latest type, with 25.9 guns and of about 2000 tons.

There could be no doubt that her primal objective was the American troop transports, and that an attempt to disperse the allied naval forces was the second objective.

It was thought unlikely that the U-cruiser could be operating from a secret base, as the range of this type of vessel was 8000 to 10,000 miles.

That the present activities in the Western Atlantic marked the inauguration of a continuous campaign was also the opinion expressed. That Germany was doing this without any previous blockade warning was also a factor not lost sight of.

George W. Wickersham, former Attorney General of the United States, says: "Business as usual means waste as usual."

**Some Good Resolutions.**

I will plant my poorest land in cow-peas, peanuts, lespedeza, or soy beans. I will prepare and fertilize the land well.

2. I intend to commence raising hogs and cure my own bacon or quit eating meat. I am thoroughly ashamed of my past record on this line. I will get two good common sows and a first class boar and begin right I will have a thoroughly good permanent pasture and a rotation of grazing crops for twelve months.

3. I will get rid of all cows that give less than two gallons of milk per day.

4. I will fatten and eat or sell every hen over two years and every hen laying less than 100 eggs per year.

5. I expect to increase the yields of the crops grown on my farm this year and next year and the next until I am getting one bale of cotton, 40 bushels of corn and 60 bushels of oats. —The Progressive Farmer.

**Cost of Publishing A Religious Paper.**

The Presbyterian Standard figures that the increased cost of doing business has increased the cost of publishing that paper to \$2.46 per year; and it announces an increase of subscription from \$2.00 to \$2.50. If the war continues very long comments the Statesville Landmark, many newspapers will find it necessary to either advance subscription rates or quit business. The idea that the subscription price of a newspaper should not be changed, regardless of cost, is nonsense. But few publishers have the courage to advance the price, simply because it has always been the custom not to change. Every other business changes prices with the change in the cost of doing business. There is no reason why a newspaper should not do likewise.

**Two Years More?**

Delivering a patriotic address at Rock Island, Ill., former President William H. Taft declared that the war would be won by the time the United States had been in the conflict three years. "It will require one or possibly two years for the United States to get started right," Mr. Taft said, "and then possibly a year or so to win and end it; provided no other country hinders. If Russia turns her resources over to the enemy it will require a little longer for us to win."

**Fatal Automobile Accident On the Country Club Road**

Winston Sentinel, 19th.

A fatal automobile accident occurred on the Country Club road, near the intersection of Lovers' Lane, this morning about one o'clock when a car, occupied by Miss Ruth Tyree and Messrs. George C. Jr., and Bynum Tudor, turned turtle, throwing the occupants into a barbed wire fence by the side of the road. The young people were returning from the Country Club where they had been guests at a social event during the evening.

The car was driven by Mr. George C. Tudor, Jr. The accident occurred when an attempt was made to pass another car on the road. It appears that the car in passing came too suddenly back into the road, striking the front wheel of the front car, turning the one in which Mr. Tudor was driving over.

There were many people on the road and assistance was immediately on the scene. The injured, who included all three occupants of the Tudor car, were brought immediately to the City Hospital where they were given medical treatment. Miss Tyree lived only a few minutes after reaching the hospital. Mr. George C. Tudor was badly cut and bruised about the body and was unconscious for several hours. Mr. Bynum Tudor was also seriously injured. The extent of the injuries could not be definitely stated this morning.

Miss Tyree was the 15 year-old daughter of Mr. and Mrs. L. P. Tyree, of 225 Broad street, and was one of the most popular of Winston-Salem's younger set. She was a favorite among a large circle of friends and schoolmates, and was loved by all who knew her. The accident has spread a gloom over the city, and the sympathy of the community is extended to the bereaved ones. Mr. Tyree is one of the members of the city commission, holding the office of commissioner of finance.

Messrs. George and Bynum Tudor are sons of Mr. and Mrs. George C. Tudor, the father being a prominent insurance man of this city.

**More Than a Match for The Germans.**

American soldiers are more than a match for the Germans, in the opinion of Reuter's correspondent with the American forces in France. Whenever the Germans meet the Americans he says, the Germans have been beaten.

"My impression," he adds, "is that the Germans will find in their new foes men more resembling our dominions soldiers than the home-born Tommy. They are full of tenderness, as the German wounded already have had cause to know. But they will not have mercy on men who do not fight straight and will avenge comrades slain by treachery to the utmost platoon."

Remarking how quickly the Americans are learning by experience the correspondent continues:

"There is plainly much to be expected from the American army, only and it must be said with insistence, we want a lot of them. Secretary Baker has promised a million soon. That is good but a million goes a wondrous small way out there. We want that million doubled, as soon as possible. A million soon will be worth many millions later."

**MASONIC NOTICE.**

**Artillery for U. S. Motorized.**

Motorization of field artillery will be carried to a greater extent in the American Army than in any other army engaged in the war. Not only will a far greater amount of motor equipment be provided in proportion to strength of the Army, but it will be used for work where armies now in the field depend solely upon horse power and man power.

The Ordnance Department has succeeded in developing such types of tractors that exclusive of the heaviest field artillery mounted on railroad carriages, all American artillery will be motorized, with the exception of some of the 3-inch gun batteries. The problem of motorization of field artillery is a difficult one, which explains why it has been carried to a greater extent than has been the case with the armies that have been fighting in Europe for the last three years.

The possible output of tractors for the transport of field artillery in the United States is practically unlimited, whereas the supply of horses is at present limited and is becoming more so each month.

**ANNOUNCEMENT**

At the solicitation of many of my friends, both democrats and republicans, I have decided to become an independent candidate for the Senate from this District comprising Stokes and Surry Counties.

Many voters in this district believe that the present nominee has had the honor long enough. If I am so fortunate as to receive your vote in the coming election, it will please me to have enacted such laws as are necessary for our counties regardless of politics.

Yours truly,  
C. C. HUTCHEN.

**FOR SALE OR RENT.**

**HOW MRS. BOYD AVOIDED AN OPERATION**

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give 'Lydia E. Pinkham's Vegetable Compound' a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 6th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal. If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.
