TO EXPECTANT MOTHERS
A Letter from Mrs. Ward Tells How Lydia E. Finkham's Vegetable Compound Helped Her

Springfield, Ohio.—"Lydia E. Finkham's Vegetable Compound proved a splendid medicine for me before my fourth child was born. With the first three I had been sick and weak, and had sick headaches twice a week. I couldn't keep enough food down to do me any good, and my work was left undone many a time. My doctor-in-law told me to take the Vegetable Compound when I began to have the same old dreadful sickness and headaches and was so worn out. Since then I have only had two headaches, had a good appetite and scarcely lost a meal. I have a fine, healthy baby girl who has never had a sick day. The nicest part is that I am healthy, too. It did me a lot of good, and if I should ever have another baby I will take your medicine at once."
—Mrs. EMMA WARD, 1027 Park Avenue, Springfield, Ohio.

Lydia E. Finkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and tone up the entire system, so that it may work in every respect effectually as a nature intends.

Reidsville, June 1st. L. M. Sheffield, tax collector of Leaksville township, has been relieved of his pocketbook, 3,000 in money and checks and other papers of value.

The haul was made in a mysterious manner while Mr. Sheffield was answering the telephone in his office in Leaksville.

Three or four persons were in the office at the time, some of whom have been questioned and who appeared just as mystified as Mr. Sheffield.

The officer had just taken his purse from his pocket in order to get a stamp for a letter when he was interrupted by the ringing of the telephone.

He left the pocketbook on the table, went to the 'phone' and returned to discover the loss. Suspicion, of course, pointed to some of the occupants of the room.

Mr. Sheffield has offered a liberal reward and is using every method to apprehend the rogue.

Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require and internal treatment?
